Governance Theory and Practice Rowman & Littlefield

The Olympic Games is undoubtedly the greatest sporting event in the world, with over 200 countries competing for success. This important new study of the Olympics investigates why some countries are more successful than others. Which factors determine their failure or success? What is the relationship between these factors? And how can these factors be manipulated to influence a country's performance in sport? This book addresses these questions and discusses the theoretical concepts that explain why national sporting success has become a policy priority around the globe. Danyel Reiche reassesses our understanding of success in sport and challenges the conventional explanations that population size and economic strength are the main determinants for a country's Olympic achievements. He presents a theory of countries' success and failure, based on detailed investigations of the relationships between a wide variety of factors that influence a country's position in the Olympic medals table, including geography, ideology, policies such as focusing on medal promising sports, home advantage and the promotion of women. This book fills a long-standing gap in literature on the Olympics and will provide valuable insights for all students, scholars, policy makers and journalists interested in the Olympic Games and the wider relationship between sport, politics, and nationalism.

The New Handbook of Political Sociology Cambridge University Press

Providing a comprehensive introduction to political philosophy, this 2006 book combines discussion of historical and contemporary figures, together with numerous real-life examples. It ranges over an unusually broad range of topics in the field, including the just distribution of wealth, both within countries and globally; the nature and justification of political authority; the meaning and significance of freedom; arguments for and against democratic rule; the problem of war; and the grounds for toleration in public life. It also offers an accessible, non-technical discussion of perfectionism, utilitarianism, theories of the social contract, and of recently popular forms of critical theory.

Throughout, the book challenges readers to think critically about political arguments and institutions that they might otherwise take for granted. It will be a provocative text for any student of philosophy or political science.

Emerging Social and Institutional Fractures After 1997 Macmillan International Higher Education

This revised and updated fourth edition of the leading text on political ideologies contains a new chapter on multiculturalism, consideration of the changing nature of ideological discourse, including the transition from "traditional" to "new" ideologies, and coverage of the impact on the major ideological traditions of developments such as globalization and the "war on terror".

Essentials of UK Politics Routledge

This revised, updated, and considerably expanded new edition provides a systematic introduction to the theory and practice of contemporary international relations. Including pedagogical features highlighting key thinkers and concepts, this text clarifies the fundamental debates and issues at stake in global political affairs.

Global Politics Routledge

Political sociology is a large and expanding field with many new developments, and *The New Handbook of Political Sociology* supplies the knowledge necessary to keep up with this exciting field. Written by a distinguished group of leading scholars in sociology, this volume provides a survey of this vibrant and growing field in the new millennium. The Handbook presents the field in six parts: theories of political sociology, the information and knowledge explosion, the state and political parties, civil society and citizenship, the varieties of state policies, and globalization and how it affects politics. Covering all subareas of the field with both theoretical orientations and empirical studies, it directly connects scholars with current research in the field. A total reconceptualization of the first edition, the new handbook features nine additional chapters and highlights the impact of the media and big data.

Routledge

This guidebook for students offers a survey of comparative politics intended for use in Hong Kong. Hong Kong is one of the world's great cities, but its political future has never been hazier. Mass protests, contested elections, a 2047 transition causing uncertainty in financial and business elites- for Hong Kong, it is the best of times as well as the worst of times. Hong Kong University politics scholar Matthew Wong brings a clear-headed and fact-based approach, introducing Hong Kong to scholars of comparative politics even as he introduces comparative politics to students in Hong Kong, with this new area-specific reference work, a mix of theory and insights into how political theory can be of value in understanding the case of Hong Kong, complete with datasets and quantitative information that helps to disentangle fact from myth. For Hong Kong residents, scholars, students, and members of civil society, this book will be a breath of fresh air.

Politics, Third Edition Macmillan International Higher Education

This book examines the challenges confronting the practice of democracy and governance in Nigeria. The book examines the theoretical underpinnings and the procedural and institutional components of democratic practice in Nigeria, including the challenges associated with elections, the legislature, the media and gender issues. Approaching the pluralistic characteristics of the Nigerian state and how they impede democratisation through contributions by experts and scholars in the field, the book analyses the issues and nuances inherent to governance and democracy in Nigeria, as well as domestic policy process, global governance and human security. *Democratic Practice and Governance in Nigeria* will be of interest to students and scholars of African politics and democratisation.

The Politics of Vietnamese Craft Rowman & Littlefield

This book draws on the extensive literature on populism, democracy, and emerging markets as well as interviews with senior government officials, experts, and journalists in the Philippines and beyond. This book is the first to analyze the significance and implications of the rise of Filipino president Rodrigo Duterte within a rapidly-changing Asia Pacific region. As China's power in the

Pacific grows rapidly, nations that have traditionally been US allies, such as the Philippines, are experiencing political convulsions; Duterte's open willingness to realign towards China (at the expense of America) in exchange for infrastructure investment is one of the clearest indicators of what China's rise might look like for nations around the world. Timely, precise, accessible and fast-paced, this book will be of value to scholars, journalists, policy-makers, and China watchers.

