â €œA shoe is a very complicated object to design. It is art, but involves mini architecture: materials, techniques, tooling. The end result is a fantasy sculpture to look at, but has another life when it is worn. â €? - Kobi Levi Exotic shoes have been around for centuries. Sandals made of solid gold were found in the royal tombs of ancient Egypt. Six hundred years ago, women teetered around Venice in chopines with platforms up to a foot high. And in China, tiny golden lotus shoes were brightly colored and elaborately embroidered. In the twentieth century, Salvatore Ferragamo introduced platform shoes and â €œinvisible â €? sandals. Beth Levine invented sprint-o-lator mules and topless shoes held to the sole by adhesive. Roger Vivier created the concave stiletto and comma heels for his extravagantly bejeweled concoctions. The last two decades have seen an explosion of creativity in footwear design. Sexy laced-up sandals, sky-high platform heels, and outrageously decorated shoes are seen on fashionable women everywhere, from the catwalk to the street. In Shoegasm, you â €™ll find page after page of fabulous footwear from fashion icons such as Christian Louboutin, Manolo Blahnik, Vivienne Westwood, and Alexander McQueen, as well as exciting young

designers like Nicholas Kirkwood, Charlotte Olympia, and collaborators Rem D. Kooahaas and Galahad Clark. You â €™ll also see shoes that are truly wearable art from innovators like Kobi Levi, Julian Hakes, and Marloes Ten Bohmer.

New York Times and USA Today Bestselling series! "Gemma Halliday's Maddie Springer is like the west coast version of Janet Evanovich's Stephanie Plum - only more stylish!" - LG Book Club
Maddie Springer is finally walking down the aisle with the man of her dreams. And she's got the perfect wedding planner to pull it all off in style. Well, perfect, that is, until the woman winds up dead - murdered in buttercream icing. Suddenly Maddie's hope of a dream wedding melts faster than an ice sculpture at an outdoor buffet. And when her groom-to-be is assigned the detective in charge of the case, there goes any chance of a honeymoon. Unless, of course, Maddie can find the murderer before her big day. With the help of her fellow fashionista friends, Maddie vows to unveil the cold-blooded killer. Is it the powerful ex-husband, the hot young boy toy, a secret lover from the past, or a billionaire bridezilla on the warpath? As the wedding day grows closer, tempers flare, old flames return, and Maddie's race to the altar turns into a race against time. are saying about Mayhem in High Heels: "I love how Gemma Halliday intertwines laughter and romance with grit, suspense and murder. Her characters have incredible depth, which makes you feel like you know them on a personal level. Her story, MAYHEM IN HIGH HEELS, sparkles with charm unlike any other murder mystery." - Romance Junkies "Funny and appealing, Halliday's hapless detective is a pleasure to watch as she somehow manages to solve another mystery." - Booklist "Do not wait -- rush right out and get MAYHEM IN HIGH HEELS and join Maddie and her gang for a thrilling mystery adventure!" - Romance Reviews Today "Fans will no doubt enjoy the (5th book) in this fun series." - Enchanting Reviews "This fifth...installment in Halliday's High Heels series is wonderfully entertaining, with an absorbing and complex mystery. Her pleasingly non-ass-kicking heroine -- with her entourage of quirky and fascinating family and friends -- makes this a fitting (5th) to these fun stories." - Romantic Times, 4 stars

Crochet cute and quirky dolls that explore the fun side of the 1950s. Boudoir Betty is a must-see! Crochet Betty, an amigurumi-style doll, with patterns for her fifties outfits ranging from shopping to movie-going. There's a detailed explanation of how to make the basic doll Betty, as well as her cute cat Bert. Each section has patterns for a selection of stylish removable garments and accessories on a fifties theme, with a few added extras for Bert too. Come with Betty as she channels her inner Audrey Hepburn at the movies or takes off on holiday in the glamorous footsteps of Grace Kelly. Praise for Amigurumi Style Crochet "This little slip of a book from crochet designer Medus will delight crafters. Using the Japanese style of amigurumi, which involves "working in a spiral without closing off each round with a slip stitch," Medus presents plans for creating two dolls, Betty, a "1950s housewife, stylish to a tee" and her cat, Bert, along with accessories for both. . . . Medus provides shortcuts that make creating Betty somewhat easier. . . . It's this attention to detail that makes the book enjoyable." —Publishers Weekly

