journey from the

sacrifices of the
ancient world to the
carnage and

holocaust of twentieth-century "total war." Ehrenreich sifts deftly through the fragile records of prehistory and discovers the wellspring of war in an unexpected place -- not in a "killer instinct" unique to the males of our species, but in the blood rites early humans performed to reenact their terrifying experiences of predation by stronger carnivores. Brilliant in conception and rich in scope, *Blood Rites* is a monumental work that continues to transform our understanding of the greatest single threat

to human life. **Here Be Sexist Vampires** HQN Books Once upon a time, Red Riding Hood fell in love with the wolf. It ended badly... Elodie Rose has a secret. Any day, she'll become a wolf and succumb to the violence that's cursed her family for centuries. For seventeen years she's hidden who and what she is. But now someone knows the truth and is determined to exterminate her family line. *Living on*

borrowed time in the midst of this dangerous game of hide and seek, the last thing Elodie needs is to do is fall in love. But Sawyer is determined to protect her, and the brooding, angry boy is more than what he seems. Can they outsmart a madman? And if they survive, will they find a way to beat the curse for good? *Once Upon a Broken Heart Twelve* In this spellbinding first novel in #1 New York Times bestselling author Ilona Andrews' s urban fantasy *Hidden Legacy* series, private

detective Nevada Baylor navigates her way through an alternate world where dynasties, built on inherited wealth and magic, guide the course of humanity. Nevada Baylor runs a small-time detective agency in Houston, Texas, busting scammers, exposing cheaters, and dealing with petty criminals. She 's very good at her job—helped by a magical ability to sense when someone tells the truth or lies. But when she 's forced into accepting a case to find a radical pyrotechnic who can conjure heat and fire at will, Nevada knows she 's out of her league. To bring him to justice, she 'll have to join forces with someone who wields an even more dangerous power. Connor “ Mad ”

Rogan is a former combat mage, a telekinetic singularly responsible for mass destruction in war-torn countries, and a member of one of the most powerful magic families in the world. His nephew has been kidnapped by the fugitive pyromaniac, and Nevada is his best chance at finding them both. But unlike Nevada, Connor could care less about societal law and order, and has no qualms about extinguishing his family 's enemy. Bound by their mission, Nevada and Connor clash over their tactics and moral beliefs, even as things undeniably heat up between them. But the man they 're chasing is involved in a darker conspiracy that threatens to destroy the city—and destabilize

the balance of power the elite magical families use to influence every nation on Earth.
