Hell, a genuine Harley Davidson 80" motor can be bought complete for about \$3,000.00 so it looks like a lot of your \$8,810.00 is going for advertising and CNC machine tool payments. Not that we want to scare you to death, but there are engine builders that will screw together a 113" S&S motor for you for about \$5,500.00.

About Us

Plugging all these leaks (as well as possible) is the art of the high performance engine builder, and helps explain why performance engine building is so much work. The next concept to be considered, and the second "secret" of the high performance engine, is the interesting role and effects of rpm. ... as they are on Harley Evolution engines, a ...

ORCA Engines: 113/132 and 139 EVO and 126/139 Twin Cam

T.C. Stage 3 Performance Package. Designed as an economic option when building a 107, 110, 113, 117, or 120 " engine. Unlike the Stage IV welded and CNC-ported heads, these CNC-ported heads have a larger 1.94 " intake valve instead of the 1.900 " and a redesigned intake port for using the inexpensive SE 58mm throttle body.