The Boot & shoemaker Merehurst Limited Birdie carefully slipped her little toes into one shoe, then slid into the other. She looked at herself in the mirror... and gasped. Birdie can't wait to be just like her mom. She loves wearing jewelry, spritzing perfume bottles, and dressing up in front of the mirror. But more than anything, Birdie fantasizes about her mother's fancy high-heels. She can't wait to try them on and do all the things she likes to do wearing beautiful "big-girl shoes." Little girls will love walking with Birdie as she spends a day in her mother's shoes, but in the end they may find that, like Birdie, they like their "barefoot shoes" best of all. With playful watercolors and clever textured cut-paper designs, this precious picture book will speak to every little girl who longs to be a "big-girl".

Before he found fame as the father of Pop Art, Andy Warhol was an accomplished advertising illustrator and commercial artist for fashion tastemakers such as Barney's, Neiman Marcus, I. Miller, Glamour, Mademoiselle, and Harper's Bazaar. This delicately beautiful, colorfully playful, and hugely influential fashion illustration work from the 1950s has never before been collected in a book. A pop object in itself, Andy Warhol Fashion is a fun and gorgeous gallery of hundreds of his most delightful images. These witty drawings -- fanciful shoes, chic hats, smart suits, and perfect accessories to match -- showcase his unique ability to find inspiration in the everyday and elevate the ordinary to the extraordinary. Sprinkled with Warhol's perceptively funny observations ("When you think about it, department stores are kind of like museums."), and a reflection on Warhol's influence in the fashion world by Simon Doonan, Andy Warhol Fashion is a must-have acquisition for anyone with style.

Drawing on 25 years' experience as a conservator of leather, Goubitz presents a typological catalogue of footwear dating from 800-1800 AD. The study is based on Goubitz' analysis of an important assemblage of shoes recovered from excavations at Dordrecht in the Netherlands but the volume's aim is to offer guidance for the identification of shoes found on sites across north-western Europe. In addition, contributions from van Driel-Murray and Groenman-van Waateringe examine evidence for shoe types in prehistoric Europe and the north-western provinces of the Roman Empire, periods which inevitably have left less evidence. The fully illustrated catalogue follows a comprehensive discussion of shoes styles and technology including height standards, iconography, material, patterns, stitches, soles, the identification and dating of fragments and conservation. The volume should prove a useful tool for Roman and, especially, medieval historians and archaeologists.

Job Family Series Sterling Publishing Company
Although we now have sophisticated algorithms and techniques for determining the shapes and sizes and for matching the fit between shoes and feet, few, if any, of the books currently available cover these new technologies until now. Bringing together high-quality and state-of-the-art contributions from designers, biomechanists, ergonomists, engineers, podiatrists, and scientists from industry and academia, *The Science of Footwear* provides an in-depth understanding of the technology and techniques involved in the design and development of a popular and demanding consumer product. This book introduces the design, development, manufacturing, and marketing of footwear. The chapters contain data from past research and the state-of-the-art methodologies. They not only cover every aspect of the product design, but also how the footwear industry caters to the wide-ranging needs of sophisticated and demanding customers. The footwear industry has rapidly changed over the last 10 years. Mass production has changed to personalization and mass customization, areas that are not well-understood. This book explores these different concepts in a coherent way, drawing on differing views that give a holistic view of the science behind footwear. Collating information from different disciplines, the book provides the tools to develop the next generation of footwear.
