If the consumer economy had a sex, it would be female. If the business world had a sex, it would be male. And therein lies the pickle. Women are the engine of the global economy, driving 80 percent of consumer spending in the United States alone.

They hold the purse strings, and when they've got a tight grip on them as they do now, companies must be shrewder than ever to win them over. Just when executives have mastered becoming technology literate, they find there's another skill they need: becoming female literate. This isn't

always easy. Gender is the most powerful determinant of how a person views the world and everything in it. It's stronger than age, income, or race. While there are mountains of research done every year segmenting consumers and analyzing why they buy, more often than not it doesn't factor in the one piece of information that trumps them all: the sex of the buyer. It's stunning how many companies overlook the psychology of gender when we all know that men and women look at the world so differently. Bridget Brennan's *Why She Buys* shows decision makers how to bridge this divide and capture the business of the world's most powerful consumers just when they need it most.

- No Matter Where You Live, Women Are a Foreign Country: You'll discover the value in studying women with the same intensity that you would a foreign market. Women grow up within a culture of their own gender, which is often invisible to men. Brennan dissects this female culture and explains the important brain differences between

men and women that may cause your female customers to notice things about your products, marketing campaigns, or sales environment that you might have overlooked. • The High Fives: There are five major trends driving the global female population that are key to determining their wants and needs. These global shifts are just beginning to be tapped by businesses, and learning about them can provide you with an invaluable blueprint for long-range planning. • The Good, the Bad, and the Ugly: Find out how the best and brightest companies have cracked the female code, and hear horror stories about those that haven't. Through instructive case studies and interviews, Why She Buys provides practical, field-proven techniques that you can apply to your business immediately, from giants like Procter & Gamble and Toyota to upstarts like Method home-care products and lululemon athletica apparel. At a time when every company is looking for a competitive advantage, Bridget Brennan offers a new and effective lens for

capturing market share.

Provides the fundamentals, technologies, and best practices in designing, constructing and managing mission critical, energy efficient data centers Organizations in need of high-speed connectivity and nonstop systems operations depend upon data centers for a range of deployment solutions. A data center is a facility used to house computer systems and associated components, such as telecommunications and storage systems. It generally includes multiple power sources,

redundant data communications connections, technologies, and continually improve data environmental controls (e.g., air conditioning, center operations, fire suppression) and security devices. With Data Center Handbook Penguin One of the greatest pleasures of having a garden is to be able to observe and identify the great number of animal species which may feed, bathe and reside there, or simply fly over or pass through. This book combines full identification and behavioural features of over 250 common species, including birds, mammals, amphibians, wasps and bees, beetles and spiders, insects and invertebrates. Stunningly illustrated, yet simple to use, "The Complete Garden Wildlife Book" will ensure that you get the maximum pleasure from your garden whatever its size or

contributions from an international list of experts, The Data Center Handbook instructs readers to: Prepare strategic plan that includes location plan, site selection, roadmap and capacity planning Design and build "green" data centers, with mission critical and energy-efficient infrastructure Apply best practices to reduce energy consumption and carbon emissions Apply IT technologies such as cloud and virtualization Manage data centers in order to sustain operations with minimum costs Prepare and practice disaster recovery and business continuity plan The book imparts essential knowledge needed to implement data center design and construction, apply IT

This fourth edition of Profile of the International Filtration and Separation Industry - Market Prospects to 2006 reviews the markets, technological trends and major manufacturers of filtration and separation equipment on an international basis. The Profile looks at all aspects, both quantitative and qualitative, of the market for filtration and separation equipment as it existed in the second half of 2001 with forecasts to 2006. In addition to process filters, engine filters of all kinds are covered as well as vehicle, commercial and domestic air conditioning filters, catering filters, domestic water filters etc. Chapter 1 has an overview of the world

economy. Chapter 2 covers the international filtration and separation market, with a summary of major trends, with market figures and forecasts to 2006, along with some filtration trade data. Chapter 3 looks at the main end-user markets for filtration and separation products. Chapter 4 is a brief review of the latest trends in filtration and separation technology. Chapter 5 profiles 40 leading international companies in the filtration and separation business. Chapter 6 is a directory of approximately 1000 companies and organizations involved in the business. The details given include address, telephone and fax numbers, web addresses, as well as parent company, main products and

application areas, named key executives, numbers of employees, and sales figures where possible. The directory includes equipment and media manufacturers and suppliers worldwide, which are also indexed by product type. Chapter 7 is a directory of relevant web addresses. Chapter 8 includes appendices of related information. For a PDF version of the report please call Steve Kimber on +44 (0) 1865 843666 for price details.
