Discover Your Purpose Best Books on
In this life-changing book, energy medicine expert Rhys Thomas shows you how to discover your life purpose and align your decisions with your deepest self, so your life is fulfilling, productive, and full of joy. Trying to meet everyone else's expectations about the type of role you

should play—whether in your job, your family, or society—can leave you constantly striving but ultimately dissatisfied. In this inspiring book, Thomas guides you in using the Rhys Method® Life Purpose Profile System to identify your purpose and reconnect with your passions, so you can find true happiness and fulfillment. This system of self-discovery encompasses five distinct soul-based profiles. Which one are you? - Creative Idealists are highly imaginative thinkers who sometimes self-isolate, feeling safer staying in their inner mental world than engaging with others. -

Emotional Intelligence Specialists are empathic, sensitive, and compassionate but sometimes struggle with being overwhelmed and feeling unloved. - Team Players are loyal supporters who selflessly put others' needs before their own, but they can fail to recognize their own strengths and needs. - Charismatic Leader-Charmers are energetic, dynamic, and capable, but they can become distrustful, self-centered, and even aggressive, in their relationships. - Knowledgeable Achievers are driven, self-disciplined, and organized big-picture thinkers. They sometimes lose touch with their emotions and push themselves too hard, becoming overly critical and judgmental. Once you identify your primary life-purpose profile, as well the other profiles you may inhabit, you can move toward your unique calling—embracing your strengths and rejecting unhealthy behaviors. Discover Your Purpose also helps you to better understand and relate to others through their profiles. Included in this book are resources and bio-energetic exercises designed for your individual profile to help you reach your fullest potential in mind, body, and soul.

Seneca's dialogues--as his epistolary essays have traditionally been known--offer an ideal path into the philosophical thought of first-century Rome's most famous Stoic, whose compelled suicide in 65 CE (by order of his former pupil Emperor Nero) drew comparisons to the death of Socrates. Notable for, among other things, their portrait of a providential universe and defense of the life of virtue, the nine dialogues included in this volume illustrate the deeply intertwined cosmological and moral arguments of ancient Rome's chief philosophical alternative to Epicureanism and Academic Skepticism. Peter J. Anderson's new translation conveys the distinctive character of Seneca's style, while striving for accuracy and consistency in its renderings of key terms. His Introduction discusses the dialogues as works of art and situates them in the context of ancient Stoic philosophy as well as the wider philosophical scene. Notes and a glossary are also included.

A successful artist shoots a dog harassing his cows and descends into madness in this dark novel by the Tony Award-winning author of *Sticks and Bones*. In classic works such as *Hurlyburly* and *Streamers*, David Rabe's depictions of violence and the dark side of the human psyche have won him widespread acclaim. In *Recital of the Dog*, a painter who has left urban chaos for the country soon finds his hopes of tranquility shattered by a marauding intruder—a dog that torments his small herd of cows. Desperate to restore order to his world, the man shoots the dog, unwittingly unleashing a nightmare on himself. This is a tale of

creation and destruction, crime and punishment, rife with insight and black comedy. Praise for *Recital of the Dog* “So primal, so dark and redeeming it should be considered taboo, and is therefore irresistible. . . . An extraordinary, powerful piece of literature.” —Thomas Moore, author of *Care of the Soul* “David Rabe has crafted an intense, strange and frightening nightmare. . . . There is violence and intensity and vividness that a reader feels as though inhabiting the mind of a madman.” —The Denver Post “Playwright Rabe’s first novel is a powerful, shocking portrait of a disintegrating psyche . . . fairly crackles with a dark, disturbing, often dazzling energy.” —Library Journal “A gifted prose writer of original vision . . . In both voice and structure, *Recital of the Dog* owes much both to Albert Camus and James M. Cain. . . . Rabe’s beautiful, tight, fluent prose renders the fragility of reality with enormous power and grace.” —San Francisco Chronicle

