We've rounded up the best doorbell cameras, the best outdoor cameras, and the best security cameras that will help keep your home secure with 1080p resolution.

RED Digital Cinema | 8K & 5K Professional Cameras

4K video refers to video that is recorded with a horizontal (width) display resolution of 4,000 pixels. The exact number varies when used for TV broadcast vs. cinema projection, but the idea is that the horizontal pixel count lands around 4,000.

Images of standard resolution captured at rates faster than normal (60 frames/second North America, 50 fps Europe), by a high-speed camera may be considered high-definition in some contexts. Some television series shot on high-definition video are made to look as if they have been shot on film , a technique which is often known as filmizing .
