Dr Mike Moreno's 17 Day Diet is a revolutionary new weight-loss programme that activates your skinny gene so that you burn fat day in and day out. The diet is structured around four 17-day cycles:

Accelerate- the rapid weight loss portion that helps flush sugar and fat storage from your system; Activate-the metabolic restart portion with alternating low and high calorie days to help shed body fat; Achieve - this phase is about learning to control portions and introducing new fitness routines; Arrive - A combination of the first three cycles to keep good habits up for good. Each cycle changes your calorie count and the food that you're eating. The variation that Dr. Mike calls 'body confusion' is designed to keep your metabolism guessing. This is not a diet that relies on a tiny list of approved foods, gruelling exercise routines, or unrealistic calorie counts that leave you hungry and unfulfilled. Each phase comes with extensive lists of what dieters can and can't eat while on the phase, but also offers acceptable cheats. He advises readers not to drink while on the diet, but concedes that if they absolutely have to then they should at least drink red wine. Dr Mike knows that a diet can only work if it's compatible with the real world, and so he's designed the programme with usability as a top priority.

The creator of The Fat-Burning Man Show shares his revolutionary Paleo-inspired weight-loss program. Every month, half a million visitors download The Fat-Burning Man Show, eager to learn the secret of Abel James's incredible weight-loss success. Growing up on a defunct farm in the backwoods of New Hampshire, Abel had easy access to a host of natural foods that a backyard garden could provide: eggs, fresh produce, and real butter. But as he got older, he started eating a "modern diet" of processed foods, and by his early twenties, Abel found himself with high blood pressure, insomnia, acne, digestive problems, and love handles. Following the typical dieting advice of "eat less, exercise more," and despite running thirty miles a week and nibbling tasteless, low-fat, low-calorie food, his health only worsened as his waistline expanded. In an effort to gain control of his health, Abel dug deep into nutrition research and discovered that everything he'd been told about low-calorie eating was wrong. He realized that our bodies are wired to eat luxuriously—and burn fat—as long as we're eating real, natural foods that are grown on a farm and not in a factory. Incredibly, after just a few days of eating a Paleo-inspired diet of the most delicious "wild" foods that were rich in fat and fiber, Abel's health problems began to disappear. And after forty days—and radically cutting back

his exercise routine—he had lost twenty pounds. The Wild Diet is the book Abel's hundreds of thousands of fans have been clamoring for. At a time when our collective health is failing, Abel sounds a clarion call to announce that good health doesn't live in a pill, exercise program, or soul-crushing diet. The secret is simply getting back to our wild roots and eating the way we have for centuries.