The Politics of Evidence (Open Access) Cambridge University Press

Given the centrality of political parties in modern democracies, most research on these systems either directly address their internal functioning and activities or question their critical role. Political science has moved from describing institutions to the thorough analysis of behavior within these institutions and the interactions between them. The inevitable consequences of the maturing and institutionalization of the discipline of political science in many countries include the forming of sub-fields and specialized research communities. At the same time the number of democracies has vastly increased since the 1980s and although not each attempt at democratization was eventually successful, more heterogeneous systems with some form of party competition exist than ever before. As a consequence, the literature addressing the large issues of party democracy spreads over many research fields and has become difficult to master for individual students of party democracy and party governance. The present volume sets out to review the behavior and larger role of political parties in modern democracies. In so doing the book takes its departure from the idea that the main contribution of political parties to the working of democracy is their role as vehicles of political competition in systems of government. Consequently the focus is not merely in the internal functioning of political parties, but rather their behavior the electoral, legislative, and governmental arenas. Thus several chapters address how political parties perform within the existing institutional frameworks. One more chapter looks at the role of political parties in building and adapting these institutions. Finally, two chapters explicitly address the party contributions to democracy in established and new democracies, respectively.

Comparative Hong Kong Politics Macmillan International Higher Education

Confusion about governance abounds. Many lack appreciation of how different traditions of thought in the social sciences contribute to our understanding. This book tackles these weaknesses head on and aims to provide a wider vision of the area, examining three critical areas of practice: environmental, corporate and participatory governance.

Secondary and High Schools Palgrave Macmillan Limited

Explains the basics of political science *Political Science: An Introduction*, 13/e, provides a comprehensive and jargon-free introduction to the field 's basic concepts and themes. It draws examples from the U.S. and other countries to introduce the entire field of political science to new readers. The authors stress how exciting politics can be, balancing practical and theoretical knowledge. MyPoliSciLab is an integral part of the Roskin/Cord/Medeiros/Jones program. Politics in the Republic of Ireland Routledge

Since the early 1990s, a series of major scandals in both the financial and most especially the political world has resulted in close attention being paid to the issue of corruption and its links to political legitimacy and stability. Indeed, in many countries – in both the developed as well as the developing world – corruption seems to have become almost an obsession. Concern about corruption has become a powerful policy narrative: the explanation of last resort for a whole range of failures and disappointments in the fields of politics, economics and culture. In the more established democracies, worries about corruption have become enmeshed in a wider debate about trust in the political class. Corruption remains as widespread today, possibly even more so, as it was when concerted international attention started being devoted to the issue following the end of the Cold War. This Handbook provides a showcase of the most innovative and exciting research being conducted in Europe and North America in the field of political corruption, as well as providing a new point of reference for all who are interested in the topic. The Handbook is structured around four core themes in the study of corruption in the contemporary world: understanding and defining the nature of corruption; identifying its causes; measuring its extent; and analysing its consequences. Each of these themes is addressed from various perspectives in the first four sections of the Handbook, whilst the fifth section explores new directions that are emerging in corruption research. The contributors are experts in their field, working across a range of different social-science perspectives.

Party Governance and Party Democracy Macmillan International Higher Education

Updated to cover the period up to and including the 2015 General Election, the new edition of this best-selling AS-level text covers all topics in the Edexcel and AQA syllabi and the core requirements of other boards. A Cross-Disciplinary Approach Routledge

This book examines the socio-political conflicts which have arisen since Hong Kong 's return to China and confronts the fundamental problems in the design of the One Country, Two Systems (OCTS) Model. It considers not only the issue of democratization, but also the institutional fractures in the executive-dominant political system and the disconnection between the executive and the legislature. It describes the drastic changes which have affected social mobilization and political activism in Hong Kong, as well as the pattern of interaction between the government and civil society. This edited volume brings together a team of cutting-edge researchers to examine the operation of the One Country, Two Systems (OCTS) Model in Hong Kong over the past 20 years. The discussion and analysis offered by the contributors will cast light on social and political tensions and conflicts that will continue to unfold in the coming years. This timely account, published on the 20th anniversary of the handover, will be a valuable read for students and scholars of Chinese and East Asian studies.

Political Science Macmillan International Higher Education

This accessible guide to the major concepts in politics has now been revised and expanded to include over 60 international relations terms to take account of the increasing influence of

globalization upon politics. Each concept is defined clearly and fully, and its significance for political understanding is explored.

Democracies of the Modern World Routledge

This book analyses how generations of secondary and high school students in many countries have been thoughtful, committed and effective political actors, particularly over the past decade.

An Introduction Red Globe Press

An accessible and comprehensive guide to the major concepts encountered in political analysis. Each is defined clearly and fully, and its significance for political argument and practice is explored. The introduction explains how political concepts are used and why they are so often abused.

When Students Protest Routledge

What is politics? Is it a universal feature of all human societies, past and present? Is it tied to specific institutional arenas? Or is it found in all groups and organizations, large or small, formal or informal? This new textbook seeks to provide answers to these important questions. Starting with what it means to 'think politically', the book goes on to explore a wide range of meanings attributed to the concept of politics from a variety of perspectives and theoretical traditions. It offers succinct and coherent overviews by some of the foremost scholars in the field, and each invites the reader to see the activity of politics in a distinctive way. Topics covered include politics as a form of rule, feminist approaches to politics, Marxism and politics, the politics of human behaviour, environmental politics, politics as collective choice, and Islam and politics. Written with the new student in mind, this concise introduction to the study and activity of politics is essential reading for all those coming to the discipline for the first time.

Rebellious Conservatives Bloomsbury Publishing

A major new text on gender and politics by two leading authorities, which introduces the main issues and debates about the politics of gender and its role in both domestic and international politics and feminist approaches to political analysis.
