"Everything a really great music memoir should be."

—Colin Meloy The Pogues  
injected the fury of punk into Irish folk music and gave the world the troubled, iconic, darkly romantic songwriter Shane MacGowan. Here Comes Everybody is a memoir written by founding member and accordion player James Fearnley, drawn from his personal experiences and the series of journals and correspondence he kept throughout the band's career. Fearnley describes the

---

coalescence of a disparate collection of vagabonds living in the squats of London's Kings Cross, with, at its center, the charismatic MacGowan and his idea of turning Irish traditional music on its head. With beauty, lyricism, and great candor, Fearnley tells the story of how the band watched helplessly as their singer descended into a dark and isolated world of drugs and drink, and sets forth the increasingly desperate measures they were forced to take. James Fearnley was born

in 1954 in Worsley, Manchester. He played guitar in various bands, including The Nips with Shane MacGowan, before becoming the accordion player in The Pogues. Fearnley continues to tour with the band and lives in Los Angeles.

book will wonder why he isn't better known. The first of Widerøe's many pioneering contributions in the field of accelerator physics was the betatron. He later went on to build the first radiation therapy machine, an advance that would eventually revolutionize cancer treatment. Hospitals worldwide installed his machine, and today's modern radiation treatment equipment is based on his inventions. Widerøe's story also includes a fair share of drama, particularly during World War II when both Germans and the Allies vied for his collaboration. Widerøe held leading positions in multinational industry groups and was one of the consultants for building the world's largest nuclear laboratory, CERN, in Switzerland. He gained over 200 patents, received several honorary doctorates and a number of international awards. The author, a professional writer and maker of TV documentaries, has gained access to hitherto restricted archives in several countries, which provided a wealth of new material and insights, in particular in relation to the war years. She tells here a gripping and illuminating story.

Growing up in the shadow of her superstar sister, Solange Knowles became a pivotal musician in her own right. Defying an industry that attempted to bend her to its rigid image of a Black woman, Solange continually experimented with her sound and embarked on a metamorphosis in her art that continues to this day. In *Why Solange Matters*, Stephanie Phillips chronicles the creative journey of an artist who became a

---

beloved voice for the Black Lives Matter generation. A Black feminist punk musician herself, Phillips addresses not only the unpredictable trajectory of Solange Knowles's career but also how she and other Black women see themselves through the musician's repertoire. First, she traces Solange's progress through an inflexible industry, charting the artist's development up to 2016, when the release of her third album, *A Seat at the Table*, redefined her career. Then, with *A Seat at the Table* and 2019's *When I Get Home*, Phillips describes how Solange embraced activism, anger, Black womanhood, and intergenerational trauma to inform her remarkable art. *Why Solange Matters* not only cements the place of its subject in the

pantheon of world-changing twenty-first century musicians, it introduces its writer as an important new voice.

Wild, defiant and startlingly inventive, The Slits were ahead of their time, embodying the creative fire of punk music and rebellion like few others. Although they created unique

---

hybrids - dub reggae and pop-punk, funk and free jazz - they were dismissed as being unable to play. Their lyrics were witty and perceptive, their debut album challenged perceptions of punk music and female bands, and their infamous album cover, with the group appearing topless and mud-daubed, provided as bold a statement as the Sex Pistols' Queen. Yet the first ladies of punk were destined to be marginalised and disregarded. Now, forty years on, author Zoë Street Howe speaks to The Slits themselves, to former manager Don Letts, mentor and PIL guitarist Phil Levene, and many others who swirled within their cosmos to discover exactly how the Slits phenomenon erupted and to celebrate the legacy of a seminal band long overdue its rightful acclaim. Too long seen as a note in the margin of the history of rock, The Slits at last get a fair hearing.

Marcus Berkman was for many years the pop critic of the Spectator, waiting like most freelances to get fired. He's also the author of the bestselling Berkman's Cricket Miscellany, concentrating on the ridiculous true stories and the weird characters of that most eccentric of sports. Here he combines the two, in a wildly entertaining ride through the galloping absurdities of pop, from Elvis Presley's real hair colour, through Janet Jackson's more intimate piercings, to Courtney Love's hatred of cheese. Why does Bono always wear sunglasses? Did Ozzy Osbourne really urinate on the Alamo? What actually happened at Keith Moon's 21st birthday party at the Holiday Inn in Flint, Michigan? There's sex, there's drugs, there's violence, there's even a little rock 'n' roll from time to time. But mainly there are vital questions, now finally answered. Which notable guitarist has unfeasibly tiny hands? Which Britpop star was forced to wear lederhosen as a child? Who said,

The story of Olive and Mabel, Labrador retrievers who rose to internet fame as the subjects of Andrew Cotter's BBC sports parodies. When sporting events were put on hold in March 2020, commentator Andrew Cotter shifted to working from home. The one-on-one competitors? His two Labrador retrievers, Olive and Mabel. In the hilarious videos that ensued, the dogs engage in various contests, from bone-snatching and breakfast-eating to crushing it on the dog walk, while Cotter narrates to hilarious effect. The scene of Mabel, simply standing still in a fetid pond was one of the most popular. Why? Because this is how dogs live, and Cotter captured it with humor and

joy. It's why the series has been viewed more than 50 million times, entertaining dog owners, sports fans and celebrities around the world. Olive and Mabel are more than online celebrities, however, as revealed in this charming narrative. Filled with stories about how Cotter fell in love with his dogs, his passion for hiking with them through the glens and over the peaks of his native Scotland, and the ongoing relationship between Olive and Mabel (particularly the "competitive fire" lit during these days of quarantine), the memoir is by turns side-splittingly funny and thoughtfully tender. It's sure to resonate with all dog lovers.
