Want to cover EVERYTHING on the NCLEX-
RN? HESI can help! The HESI Comprehensive
Review for the NCLEX-RN® Examination, 5th
Edition provides a comprehensive, all-in-one
review of the information you need to know to
not only succeed on the NCLEX-RN exam but
also on your program's HESI exit exam. Written
in an easy-to-read outline format, this trusted
guide breaks down chapters by clinical areas and
the concepts emphasized on the NCLEX-RN
exam. Rationales are provided for any incorrect
answers or areas of weakness to help strengthen
your understanding. The companion Evolve

website also offers 700 practice questions in both
study and exam formats to give you valuable
practice using the same electronic testing format
you will face on the nursing school exit exam and
on the NCLEX-RN exam. 700 NCLEX practice
questions on the companion Evolve website
include alternate item formats to provide a testing
experience similar to the exit and NCLEX exams.
Chapters organized by clinical area enables you
to easily search for various topics to review. HESI
Hint boxes spotlight important clinical
information and concepts commonly tested on
the NCLEX-RN exam. Critical thinking study
questions (with rationales) reinforce key concepts
and content. Fill-in-the-blank and prioritizing
questions mirror the new alternate item format
item types included on the NCLEX-RN exam.
Pharmacology tables highlight the need-to-know
drug therapy content emphasized on the NCLEX-
RN exam. Consistent format and chapter
organization make it easy to move between topics
when reviewing. NEW! Updated content reflects
the latest NCLEX-RN test plan. NEW! Updated
medications and nursing interventions have been
added based on the latest evidence-based
practice. NEW! Revised chapter on pediatric
nursing includes an updated immunization chart,
referral websites, and new content on children
with disabilities and chromosomal and genetic
syndromes. NEW! Revised chapter on maternity

nursing features updated CPR guidelines and
medications for neonatal cardiac arrest, as well as
new HESI Hints that reflect new modalities such
as fetal cell-DNA analysis and current screening
tools. NEW! Revised chapter on psychiatric
nursing includes new information on autism
spectrum disorders, as well as updates on DSM 5
changes. NEW! Revised chapter on geriatrics
features new content on polypharmacy in the
elderly, the Geriatric Depression Scale as an
assessment tool, the Mini-Cog tool for mental
status assessment, and new information on elder
mistreatment in various settings.

About: To prepare you for real world practice,
this book will highlight content areas most
relevant to the bedside and why they must be
mastered and understood. To help visualize
the professional development that is needed
as you transition to the responsibilities of the
professional nurse, I use the metaphor of
building a house; not a static structure, but a
unique, vibrant "living" house that is a
reflection of how you choose to build and add
to it over time. Nursing is a living and vibrant
practice that requires your personal
involvement and engagement to promote the
well-being of those you care for. The
components of this "living" home include:
Foundation: A house must have a firm and

stable foundation. The ethical comportment or the art of nursing is this foundation for every nurse. Caring behaviors, nurse engagement, and professionalism in practice must be present or your nursing practice could be on shaky ground before it even begins! Walls: The applied sciences of nursing: pharmacology, fluid and electrolytes, and anatomy and physiology. I contextualize these sciences to the bedside so the relevance of mastering this content becomes apparent. Roof: Critical thinking and clinical reasoning, which is the thinking that is required by the nurse that completes the house and ties everything together. Skeletons in the closet: Every house has closets and some have a few skeletons in them! Incivility and men in nursing will be explored in detail!
