The Ways of the Lord New City Press

This is the third and final volume of the complete annotated correspondence of the extraordinary nun, Hildegard of Bingen (1098-1179). One of the most remarkable women of her day, Hildegard was, for more than 30 years, an unflinching advisor and correspondent of all levels of church and society, from popes and kings to ordinary lay persons, from Jerusalem to England. This present volume (letters 218-390) is noteworthy for its large collection of letters to a non-ecclesiastical audience, and because it contains letters not just to such high-ranking notables as Frederick Barbarossa, King Henry II of England, or Eleanor of Aquitaine, but also to common, ordinary individuals of no importance whatsoever, save that they received a letter from Hildegard of Bingen. Addressing matters as diverse as the "humors" and their relation to health and salvation, the fate of departed souls, the frequency and horror of homicide in her age, a means of exorcising malignant spirits, an effective kind of incantation to alleviate nightmares, the proper attitude and response to the fact of excommunication, and male infidelity in marriage, Hildegard provides a unique view of the twelfth century world. Here also are found compositions in epistolary style that are actually sermons, meditations, prayers, or treatises on a wide range of theological topics, such as prophecy, celebration of the Mass, the Lord's Prayer, the creation, and the fall of Adam. Like previous volumes, the translation follows the most recent definitive Latin text, in which the letters are organized according to the rank and station of Hildegard's correspondents.

Visionary, mystic, poet, musician, naturalist, healer, theologian—the Rhineland nun Hildegard of Bingen (1098 – 1179) was a Renaissance woman long before there was a Renaissance. This is the first book in English to offer a representative selection of writings from all of her amazing range of work. Hildegard wrote many volumes on subjects from mystical vision to sexuality, from theology to natural medicine—in letters, treatises, poetry, and songs—all in an age when few women wrote more than an occasional letter. She was a woman of extraordinary influence whose work not only surpassed that of her male contemporaries in its range, but also outshone them in visionary beauty and intellectual power. This collection includes a brief biography of Hildegard, and selections from the following works: • Scivias (literally, "know the ways"), the record of

Hildegard's visions and her commentary on them • The Book of Life's Merits, visionary work • The Book of Divine Works, a work of cosmology and anthropology • Natural History, a record of plants, animals, and minerals, translated here into English for the first time • Causes and Cures, a compendium of her writing on natural medicine • Symphonia, her songs and poetry • Biographical works • Selected letters

Completed in 1173, The Book of Divine Works (Liber Divinorum Operum) is the culmination of the Visionary 's Doctor 's theological project, offered here for the first time in a complete and scholarly English translation. The first part explores the intricate physical and spiritual relationships between the cosmos and the human person, with the famous image of the universal Man standing astride the cosmic spheres. The second part examines the rewards for virtue and the punishments for vice, mapped onto a geography of purgatory, hellmouth, and the road to the heavenly city. At the end of each Hildegard writes extensive commentaries on the Prologue to John 's Gospel (Part 1) and the first chapter of Genesis (Part 2)—the only premodern woman to have done so. Finally, the third part tells the history of salvation, imagined as the City of God standing next to the mountain of God 's foreknowledge, with Divine Love reigning over all.

Against this background the author explores Hildegard's vast creative work, encompassing theology, medicine, natural history, poetry, and music.

An introduction to the life and work of Hildegard. • Reveals the life and teachings of one of the greatest female artists and intellectuals of the Western Mystical Tradition. • Contains 24 full-color illustrations by Hildegard of Bingen. • Includes commentary by Matthew Fox, author of *Original Blessing* (250,000 sold). Hildegard of Bingen (1098-1179) was an extraordinary woman living in the Rhineland valley during most of the twelfth century. Besides being the abbess of a large and influential Benedictine abbey, she was a prominent preacher, healer, scientist, and artist. She also was a composer and theologian, writing nine books on theology, medicine, science, and physiology, as well as 70 poems and an opera. At the age of 42, she began to have visions; these were captured as 36 illuminations--24 of which are recorded in this book along with her commentaries on them. She also wrote a text describing these visions entitled *Scivias* (Know the Ways), now published as *Hildegard of Bingen's Mystical Visions*. Author Matthew Fox has stated, "If Hildegard had been a man, she would be well known as one of the greatest artists and intellectuals the world has ever seen." It is a credit to the power of the women's movement and our times that this towering genius of Western thought is being rediscovered in her full grandeur and autonomy. Virtually unknown for more than 800 years in Western history, Hildegard was featured as one of the women in Judy Chicago's *Dinner Party* in the early 1980s and published for the first time in English by Bear & Company in 1982. In addition to her mystical teachings, Hildegard's music has been performed and recorded for a new and growing audience.