G.K. Chesterton was a master essayist. But reading his essays is not just an exercise in studying a literary form at its finest, it is an encounter with timeless truths that jump off the page as fresh and powerful as the day they were written. The only problem with Chesterton's essays is that there are too many of them. Over five thousand! For most GKC readers it is not even possible to know where to start or how to begin to approach them. So three of the world's leading

authorities on Chesterton - Dale Ahlquist, Joseph Pearce, Aidan Mackey - have joined together to select the "best" Chesterton essays, a collection that will be appreciated by both the newcomer and the seasoned student of this great 20th century man of letters. The variety of topics are astounding: barbarians, architects, mystics, ghosts, fireworks, rain, juries, gargoyles and much more. Plus a look at Shakespeare, Dickens, Jane Austen, George MacDonald, T.S. Eliot, and the Bible. All in that inimitable, formidable but always quotable style of GKC. Even more astounding than the variety is the continuity of Chesterton's thought that ties everything together. A veritable feast for the mind and heart. While some of the essays in this volume may be familiar, many of them are collected here for the first time, making their first appearance in over a century.

Here is a refreshing look at life as it ought to be. Bare feet, gardening, dawdling over the newspaper, oversleeping and idle summer vacations are infinitely more satisfying than counting fat grams, eating only vegetables and sitting behind that desk every day. So toss out the guilt and rebel. Don't just stop and smell the flowers -- call in sick and lie among them, preferably with a good friend, a bottle of wine, and a handful of chocolates.

Endangered Pleasures is a delightful reminder that rest and relaxation are more rewarding than a job performance review. After all, life's too short. Why not have some fun while you're supposed to be living it?

This textbook provides an accessible overview of US defense politics for upper-level students. This new edition has been fully updated and revised, with a new chapter on intelligence and new material on unmanned drones, women in the military, the Tea Party, and other key issues. Analyzing the ways in which the United States prepares for war, the authors demonstrate how political and organizational interests determine US defense policy and warn against over-emphasis on planning, centralization, and technocracy. Emphasizing the process of

defense policy-making rather than just the outcomes of that process, US Defense Politics departs from the traditional style of many existing textbooks. Designed to help students understand the practical side of American national security policy, the book examines the following key themes: US grand strategy; who joins America's military; how and why weapons are bought; the management of defense; public attitudes toward the military and casualties; the roles of the President and the Congress in controlling the military; the effects of 9/11 and the Global War on Terror on security policy, homeland security, government reorganizations, and intra- and inter-service relations. The textbook will be essential reading for students of US defense politics, US national security policy and homeland security, and highly recommended for students of US foreign policy, US public policy and public administration.

Senator Robert F. "Bobby" Kennedy had just lost the 1968 presidential primary election in Oregon to Senator Eugene McCarthy when Elvin Bell,

Fresno, California's Mayor Pro Tem, hosted him for a breakfast meeting. As an exhausted Kennedy approached the podium to speak, Bell watched in amazement as Kennedy transformed from a frail man into a powerful speaker. Moments later as Bell rose to his feet with other audience members in a rousing standing ovation, he had no idea that he would never see his friend Bobby again. Bobby was shot the next day in Los Angeles and died within hours. Bell, a retired public official and USAF colonel, shares a compelling compilation of anecdotes that highlight the iconic personalities he has known and worked with during his assignments in the White House and the Pentagon, as well as during official foreign travels and various activities throughout America. In addition to the everyday characters and scoundrels he has encountered in his lifetime, he features nearly eighty personalities that include Gregory Peck, John Wayne, John Lennon, Eleanor Roosevelt, General Alexander Haig, Frank Sinatra, and Presidents John F. Kennedy, Lyndon B.

Johnson, Richard Nixon, and Ronald Reagan. In this fascinating memoir, a former political figure takes a look back at the true-life characters he has encountered and how they made a difference in his life and the world.
