Mazey Eddings, author of the “witty, fast-paced rom-com” \* A Brush with Love, mixes passion and humor to create a luscious love story between two people stumbling through life and learning to open their hearts in Lizzie Blake’s Best Mistake. Lizzie has made endless mistakes. Kitchen fires, pyramid schemes, bangs (of the hair and human variety), you name it, she’s done it... and

made a mess of it too. One mistake she’s never made is letting anyone get closer to her than a single hook-up. But after losing yet another bakery job due to her uncontrolled ADHD, she breaks her cardinal rule and has a two-night-stand that changes everything. Once burned, twice shy, Rake has given up on relationships. And feelings. And any form of intimacy for that matter. Yet something

about charming, chaotic Lizzie has him lowering his guard. For two nights, that is. Then it’s back home to Australia and far away from the pesky feelings Lizzie pulls from him. But when Lizzie tells him she’s got an unexpected bun in the oven, he’ll do whatever it takes to be a part of his child’s life... except be emotionally vulnerable, obviously. He’s never going to make that mistake

---

again. Through a series of mishaps, totally “ platonic ” single bed sharing, and an underground erotic baking scheme, Lizzie and Rake learn that even the biggest mistakes can have the most beautiful consequences. \*USA Today bestselling author Evie Dunmore Your Biggest Mistake Is Not Asking What Mistake You're Making Minotaur Books Her biggest mistake might be the best thing ever to

happen to him. Deri "The Mistake" Crandall wants nothing more than the love and acceptance from a family. After her mother dies, she finally discovers who her father is--except he and his family aren't exactly everything she's dreamed of. Not about to let a little thing like that bother her, she strives her hardest to fit in. Though honest to a fault, she even lies to gain their affection. But who could have predicted the one man with whom she immediately clicks is the very millionaire her grandfather orders her to betray? Cole Harrety's life

is all about work and ignoring play, until a petite, curvy bundle of quirky woman literally tumbles into his lap. From the moment he loses a staring contest with her, he knows Deri is exactly what's been missing from his mundane life and no other woman will ever compete with her. With a web of deception already woven, can their new bond survive a shattered trust? Einstein's Greatest Mistake Dundurn The 'Father of Greater New York' is dead. Shot outside his Park Avenue mansion in the year of our Lord, 1903. In the hour of his death,

---

will the truth of his life finally break free? Born to a struggling farming family in 1820, Andrew Haswell Green was a self-made man who reshaped Manhattan, built Central Park and turned New York into a modern metropolis. Now, at eighty-three, when he thought the world could hold no more surprises, he is murdered. As the detective assigned to the case traces his ghost across the city, other spectres appear: a wealthy courtesan; a broken-hearted man in a bowler hat; and an ambitious politician, Samuel, whose lifelong friendship was a

source of joy and frustration. In a life of industry and restraint, where is the space for love? As restlessly inventive and absorbing as its protagonist, *The Great Mistake* is the story of a city, and a singular man, transformed by longing. *The Great Mistake* Jenika Snow "The best sales book of the year" — strategy + business magazine That gap between your company 's sales efforts and strategy? It ' s real—and a huge vulnerability.

Addressing that gap, actionably and with attention to relevant research, is the focus of this book. In *Aligning Strategy and Sales*, Harvard Business School professor Frank Cespedes equips you to link your go-to-market initiatives with strategic goals. Cespedes offers a road map to articulate strategy in ways that people in the field can understand and that will fuel the behaviors required for profitable growth. Without that

---

alignment, leaders will press for better execution when they need a better strategy, or change strategic direction with great cost and turmoil when they should focus on the basics of sales execution. With thoughtful, clear, and engaging examples, *Aligning Strategy and Sales* provides a framework for diagnosing and managing the core levers available for effective selling in any organization. It will give you the know-how and

tools to move from ideas to action and build a sales effort linked to your firm ' s unique goals, not a generic selling formula. Cespedes shows how sales efforts affect all elements of value creation in a business, whether you ' re a start-up seeking to scale or an established firm looking to jump-start new growth. The book provides key insights to optimize your firm ' s customer management activities and so improve selling and strategy.

“ fascinating ” biography, the acclaimed author of  $E=mc^2$  reveals that in spite of his indisputable brilliance, Albert Einstein found himself ignored by most working scientists during the final decades of his life, his ideas opposed by even his closest friends (Forbes). How did this happen? Einstein revolutionized our understanding of the cosmos with his general theory of relativity, and helped lead us into the atomic age. This book goes beyond his

remarkable intellect and accomplishments to examine the man himself, from the skeptical, erratic student to the world ’ s greatest physicist to the fallen-from-grace celebrity. An intimate biography that “ imparts fresh insight into the genius—and failures—of the 20th century ’ s most celebrated scientist, ” Einstein ’ s Greatest Mistake reveals what we owe Einstein today—and how much more he might have achieved if not for his all-too-human flaws

(Publishers Weekly). Named a Science Book of the Year by the Sunday Times and one of the Top Five Science Books of 2016 by ABC News Australia, this unique book “ offers a window onto Einstein ’ s achievements and missteps, as well as his life—his friendships, his complicated love life (two marriages, many affairs) and his isolation from other scientists at the end of his life ” (BookPage).
