In May of 2009, my husband was severely injured at the geothermal plant where he worked. He suffered second and third-degree burns over 73 percent of his body after falling into a hole filled with 140-degree brine water. Miracles began happening right before our eyes. He was able to climb out of the hole by himself, run the length of a football field to wash off, and ended up being flown to a trauma hospital where a world-renowned doctor would begin the tedious task of stapling cadaver tissue onto all of his burns. I created a web page on CaringBridge and began journaling as a means of communication with family and friends who lived four or more hours away. The response was overwhelming as you will attest to when you start turning the pages. There is no doubt in my mind that all the prayers and words of comfort played a big part in Mark's healing process. I also believe the Holy Spirit comforted me and gave me the strength I needed to be there for my husband. ***Cover photo taken near the entrance of the Coso Operating Plant.

Heartbreaking, life-affirming, brave and bold - Karen Gregory's debut is a completely different kind of love story. 'Is there anything that's concerning you?' Felicity says. 'College, home, boyfriends?' Though she's more or less smiling at this last one. I don't smile. Instead, I feel my face go hot. Silence stretches as wide as an ocean. When I look up, Felicity has this expression on her face like she's just seen Elvis. Slowly, she leans forward and in a gentle voice I've never heard her use before she says, 'Have you done a pregnancy test?' When Hedda discovers she is pregnant, she doesn't believe she could ever look after a baby. The numbers just don't add up. She is young, and still in the grip of an eating disorder that controls every aspect of how she goes about her daily life. She's even given her eating disorder a name - Nia. But as the days tick by, Hedda comes to a decision: she and Nia will call a truce, just until the baby is born. 17 weeks, 119 days, 357 meals. She can do it, if she takes it one day at a time ... Heartbreaking and hopeful by turns, Karen Gregory's debut novel is a story of love, heartache and human resilience. And how the things that matter most can't be counted. Fans of Lisa Williamson, Sara Barnard and Sarah Crossan will fall in love with Karen's writing.

#1 New York Times Bestseller " THIS. This is the right book for right now. Yes, learning requires focus. But, unlearning and relearning requires much more—it requires choosing courage over comfort. In Think Again,

Adam Grant weaves together research and storytelling to help us build the intellectual and emotional muscle we need to stay curious enough about the world to actually change it. I've never felt so hopeful about what I don't know." —Brené Brown, Ph.D., #1 New York Times bestselling author of Dare to Lead The bestselling author of Give and Take and Originals examines the critical art of rethinking: learning to question your opinions and open other people's minds, which can position you for excellence at work and wisdom in life Intelligence is usually seen as the ability to think and learn, but in a rapidly changing world, there's another set of cognitive skills that might matter more: the ability to rethink and unlearn. In our daily lives, too many of us favor the comfort of conviction over the discomfort of doubt. We listen to opinions that make us feel good, instead of ideas that make us think hard. We see disagreement as a threat to our egos, rather than an opportunity to learn. We surround ourselves with people who agree with our conclusions, when we should be gravitating toward those who challenge our thought process. The result is that our beliefs get brittle long before our bones. We think too much like preachers defending our sacred beliefs, prosecutors proving the other side wrong, and politicians campaigning for approval--and too little like scientists searching for truth. Intelligence is no cure, and it can even be a curse: being good at thinking can make us worse at rethinking. The brighter we are, the blinder to our own limitations we can become. Organizational psychologist Adam Grant is an expert on opening other people's minds--and our own. As Wharton's top-rated professor and the bestselling author of Originals and Give and Take, he makes it one of his guiding principles to argue like he's right but listen like he's wrong. With bold ideas and rigorous evidence, he investigates how we can embrace the joy of being wrong, bring nuance to charged conversations, and build schools, workplaces, and communities of lifelong learners. You'll learn how an international debate champion wins arguments, a Black musician persuades white supremacists to abandon hate, a vaccine whisperer convinces concerned parents to immunize their children, and Adam has coaxed Yankees fans to root for the Red Sox. Think Again reveals that we don't have to believe everything we think or internalize everything we feel. It's an invitation to let go of views that are no longer serving us well and prize mental flexibility over foolish consistency. If knowledge is power, knowing what we don't know is wisdom.

