Basic Hickok Troubleshooting – Tone Lizard

The Hickok model 533A tube tester is one of their most popular models. As with most all of Hickok tube testers, this unit uses the mutual transconductance method for testing of tube quality. There is also an earlier model 533 which is similar but has different grid signal levels and different switch settings.

Hickok 6000 Tube Tester - End of Restoration - Applications, Testing and Analysis

I am trying to calibrate a hickok 533a. I purchased a 6L6 calibration tube from Sonny the radiolaguy. It was measured at 5500 mhos. I have also downloaded the instructions from BAMA. All the voltages are correct, and the tube measures 5500 correctly on the ENGLISH scale, but the 6000 and 15000 scales test the tube at 4200.
