rights? It is  
usually assumed  
that trans and  
gender  
nonconforming  
people should  
follow the civil

---

rights and "equality" strategies of lesbian and gay rights organizations by agitating for legal reforms that would ostensibly guarantee nondiscrimination and equal protection under the law. This approach assumes that the best way to address the poverty and criminalization that plague trans populations is to gain legal recognition and inclusion in the state's institutions. But is this strategy effective? In

Normal Life Dean Spade presents revelatory critiques of the legal equality framework for social change, and points to examples of transformative grassroots trans activism that is raising demands that go beyond traditional civil rights reforms. Spade explodes assumptions about what legal rights can do for marginalized populations, and describes transformative resistance processes and formations that address the root causes of harm

and violence. In the new afterword to this revised and expanded edition, Spade notes the rapid mainstreaming of trans politics and finds that his predictions that gaining legal recognition will fail to benefit trans populations are coming to fruition. Spade examines recent efforts by the Obama administration and trans equality advocates to "pinkwash" state violence by articulating the US military and prison systems

---

as sites for trans inclusion reforms. In the context of recent increased mainstream visibility of trans people and trans politics, Spade continues to advocate for the dismantling of systems of state violence that shorten the lives of trans people. Now more than ever, *Normal Life* is an urgent call for justice and trans liberation, and the radical transformations it will require. Pluriversal Politics John Wiley & Sons  
These essays include writings

from Cornel West, Michael Omi, Audre Lorde, Gloria Anzaldua and Michelle Fine. The essays address the multiplicity and scope of oppressions ranging from ableism to racism and other less-well known social aberrations. The Oxford Handbook of Feminist Theory Yale University Press

### Intersectionality

Duke University Press

Ninety percent of the world's youth live in Africa, Latin America and the developing countries of Asia.

Despite this, the field of Youth Studies, like many others, is dominated by the knowledge economy of the Global North.

To address these geopolitical inequalities of knowledge, The Oxford Handbook of Global South Youth Studies offers a contribution from Southern scholars to remake Youth Studies from its current state, that universalises Northern

Northern perspectives, into a truly Global Youth

Studies. Contributors from across various regions of the Global South, including from the Diaspora, Indigenous and Aboriginal communities, locate and define "the Global South", articulate the necessity of studying Southern lives to enrich, re-interpret, legitimate and offer symmetry to Youth Studies, and utilize and innovate Southern theory to do so. Eleven concepts are re-imagined and re-presented throughout the Handbook--personhood, intersectionality, violences, de- and post-coloniality, consciousness, precarity, fluid modernities, ontological insecurity, navigational capacities, collective agency and

emancipation. The outcome is a series of everyday practices such as hustling, navigating, fixing, waiting, being on standby, silence, and life-writing, that demonstrate how youth living in adversity experiment with and push back against routine and conformity, and how research may support them in these endeavors and, simultaneously, redefine the relationships between knowledge, practice and politics--what the volume editors term "epistep Praxis". The Handbook concludes with a nascent charter for a Global Youth Studies of benefit to the world, that no longer excludes, assumes or elides but rather includes new possibilities for

---

representing youth, researching amongst them, and devising policies and interventions to better serve them. This volume is a critical addition to the field of Youth Studies and one that should be of interest to scholars, researchers, and students working in this area in both the Global North and South.

### Teaching Race

Wm. B. Eerdmans Publishing

Last year, more African Americans were reported with AIDS than any other racial or ethnic group. And while African Americans make up only 13 percent of the U.S. population, they account for

more than 55 percent of all newly diagnosed HIV infections. These alarming developments have caused reactions ranging from profound grief to extreme anger in African-American communities, yet the organized political reaction has remained remarkably restrained. The *Boundaries of Blackness* is the first full-scale exploration of the social, political, and cultural impact of AIDS on the African-American community. Informed by interviews with

activists, ministers, public officials, and people with AIDS, Cathy Cohen unflinchingly brings to light how the epidemic fractured, rather than united, the black community. She traces how the disease separated blacks along different fault lines and analyzes the ensuing struggles and debates. More broadly, Cohen analyzes how other cross-cutting issues—of class, gender, and sexuality—challenge accepted ideas of who belongs in the community. Such issues, she predicts, will