The contemporaries of Hildegard of Bingen called her prophetissa teutonica, honouring her philosophical writings and interpretation of the cosmos. Mediaevalists still consider her one of the leading mystics, and point to her active spiritual and artistic life in the 12th century as the finest example of what a woman can achieve. The abbess Hildegard of Bingen was the first composer to sign her musical works. As a playwright and author, she witnessed and

shaped the time of the Crusades, the literary minnesang, and political and theological debate. The author of this text draws a complex picture of her life and work, as he translates Hildegard's ideas and her mysterious world of symbols from mediaeval Latin into contemporary concepts. Heinrich Schipperges delineates this remarkable thinker's view of the human being as a microcosm of the universe, intricately bound by the senses to the life of the soul, nature, and God.

In May, 2012, Pope Benedict XVI formally declared 12th century Benedictine nun Hildegard of Bingen a canonized saint, with the canonization ceremony scheduled for October. He regards her as one of the great thinker who has helped shape the thought of the Catholic Church. Today there are many websites and Hildegard groups that celebrate and honor Hildegard's teachings, philosophy, art, and music. Author Matthew Fox writes in *Hildegard of Bingen* about this amazing woman and what we can learn from her. In an era when women were marginalized, Hildegard was an outspoken, controversial figure. Yet so visionary was her insight that she was sought out by kings, popes, abbots, and bishops for advice. A sixteenth century follower of Martin Luther called her "the first Protestant" because of her appeals to reform the church. As a writer, composer, philosopher, Christian mystic, Benedictine abbess, healer, artist, feminist, and student of science, Hildegard was a pioneer in many fields in her day. For many centuries after her death Hildegard was ignored or even ridiculed but today is finally being recognized for her immense contribution to so many areas, including our understanding of our spiritual relationship to the earth—a contribution that touches on key issues faced by our planet in the 21st century, particularly with regard to the environment and ecology.

Scivias by Hildegard of Bingen Inner Traditions / Bear & Co

Best known today as a fine composer, the twelfth-century German abbess Hildegard of Bingen was also a religious leader and visionary, a poet, naturalist and writer of medical treatises.

Despite her cloistered life she had strong, often controversial views on sex, love and marriage too - a woman astonishing in her own age, whose book of apocalyptic visions, *Scivias*, would alone have been enough to ensure her lasting fame. In this classic and highly praised biography - first published by Headline in 2001 - distinguished writer and journalist, Fiona Maddocks, draws on Hildegard's prolific writings to paint a portrait of her extraordinary life against the turbulent medieval background of crusade and schism, scientific discovery and cultural revolution. The great intellectual gifts and forceful character that emerge make her as fascinating as any figure in the Middle Ages. More than 800 years after her death, Pope Benedict XVI has made Hildegard a Saint and a Doctor of the Church (one of only four women). Fiona Maddocks has provided a short new preface to cover these tributes to an extraordinary and exceptional woman.

Celebrating the 2012 declaration of Hildegard of Bingen (1098 - 1179) as a Doctor of the Church, Elizabeth Obbard, OCD, interprets selections from Hildegard's first and major work, "*Scivias*." Obbard includes her own drawings, done in the Benedictine tradition, to illuminate the prophetic visions put forth by the German mystic. Hildegard is concerned with the whole panorama of the story of salvation. Reason is paramount. Order is necessary. She writes on creation, the Trinity, baptism and confirmation, lay people, the Eucharist, the history of salvation, virtues, angels, and 'The Symphony of the Blessed.' Obbard's lucid rendering of the English text is an excellent way to access Hildegard's wisdom.
