"Me and E: A Baseball Odyssey is a reflection on parenting a highly skilled, nationally-ranked and difficult baseball prodigy, told through the author's eyes as he witnessed and participated in the successes and failures of his son playing baseball and growing up in Central Florida. It deals with the changing world of competitive youth sports, over-involved parents, fanatical coaches, the hypocrisies inherent in high school athletics, the college recruiting process and how we teach our kids to grow up and become decent human beings - despite ourselves. It involves well-known sports figures as well as local sports icons with traits and characteristics that everyone will recognize. It's a book about flawed parenting, about living vicariously through a gifted child and learning, finally, that being a good father is as much about letting go as it is about being there. Call it Moneyball meets Everything I Know I Learned in Kindergarten.

Also included are the titles, dates, and locations of 70 presentations I've given at various universities, conferences, and meetings.

A Story John Wiley & Sons

Insisting that politics and ideology must remain at the forefront of any examination of nineteenth-century America, Foner reasserts the centrality of the Civil War to the people of that period. The first section of this book deals with the causes of the sectional conflict; the second, with the antislavery movement; and a final group of essays treats land and labor after the war. Taken together, Foner's essays work towards reintegrating the social, political, and intellectual history of the nineteenth century.

Kids (Childrens & Kids Fiction)

Few decisions by a school district are more controversial than the decision to close a school. School staff, students and their families, and even the local community all bear a substantial burden once the decision is made to close a school. Since 2001, Chicago Public Schools (cps) has closed 44 schools for reasons of poor academic performance or underutilization. Despite the attention that school closings have received in the past few years, very little is known about how displaced students fare after their schools are closed. This report examines the impact that closing schools had on the students who attended these schools. The authors focus on regular elementary schools that were closed between 2001 and 2006 for underutilization or low performance and ask whether students who were forced to leave these schools and enroll elsewhere experienced any positive or negative effects from this type of school move. They look at a number of student outcomes, including reading and math achievement, special education referrals, retentions, summer school attendance, mobility, and high school performance. They also examine characteristics of the receiving schools and ask whether differences in these schools had any impact on the learning experiences of students who transferred into them. The authors report six major findings: (1) Most students who transferred out of closing schools reenrolled in schools that were academically weak; (2) The largest negative impact of school closings on students' reading and math achievement occurred in the year before the schools were closed; (3) Once students left schools slated for closing, on average the additional effects on their learning were neither negative nor positive; (4) Although the school closing policy had only a small overall effect on student test scores, it did affect summer school enrollment and subsequent school mobility; (5) When displaced students reached high school, their on-track rates to graduate were no different than the rates of students who attended schools similar to those that closed; and (6) The learning outcomes of displaced students depended on the characteristics of receiving schools. Overall, they found few effects, either positive or negative, of school closings on the achievement of displaced students. Appended are: (1) School Closings and New Openings; and (2) Data, Analytic Methods, and Variables Used. (Contains 5 tables, 12 figures and 53 endnotes.) [For the (What Works Clearinghouse (wwc) Quick Review of this report, see ed510790].

Sammy, a 14-year-old fugitive, accidentally discovers he has the

powers of a Psion. ... Plucked off the streets, he is thrust into the rigorously-disciplined environment of Psion Beta headquarters. As a new Beta, Sammy must hone his newfound abilities using holographic fighting simulations, stealth training missions, and complex war games. His fellow trainees are other kids competing to prove their worth so they can graduate and contribute to the war effort. But the stifling competition at headquarters isolates Sammy from his peers. Learning to use his incredible abilities powers is difficult enough, but when things go horribly wrong on a routine training mission, he must rely on the other Betas to stay alive. The Silent War is at a tipping point; even one boy can be the difference. But to do so, he must survive.

Identification and Citizenship in Africa Independently Published A beautiful, arresting story about race and the relationships that shape us through life by the legendary Nobel Prize winner—for the first time in a beautifully produced stand-alone edition, with an introduction by Zadie Smith “ A puzzle of a story, then—a game.... When [Morrison] called *Recitatif* an ‘ experiment ’ she meant it. The subject of the experiment is the reader. ” —Zadie Smith, award-winning, best-selling author of *White Teeth* In this 1983 short story--the only short story Morrison ever wrote--we meet Twyla and Roberta, who have known each other since they were eight years old and spent four months together as roommates in St. Bonaventure shelter. Inseparable then, they lose touch as they grow older, only later to find each other again at a diner, a grocery store, and again at a protest. Seemingly at opposite ends of every problem, and at each other's throats each time they meet, the two women still cannot deny the deep bond their shared experience has forged between them. Another work of genius by this masterly writer, *Recitatif* keeps Twyla's and Roberta's races ambiguous throughout the story. Morrison herself described *Recitatif*, a story which will keep readers thinking and discussing for years to come, as "an experiment in the removal of all racial codes from a narrative about two characters of different races for whom racial identity is crucial." We know that one is white and one is Black, but which is which? And who is right about the race of the woman the girls tormented at the orphanage? A remarkable look into what keeps us together and what keeps us apart, and how perceptions are made tangible by reality, *Recitatif* is a gift to readers in these changing times.

How to Write a Good Scientific Paper J.D. Rockefeller

In the context of a global biometric turn, this book investigates processes of legal identification in Africa ‘ from below, ’ asking what this means for the relationship between citizens and the state. Almost half of the population of the African continent is thought to lack a legal identity, and many states see biometric technology as a reliable and efficient solution to the problem. However, this book shows that biometrics, far from securing identities and avoiding fraud or political distrust, can even participate in reinforcing exclusion and polarizing debates on citizenship and national belonging. It highlights the social and political embedding of legal identities and the resilience of the documentary state. Drawing on empirical research conducted across 14 countries, the book documents the processes, practices, and meanings of legal identification in Africa from the 1950s right up to the biometric boom. Beyond the classic opposition between surveillance and recognition, it demonstrates how analysing the social uses of IDs and tools of identification can give a fresh account of the state at work, the practices of citizenship, and the role of bureaucracy in the writing of the self in African societies. This book will be of an important reference for students and scholars of African studies, politics, human security, and anthropology and the sociology of the state.