My wife, Karen and I, grew up in difficult home environments. Both of us had parents who remained married. And both of us were also abused by others. I'll write of those experiences in other books. But this book emerged from those experiences because of a deep conviction that every kid deserves safe adults. The abuse Karen experienced, fragmented her soul. Each soul fragment, a hidden aspect of her personality, had a name. As she walked through 20 plus years of recovery, I began to meet the "kids on the inside," one after another. One of the first I met was Phillip, a 6-year-old little guy, on the spectrum, who rocked and said colors to calm himself. I loved Phillip, this part of Karen. He was artistic, humorous, intelligent, and the holder of so much faith and joy. He became for me a picture of a kid who had endured too much for his young years and who at last had found healing. While in a class I was teaching a couple years ago, when I completed one of the assignments, I made a discovery I never expected. The assignment was to identify something I needed to proclaim, tell what it was and how I would share it. My deep desire to protect and rescue kids from tough environments emerged as a desire to tell a story and help kids in the process. I said to my group that I would write a story. In that preparation, I saw this picture of a little boy in a dark closet. He sat there with his service animal. He was rocking, and rocking and saying his colors. And I heard the start of his story, as he said, "Hello, my name is Phillip." I began to write. Over the next year, I wrote about 15,000 words. A friend then encouraged me with the writing, so with lockdown, I began to get up at 5 am to write daily. The thirty-chapter story flowed forth over the next nearly three months as this child described his world.

As I wrote, I realized the story went deep. It accessed deep healing in my own heart as character after character emerged in the story. Sometimes, as I wrote, I wept. Other times, I laughed out loud, almost forgetting I had written what made me laugh. Still others, knowing what was yet to happen, I didn't want to write for I feared "writing about that!" I want you to know, part of the little boy you'll meet in this book is me emerging from the dark closets of my own past finally finding his voice. And part of the little boy is the other "Phillip," I first met in Karen. Both of these internal kids, alongside of the story which seemed to write itself about a child who is not either of us, but rather, himself. Jesus figured into this story, for both my wife and I have experienced His immense mercy, power and grace in our own healings and so, it made sense when suddenly, He quietly, powerfully entered Phillip's story. The Lion of the Tribe of Judah surprised me as He ushered in powerful forgiveness. I know there are children out there growing up in tough environments who need to know there is hope. To them I say. "The scary adults around you are not the only adults out there. There are people, real people, who will see you for the wonderful human beings you are and will love you. May Phillip's story bring you hope, for in Jesus there is always hope." And Phillip--I'm grateful to have known and loved you, and to know you still. You have changed my life for the better.

Winter John Wiley & Sons

This anthology of poetry and prose by poets from around the world delves into the many celebrations that begin early in the season and the doldrums and melancholy that winter can bring. There are themes dealing with Halloween, Thanksgiving, Christmas, New Year's Day, Valentine's Day, and Mother's Day. There are also themes dealing with love, family, memories, and loss, including the loss of a spouse, children, pets, parents, homes, and oneself. We all celebrate and grieve from every corner of the world. While winter may be snowy in one part of the world and stormy in another, and Christmas may be during a cold season in the North and warm in the South, we are all humans and can relate to each other on the simplest levels of joy and grief. On these basic levels, we can comfort and empathize with one another to get through the struggles of what seems cold and dark, just like the months we refer to as "winter." Each poet is represented by their dialect and word spelling to demonstrate where they are from. Every poet is housed in their own "chapter," which tells a little about them and their location. Curated and edited by Brandy Lane, of Where Beautiful Inks LLC, this is her first collaborative anthology.
