Sibyl Blackthorne isn't afraid of anything—except maybe being sold into marriage to a man she doesn't love. A man she's never even met. A man who, by reputation, is one of Scotland's cruelest lairds in over a century. But what choice does she have, with her father dead and her uncle now married to his brother's widow, putting him in charge of not only the Blackthorne fortune, but Sibyl's future as well? Then her betrothed turns out to actually be far worse than his reputation, so headstrong Sibyl decides life as a peasant, or even death, would be preferable to a future with such a despicable man, and makes plans to run away. On an organized hunt for wolves—or, as the Scots call them, wulvers—Sybil escapes her fiancé's clutches, only to find she's run into something far more untamed and dangerous in the middle of the woods. When a big, brawny, long-haired man, who only speaks to her in Gaelic and calls himself Raife, simply picks her up and carries her off with him into the Scottish wild, Sibyl knows she's in trouble. When he takes her to a place no human has ever been, she knows she's gone over the edge. And when he, at last, marks her as his own, she discovers that only one wild heart can claim another.

The guardians of the Stone of Destiny through the lineage of time have protected this ancient holy relic up into modern times. From the stones introduction to human society to as far as ancient Egypt under the protection and stewardship of Princess Scota, daughter of Nefertiti and sister of Tutankhamun, the relic has traveled through many countries such as the Iberian Peninsula and Ireland, eventually coming to rest in Argyll, Scotland, where the Scots and Irish had adopted her name for their tribes and succession. Through the course of this guardianship, the relic was eventually placed with the Knights Templar, Holy Order of Scotland, and overseen by the Earl of Fife, where we know that through the warring years known better by the scholars as the Hammer of the Scots and the year 1296 specifically, where Edward Longshanks had raided Scotland in order to acquire this important relic. However, if true history is to be known, we may find that all was not as Edward had planned, and having returned to Scotland for a period covering seven years or so, King Longshanks was still not convinced that he had succeeded in his mission and eventually died near Lindisfarne before discovering the truth. As we move into modern times, we may discover that the guardians

may have misplaced the holy relic during their tenure and the stone was secreted in various locations through the centuries across Scotland, including the River Tay near Dundee and Dunsinane Castle near Scone, the disputed home of King MacBeth and his wife, Gruogh. In the account that is portrayed within this narrative, we may find that the relic has been, on occasions, vulnerable, and the guardians are pitched against an unknown enemy from within once more as they endeavor to save the stone from modern-day scientific study methods that could destroy the relic for eternity.

How was its music transmitted and received? This study presents much new contemporary evidence and uses a range of methods to recreate the changing world of the pipers as they influenced and were influenced by the transformations in Scottish society. It is intended for pipers exploring the achievements and musical concerns of their predecessors; for the general reader interested in a music whose history is akin to that of Scotland's poetry and song; and for all students of the process of tradition.
