Hunting Party Del Rey  
Heris Serrano thought her life was over when a treacherous superior officer forced her to resign from the Regular Space Service - the only life she had ever known, or ever wanted. But captaining a rich old lady's interstellar yacht has proved more exciting - and fulfilling - than she could ever have imagined. Having rescued some former Fleet friends and colleagues betrayed by the same officer who forced her resignation, and foiled a plot to poison the heir to the throne, Heris has at last been offered a chance for vindication and reinstatement in her beloved Fleet - and reconciliation with the family she thought had abandoned

her. But it means standing alone against the military might of the Benignity, an interstellar criminal cartel more colloquially known as the Compassionate Hand. With only a few small ships and the space yacht Sweet Delight she must stop an invading fleet dead in its tracks . . .

This book describes contemporary woman's search for wholeness in a society in which she has been defined according to masculine values. Drawing upon cultural myths and fairy tales, ancient symbols and goddesses, and the dreams of contemporary women, Murdock illustrates the need for—and the reality of—feminine values in Western culture today.

 Paksenarrion ¾ Paks for short ¾ was somebody special. Never could she have followed her father's orders and married the pig farmer down the road. Better a soldier's life than a pig farmer's wife, and so, though she knew that she could never go home again, Paks ran away to be a soldier. And so began an adventure destined to transform a simple Sheepfarmer's Daughter into a hero fit to be chosen by the gods. Oath of Gold is the climactic final volume of the epic that Judith Tarr calls "the first work of high heroic fantasy I've seen that has taken the work of Tolkien, assimilated it totally and deeply and absolutely, and produced something altogether new and yet incontestably based on the master... [Moon's] military knowledge is impressive, her picture of life in a mercenary company most convincing. I'm

- “ Ofelia—tough, kind, wise and unwise, fond of food, tired of foolish people—is one of the most probable heroines science fiction has ever known. ” —Ursula K. Le Guin

For forty years, Colony 3245.12 has been Ofelia ’ s home. On this planet far away in space and time from the world of her youth, she has lived and loved, weathered the death of her husband, raised her one surviving child, lovingly tended her garden, and grown placidly old. And it is here that she fully expects to finish out her days—until the shifting corporate fortunes of the Sims Bancorp Company dictates that Colony 3245.12 is to be disbanded, its residents shipped off, deep in cryo-sleep, to somewhere new and strange and not of their choosing. But while her fellow colonists

grudgingly anticipate a difficult readjustment on some distant world, Ofelia savors the promise of a golden opportunity. Not starting over in the hurly-burly of a new community . . . but closing out her life in blissful solitude, in the place she has no intention of leaving. A population of one. With everything she needs to sustain her, and her independent spirit to buoy her, Ofelia actually does start life over – for the first time on her own terms: free of the demands, the judgments, and the petty tyrannies of others. But when a reconnaissance ship returns to her idyllic domain, and its crew is mysteriously slaughtered, Ofelia realizes she is not the sole inhabitant of her paradise after all. And, when the inevitable time of first contact finally arrives, she will find her life changed yet again—in ways she could never have imagined. . . . “ Pure

Against all odds she is accepted as a paladin-candidate by the fellowship of Gird. Years of study will follow, for a paladin must be versed in diplomacy and magic as well as the fighting arts. Kylara Vatta is the only daughter in a family full of sons, and her father's only child to buck tradition by choosing a military career instead of joining the family business. For Ky, it's no contest: Even running the prestigious Vatta Transport Ltd. shipping concern can't hold a candle to shipping out as an officer aboard an interstellar cruiser. It's adventure, not commerce, that stirs her soul. And despite her family's misgivings, there can be no doubt that a Vatta in the service will prove a valuable asset. But with a single error in judgment, it all comes crumbling down.  
Expelled from the Academy in

disgrace – and returning home to her humiliated family, a storm of high-profile media coverage, and the gaping void of her own future – Ky is ready to face the inevitable onslaught of anger, disappointment, even pity. But soon after opportunity's door slams shut, Ky finds herself with a ticket to ride – and a shot at redemption – as captain of a Vatta Transport ship. It's a simple assignment: escorting one of the Vatta fleet's oldest ships on its final voyage . . . to the scrapyard. But keeping it simple has never been Ky's style. And even though her father has provided a crew of seasoned veterans to baby-sit the fledgling captain on her maiden milk run, they can't stop Ky from turning the routine mission into a risky venture – in the name of turning a profit for Vatta Transport, of course. By snapping up a lucrative delivery contract defaulted on

by a rival company, and using part of the proceeds to upgrade her condemned vehicle, Ky aims to prove she 's got more going for her than just her family 's famous name. But business will soon have to take a backseat to bravery, when Ky 's change of plans sails her and the crew straight into the middle of a colonial war. For all her commercial savvy, it 's her military training and born-soldier 's instincts that Ky will need to call on in the face of deadly combat, dangerous mercenaries, and violent mutiny. . . .
