PCMag.com is a leading authority on technology, delivering Labs-based, independent reviews of the latest products and services. Our expert industry analysis and practical solutions help you make better buying decisions and get more from technology.

Radioman 1 & C Kaisanti Press

Increasing numbers of ecologists and conservation biologists have begun to explore the use of drone technology to obtain accurate and up-to-date data on the distribution and density of species, as well as the threats to their habitats, in their ongoing attempts to conserve and monitor biodiversity.

Conservation drones are low-cost, autonomous, and operator-friendly unmanned aerial vehicles that can be used for surveying, mapping, and monitoring both habitat and biodiversity. They are fast becoming a valuable complement to ground-based surveys and satellite imagery for a wide range of ecological and conservation applications. The authors pioneered the use of conservation drones for the purpose of monitoring orangutan populations in Southeast Asia. They subsequently founded

ConservationDrones.org to share their knowledge of building and using drones with colleagues in the wider environmental community. This website has proved highly popular and this book aims to further build capacity to use drones and inspire others to adapt emerging technologies for practical conservation.

Control Theory in Biomedical Engineering New York : Authors Press

A unique guide to the state of the art of tracking, classification, and sensor management This book addresses the tremendous progress made over the last few decades in algorithm development and mathematical analysis for filtering, multi-target multi-sensor tracking, sensor management and control, and target classification. It provides for the first time an integrated treatment of these advanced topics, complete with careful mathematical formulation, clear description of the theory, and real-world applications. Written by experts in the field, Integrated Tracking, Classification, and Sensor Management provides readers with easy access to key Bayesian modeling and filtering methods, multi-target tracking approaches, target classification procedures, and large scale sensor management problem-solving techniques. Features include: An accessible coverage of random finite set based multi-target filtering algorithms such as the Probability Hypothesis Density filters and multi-Bernoulli filters with focus on problem solving A succinct overview of the track-oriented MHT that comprehensively collates all significant developments in filtering and tracking A state-of-the-art algorithm for hybrid Bayesian network (BN) inference that is efficient and scalable for complex classification models New structural results in stochastic sensor scheduling and algorithms for dynamic sensor scheduling and management Coverage of the posterior Cramer-Rao lower bound (PCRLB) for target

tracking and sensor management Insight into cutting-edge military and civilian applications, including intelligence, surveillance, and reconnaissance (ISR) With its emphasis on the latest research results, Integrated Tracking, Classification, and Sensor Management is an invaluable guide for researchers and practitioners in statistical signal processing, radar systems, operations research, and control theory.

GoPro HERO 9 Black: How To Use The GoPro HERO 9 Black Apress

The newest release from JORDAN HETRICK- THE #1 AMAZON BEST SELLING AUTHOR on GoPro cameras with everything you need to know about the GoPro HERO 11 BLACK. This inspiring book will encourage you to be adventurous and create better footage than you ever thought possible! It ' s the perfect, easy step-by-step guide to get you out there using your GoPro HERO 11 like a pro! Packed with color images and real-life examples, Jordan Hetrick gives you the confidence to understand how to share your passions and your adventures using easy, cinematic techniques. From understanding your camera all the way through sharing your masterfully edited photos and videos, tap into the amazing power of this camera and become an expert storyteller! This book is perfect for beginners, but also provides in depth knowledge that will transform intermediate camera users into expert content creators. Through the SEVEN EASY STEPS in this book, you will learn everything you need to know about using your GoPro HERO 11 camera, including:

- How to operate your camera
- How to choose your settings and presets
- Tips for the most useful GoPro mounts
- Vital photography/cinematography knowledge
- Creative photo, video and time lapse editing techniques
- and How to share your first edited videos and photos. Let ' s get started!

The Lincoln Library of Essential Information an Up to Date Manual for Daily Reference, for Self Instruction, and for General Culture Named in Appreciative Remembrance of Abraham Lincoln, the Foremost American Exemplar of Self Education Jordan Hetrick

Control Theory in Biomedical Engineering: Applications in Physiology and Medical Robotics highlights the importance of control theory and feedback control in our lives and explains how this theory is central to future medical developments. Control theory is fundamental for understanding feedback paths in physiological systems (endocrine system, immune system, neurological system) and a concept for building artificial organs. The book is suitable for graduate students and researchers in the control engineering and biomedical engineering fields, and medical students and practitioners seeking to enhance their understanding of physiological processes, medical robotics (legs, hands, knees), and controlling artificial devices (pacemakers, insulin injection devices). Control theory profoundly impacts the everyday lives of a large part of the human population including the disabled and the elderly who use assistive and rehabilitation robots for improving the quality of their lives and increasing their independence. Gives an overview of state-of-the-art control theory in physiology, emphasizing the importance of this theory in the medical field through concrete examples, e.g., endocrine, immune, and neurological systems Takes a comprehensive look at advances in medical robotics and rehabilitation devices and presents case studies focusing on their feedback control Presents the significance of control theory in the pervasiveness of medical robots in surgery, exploration, diagnosis, therapy, and rehabilitation

Windows Movie Maker 2 Zero to Hero Jordan Hetrick

The newest release from JORDAN HETRICK- THE #1 AMAZON BEST SELLING AUTHOR on GoPro cameras with everything you need to know about the GoPro HERO 10 BLACK. How To Use GoPro Hero 3 Cameras: The Adventure Sports Edition for HERO3+ and HERO3 Cameras Jordan Hetrick

MOSS User's Manual Jordan Hetrick

Technology has revolutionised every aspect of our lives and how we learn is no exception. The trouble is; the range of elearning technologies and the options available can seem bewildering. Even those who are highly experienced in one aspect of elearning will lack knowledge in some other areas. Wouldn ' t it be great if you could access the hard-won knowledge, practical guidance and helpful tips of world-leading experts in these fields? Edited by Rob Hubbard and featuring chapters written by global elearning experts: Clive Shepherd, Laura Overton, Jane Bozarth, Lars Hyland, Rob Hubbard, Julie Wedgwood, Jane Hart, Colin Steed, Clark Quinn, Ben Betts and Charles Jennings - this book is a practical guide to all the key topics in elearning, including: getting the business on board, building it yourself, learning management, blended, social, informal, mobile and game-based learning, facilitating online learning, making the most of memory and more.

Manual of Ready Reference to the Authors' Digest Kaisanti Press

"The MOSS User's Manual has been designed as a reference document for trained users of the Map Overlay and Statistical System (MOSS) interactive graphics software. MOSS is the data analysis component of a Geographic Information System (GIS) originally developed by the Western Energy and Land Use Team (WELUT). Currently, MOSS is being developed under the direction of the U.S. Bureau of Land Management with cooperation from the U.S. Fish and Wildlife Service, the U.S. Bureau of Indian Affairs, the U.S. Geological Survey, the U.S. Forest Service, the Soil Conservation Service, the Minerals Management Service and the U.S. Army Corps of Engineers. This document contains information necessary for a user to access and use the MOSS software. MOSS can address digital map data in two formats, vector and raster, or cell. For convenience, raster processing capabilities are specifically called MAPS (Map Analysis and Processing System), due to differences in the software. It is assumed that the reader of this document is familiar with the GIS and its applications"--leaf iii.