---

increasingly occupy the political agendas of black organizations and institutions and can lead to either greater inclusiveness or further divisiveness. The *Boundaries of Blackness*, by examining the response of a changing community to an issue laced with stigma, has much to teach us about oppression, resistance, and marginalization. It also offers valuable insight into how the politics of the African-American community—and other marginal

groups—will evolve in the twenty-first century. **Critical Han Studies** Oxford University Press A real-world how-to manual for talking about race in the classroom Educators and activists frequently call for the need to address the lingering presence of racism in higher education. Yet few books offer specific suggestions and advice on how to introduce race to students who believe we live in a post-racial world where racism is no longer a real issue. In *Teaching*

the authors offer practical tools and techniques for teaching and discussing racial issues at predominately White institutions of higher education. As current events highlight the dynamics surrounding race and racism on campus and the world beyond, this book provides teachers with essential training to facilitate productive discussion and raise racial awareness in the classroom. A variety of teaching and learning experts provide

---

insights, tips, and guidance on running classroom discussions on race. They present effective approaches and activities to bring reluctant students into a consideration of race and explore how White teachers can model racial awareness, thereby inviting students into the process of examining their own white identity. Racism, whether evident in overt displays or subconscious bias, has repercussions that reverberate far beyond the campus grounds.

As the cultural climate increasingly calls out for more research, education, and dialogue on race and racism, this book helps teachers spotlight issues related to race in a way that leads to effective classroom and campus conversation. The book provides guidance on how to: Create the conditions that facilitate respectful racial dialogue by building trust and effectively negotiating conflict. Uncover each student's own subconscious bias and the intersectionality

that exists even in the most homogenous-appearing classrooms. Help students embrace discomfort, and adapt discussion methods to accommodate issues of race and positionality. Avoid common traps, mistakes, and misconceptions encountered in anti-racist teaching. Predominantly White institutions face a number of challenges in dealing with race issues, including a lack of precedence, an absence of modeling by campus leaders, and little clear guidance on how

---

teachers can identify and challenge racism on campus. Teaching Race is packed with activities, suggestions and exercises to provide practical real-world help for teachers trying to introduce race in class

McGill University. Undoing Border Imperialism Univ of California Press In On Decoloniality Walter D. Mignolo and Catherine E. Walsh explore the hidden forces of the colonial matrix of power, its origination, transformation, and current presence, while asking the crucial questions of decoloniality's how, what, why, with whom, and what for. Interweaving theory-praxis with local histories and perspectives of struggle, they illustrate the conceptual and analytic dynamism of decolonial ways of living and thinking, as well as the creative force of resistance and re-

---

existence. This book that explore the new gender normativity, speaks to the urgency of these times, encourages delinkings from the colonial matrix of power and its "universals" of Western modernity and global capitalism, and engages with arguments and struggles for dignity and life against death, destruction, and civilizational despair.

Food Sovereignty in International Context John Wiley & Sons

This book comes at a time when the intrinsic and self-evident value of queer rights and protections, from gay marriage to hate crimes, is increasingly put in question. It assembles writings

queer vitalities within their wider context of structural violence and neglect. Moving between diverse geopolitical contexts – the US and the UK, Guatemala and Palestine, the Philippines, Iran and Israel – the chapters in this volume interrogate claims to queerness in the face(s) of death, both spectacular and everyday. Queer Necropolitics mobilises the concept of ‘necropolitics’ in order to illuminate everyday death worlds, from more expected sites such as war, torture or imperial invasion to the mundane and normalised violence of racism and

the market, and the prison-industrial complex.

