The Knowledge Drive is an optimistic book that demonstrates how new, more accurate information conveys survival value and inevitably supplants our dysfunctional mythological beliefs. Before there was time for the accumulation of knowledge, early man created legends and religious myths to "understand" the world and ease the paralyzing awareness of his own mortality and the fear of natural forces beyond his control. We are increasingly aware of how these magical beliefs can lead to divisive religious practices, violence, and mans' continuing inhumanity to fellow man. Change is clearly needed. Now, rapid advances in many fields are giving us the techniques to modify our evolution and curtail our virulence. We can establish a more universal, equitable morality based on more accurate intelligence about our origins and place in the universe. Nevertheless, it is up to us as a species to choose our own future directions. We are thus in charge of our own destiny, a threatening thought to many. No prayers or appeals to magical forces will help. Dr. Bardon analyzes how our quest for knowledge is a basic human drive similar to the sex and nourishment drives. It arises from our survival instinct and is

not based on moral or altruistic factors. Along with establishing knowledge as a source of power, the author discusses the Knowledge Drive from many other perspectives: its various motivations; the fact that it can be used for many purposes, even destructive ones; how it learns from adversity; how it often exacerbates inequality; and how it does not solve social problems unless given the necessary direction. Dr. Bardon looks at the multiple forces aligned against our efforts to obtain more reliable information. He shows how the Knowledge Drive not only triumphs over but also learns from these negative elements. Warnings about the fragility of our search for knowledge are misguided-it is rather the people mired in mythology who are vulnerable and need our compassion.

A new millennium has begun and brought with it challenges, opportunities, excitement, and, in one deadly event, terror. The Warrior Spirit Investigations team and their extensive circle of family and friends have seen many startling changes in their personal and professional lives. Marriages and partnerships have endured, and broken, and blossomed on the new horizon. Besides the stunning events that christened the new century there are secrets surrounding the clan that will have lifelong impacts in unexpected ways. A hidden group of people have come together to play a deadly game whose rules accommodate a lack of conscience down to sheer evil. One by

one they target innocent individuals; they have a pattern whose theme would on first glance seem innocent but is anything but. Guided by sociopathy they feed on fear and soon enough come to feed on one another. Their actions draw in Memphis, Sage, and their team and associates, and the fates of the evildoers and those who battle to uncover and punish them become deeply intertwined. What no one expected as the pursuit began and continued was that a deep, dark secret hidden forty years earlier would explode into everyone's lives with shocking revelations that would redefine the sense of safety and family that had been the backbone of the clan's lives for decades. A shocking secret that no one saw coming. A secret with devastating consequences. A Key to Puzzledom ; Or, Complete Handbook of the Enigmatic Art Indiana University Press

The Greatest Puzzles of All Time New Riders

Orature and Yorùbá Riddles takes readers into the hitherto unexplored undercurrents of riddles in Africa. Because of its oral and all too often ephemeral nature, riddles have escaped close scrutiny from scholars. The strength of the Yorùbá as the focus of this study is impressive indeed: a major ethnic group in Africa, with established connections with the black diaspora in North America and the Caribbean; a rich oral and written culture; a large and diverse population; and an integrated rural-urban society. The book is divided into six chapters for readers' convenience. When read in sequence, the book provides a comprehensive, holistic sense of Yorùbá creativity where riddles are concerned. At the same time, the book is conceived in a way that each chapter could be read individually. Therefore, those readers seeking understanding of a specific type of riddle may target a single chapter appearing most relevant to her/his curiosity.

I am the founder of FunAlligator.com. I was a computer geek while I worked at Silicon Valley. Nowadays I spend my days creating puzzle books keeping alive that passion for 'cracking the code.' My books are crafted with much love and appreciation. Why I created these books? I did experience more focus and mental agility while I was pushing my mental solving skills further. For instance, solving hard Sudoku puzzles or long math calculations in my mind. That made me realize that I could help my brain to be ready to seize the moment when needed if I keep challenging my mind. Once I finished numerous puzzles on the internet, I started creating my own challenges. I said to myself that I should be sharing this opportunity with everybody. Then I was creating abundant puzzles and encapsulated them in books. You will notice the extra mental strength after a bit. English Synonyms and Antonyms Sterling Publishing Company, Inc. Tarot Card Meanings is an encyclopedia reference guide that takes the Tarot apprentice reader through each of the 78 Tarot Cards offering the potential general meanings and interpretations that could be applied when conducting a reading, whether it be spiritual, love, general, or work related questions. Many novices struggle with reading the Tarot as they want to know what a card can mean in their readings. They grow stuck staring at several cards sitting side by side having no idea what it could be telling them. The Tarot Card Meanings book can assist by pointing you in the general direction of where to look. It will not give you the ultimate answers and should not be taken verbatim, as that is up to you as the reader to come to that conclusion. The more you practice, read, and study the Tarot, then the better you become. Tarot Card Meanings avoids diving into the Tarot history, or card spreads and symbolism, but instead focuses solely on the potential meanings of a card in a reading. This is by giving you a structure to jump off of, but it is up to you to take that energy and add the additional layers to your reading, while trusting your higher self, intuition, instincts and Spirit team 's guidance and messages. Author, Kevin Hunter, is a lifelong clairaudient and claircognizant who has written more than a dozen spiritually based empowerment books that have assisted readers around the world in improving their well-being, while also helping them become stronger conduits with Spirit, Heaven, and the Other Side. Anything included in the Tarot Card Meanings book is an overview and not intended to be gospel. It is merely one suggested version of the potential meanings of each of the 78 Tarot cards in a reading. This is an easy to understand manual for the Tarot novice that is having trouble interpreting cards for themselves, or a Tarot reader who loves the craft and is looking for a refresher or another point of view. NOTE: The Tarot Card Meanings book does not include a Tarot deck.