Contributors here interrogate the distinction between valuable and pathological lives by attending to the symbiotic co-constitution of queer subjects folded into life, and queerly abjected racialised populations marked for death. Drawing on diverse yet complementary methodologies, including textual and visual analysis, ethnography and historiography, the authors argue that the distinction between ‘war’ and ‘peace’ dissolves in the face of the banality of death in the zones of abandonment that regularly

---

accompany contemporary democratic regimes. The book will appeal to activist scholars and students from various social sciences and humanities, particularly those across the fields of law, cultural and media studies, gender, sexuality and intersectionality studies, race, and conflict studies, as well as those studying nationalism, colonialism, prisons and war. It should be read by all those trying to make sense of the contradictions inherent in regimes of rights, citizenship and diversity.  
*Intersectionality as Critical Social Theory* Duke

University Press  
Pointing out that presumptions of solidarity, antagonism, or incommensurability between Black and Native communities are insufficient to understand the relationships between both groups, this volume's scholars, artist, and activists investigate the complex relationships between settler colonialism and anti-Blackness to explore the political possibilities that emerge from such inquiries.

Oxford

University Press  
Queer studies is an extensive field that spans a range of disciplines. This volume focuses on education and educational research and examines and expounds upon queer studies particular to education fields. It works to examine concepts,

---

theories, and methods related to queer studies across PK-12, higher education, adult education, and informal learning.00The volume takes an intentionally intersectional approach, with particular attention to the intersections of white supremacist cisheteropatriarchy. It includes well-established concepts with accessible and entry-level explanations, as well as emerging and cutting-edge concepts in the field. It is

designed to be used by those new to queer studies as well as those with established expertise in the field. [Urgent Archives](#) University of Arizona Press The editors and contributors to *Color of Violence* ask: What would it take to end violence against women of color? Presenting the fierce and vital writing of organizers, lawyers, scholars, poets, and policy makers, *Color of Violence* radically repositions the antiviolence movement by

putting women of color at its center. The contributors shift the focus from domestic violence and sexual assault and map innovative strategies of movement building and resistance used by women of color around the world. The volume's thirty pieces—which include poems, short essays, position papers, letters, and personal reflections—cover violence against women of color in its myriad forms, manifestations, and settings, while identifying the links between

---

gender, militarism, reproductive and economic violence, prisons and policing, colonialism, and war. At a time of heightened state surveillance and repression of people of color, *Color of Violence* is an essential intervention. **Encyclopedia of Queer Studies in Education**  
Routledge

"*Policing Black Bodies* is a timely and much-needed exposure of historical and contemporary practices of state-sanctioned violence against Black lives in Canada. This groundbreaking work dispels many prevailing myths that cast Canada as a land of benevolence and racial equality, and uncovers long-standing state practices that have restricted Black freedom. A first of its kind, *Policing Black Bodies* creates a

---

framework that makes legible how anti-Blackness has influenced the construction of Canada's carceral landscape, including the development and application of numerous criminal law enforcement and border regulation practices. The book traces the historical and contemporary mobilization of anti-Blackness spanning from slavery, 19th and 20th century segregation practices, and the application of early drug and prostitution laws through to the modern era. Maynard makes visible the ongoing legacy of a demonized and devalued Blackness that is manifest today as racial profiling by police, immigration agents and social services, the over-representation of Black communities in jails and prisons, anti-Black immigration detention and deportation practices, the over-representation of Black youth in state care, the school-to-prison pipeline and gross economic inequality. Following the dictums of the Black Lives Matter movement, Policing Black Bodies adopts an intersectional lens that explores the realities of those whose lives and experiences have historically been marginalized, stigmatized, and made invisible. In addressing how state practices have impacted Black lives, the book brings from

---

margin to centre an analysis of gender, class, sexuality, (dis)ability, citizenship and criminalization. Beyond exploring systemic racial injustice, *Policing Black Bodies* pushes the limits of the Black radical imagination: it delves into liberatory Black futures and urges the necessity of transformative alternatives."-- *Racial Formation in the Twenty-First Century* Beacon Press This volume focuses on the

westernized universities, in the US and abroad and examines the various dimensions of the education crisis and provides a sharper understanding of the crisis and the responses to the westernized university at multiple sites around the world. *Decolonizing the Westernized University* AK Press "Harsha Walia has played a central role in building some of North America's most innovative, diverse, and effective new movements.

That this brilliant organizer and theorist has found time to share her wisdom in this book is a tremendous gift to us all."—Naomi Klein, author of *The Shock Doctrine Undoing Border Imperialism* combines academic discourse, lived experiences of displacement, and movement-based practices into an exciting new book. By reformulating immigrant rights movements within a transnational

---

analysis of capitalism, labor exploitation, settler colonialism, state building, and racialized empire, it provides the alternative conceptual frameworks of border imperialism and decolonization. Drawing on the author's experiences in *No One Is Illegal*, this work offers relevant insights for all social movement organizers on effective strategies to overcome the barriers and

borders within movements in order to cultivate fierce, loving, and sustainable communities of resistance striving toward liberation. The author grounds the book in collective vision, with short contributions from over twenty organizers and writers from across North America. Harsha Walia is a South Asian activist, writer, and popular educator rooted in emancipatory movements and communities for over a decade.

Praise for *Undoing Border Imperialism*: "Border imperialism is an apt conceptualization for capturing the politics of massive displacement due to capitalist neoglobalization. Within the wealthy countries, *Canada's No One Is Illegal* is one of the most effective organizations of migrants and allies. Walia is an outstanding organizer who has done a lot of thinking and can write—not a

---

common combination. Besides being brilliantly conceived and presented, this book is the first extended work on immigration that refuses to make First Nations sovereignty invisible.”—Roxanne Dunbar Ortiz, author of *Indians of the Americas and Blood on the Border* “Harsha Walia’s *Undoing Border Imperialism* demonstrates that geography has certainly not ended, and nor has the urge for people to stretch

out our arms across borders to create our communities. One of the most rewarding things about this book is its capaciousness—astute insights that emerge out of careful organizing linked to the voices of a generation of strugglers, trying to find their own analysis to build their own movements to make this world our own. This is both a manual and a memoir, a guide to the world and a guide to the organizer's

heart.”—Vijay Prashad, author of *The Darker Nations: A People’s History of the Third World* “This book belongs in every wannabe revolutionary’s war backpack. I addictively jumped all over its contents: a radical mixtape of ancestral wisdoms to present-day grounded organizers theorizing about their own experiences. A must for me is Walia’s decision to infuse this volume’s fight against border

---

imperialism, white supremacy, and empire with the vulnerability of her own personal narrative. This book is a breath of fresh air and offers an urgently needed movement-based praxis. Undoing Border Imperialism is too hot to be sitting on bookshelves; it will help make the revolution.”—Ashanti Alston, Black Panther elder and former political prisoner Knowing the Enemy Duke University Press Books  
According to the

Washington Post, no one who cares about contemporary African-American cultures can ignore bell hooks' electrifying feminist explorations. Targeting cultural icons as diverse as Madonna and Spike Lee, Outlaw Culture presents a collection of essays that pulls no punches. As hooks herself notes, interrogations of popular culture can be a 'powerful site for intervention, challenge and change'. And intervene, challenge and change is what

hooks does best. News on the Right University of Toronto Press  
In this revolutionary text, prominent Native American studies scholar and activist Andrea Smith reveals the connections between different forms of violence—perpetrated by the state and by society at large—and documents their impact on Native women. Beginning with the impact of the abuses inflicted on Native American children at state-sanctioned boarding schools from the 1880s to the 1980s, Smith adroitly expands our conception of violence to include the widespread

---

appropriation of Indian cultural practices by whites and other non-Natives; environmental racism; and population control. Smith deftly connects these and other examples of historical and contemporary colonialism to the high rates of violence against Native American women—the most likely to suffer from poverty-related illness and to survive rape and partner abuse. Smith also outlines radical and innovative strategies for eliminating gendered violence.
