The enigmatic and powerful Tlacaehlel (1398–1487), wrote annalist Chimalpahin, was “the beginning and origin” of the Mexica monarchy in fifteenth-century Mesoamerica. Brother of the first Moteuczoma, Tlacaehlel would become “the most powerful, feared, and esteemed man of all that the world had seen up to that time.” But this outsize figure of Aztec history has also long been shrouded in mystery. In *Tlacaehlel Remembered*, the first biography of the Mexica nobleman, Susan Schroeder searches out the truth about his life and legacy. A century after Tlacaehlel’s death, in the wake of the conquistadors, Spaniards and natives recorded the customs, histories, and language of the Nahuatl, or Aztec, people. Three of these chroniclers—fray Diego Durán, don Hernando Alvarado Tezozomoc, and especially don Domingo de San Antón Muñón Chimalpahin Quauhtlehuanitzin—wrote of Tlacaehlel. But the inaccessibility of Chimalpahin’s annals has meant that for centuries of Aztec history, Tlacaehlel has appeared, if at all, as a myth. Working from Chimalpahin’s newly available writings and exploring connections and variances in other source materials, Schroeder draws the clearest possible portrait of Tlacaehlel, revealing him as the architect of the Aztec empire’s political power and its military might—a politician on par with Machiavelli. As the advisor to five Mexica rulers, Tlacaehlel shaped the organization of the Mexica state and broadened the reach of its empire—feats typically accomplished with the spread of warfare, human sacrifice, and cannibalism. In the annals, he is considered the “second king” to the rulers who built the empire, and is given the title “Cihuacoatl,” used for the office of president and judge. As Schroeder traces Tlacaehlel through the annals, she also examines how his story was transmitted and transformed in later histories. The resulting work is the most complete and comprehensive account ever given of this significant figure in Mesoamerican history.

City of Sacrifice University of Oklahoma Press For at least two millennia before the advent of the Spaniards in 1519, there was a flourishing civilization in central Mexico. During that long span of time a cultural evolution took place which saw a high development of the arts and literature, the formulation of complex religious doctrines, systems of education, and diverse political and social organization. The rich documentation concerning these people, commonly called Aztecs, includes, in addition to a few codices written before the Conquest, thousands of folios in the Nahuatl or Aztec language written by natives after the Conquest. Adapting the Latin alphabet, which they had been taught by the missionary friars, to their native tongue, they recorded poems, chronicles, and traditions. The fundamental concepts of ancient Mexico presented and examined in this book have been taken from more than ninety original Aztec documents. They concern the origin of the universe and of life, conjectures on the mystery of God, the possibility of comprehending things beyond the realm of experience, life after death, and the meaning of education, history, and art. The philosophy of the Nahuatl wise men, which probably stemmed from the ancient doctrines and traditions of the Teotihuacans and Toltecs, quite often reveals profound intuition and in some instances is remarkably “modern.” This English edition is not a direct translation of the original Spanish, but an adaptation and rewriting of the text for the English-speaking reader.

At an excavation of the Great Aztec Temple in Mexico City, amid carvings of skulls and a dismembered warrior goddess, David Carrasco stood before a container filled with the decorated bones of infants and children. It was the site of a massive human sacrifice, and for Carrasco the center of fiercely provocative questions: If ritual violence against humans was a profound necessity for the Aztecs in their capital city, is it central to the construction of social order and the authority of city states? Is civilization built on violence? In *City of Sacrifice*, Carrasco chronicles the fascinating story of Tenochtitlan, the Aztec capital, investigating Aztec religious practices and demonstrating that religious violence was integral to urbanization; the city itself was a temple to the gods. That Mexico City, the largest city on earth, was built on the ruins of Tenochtitlan, is a point Carrasco poignantly considers in his comparison of urban life from antiquity to modernity. Majestic in scope, *City of Sacrifice* illuminates not only the rich history of a major Mesoamerican city but also the inseparability of two passionate human impulses: urbanization and religious engagement. It has much to tell us about many familiar events in our own time, from suicide bombings in Tel Aviv to rape and murder in the Balkans.

Now in a revised edition with a new afterword, Jared Diamond's *Collapse* uncovers the secret behind why some societies flourish, while others founder - and what this means for our future. What happened to the people who made the forlorn long-abandoned statues of Easter Island? What happened to the architects of the crumbling Maya pyramids? Will we go the same way, our skyscrapers one day standing derelict and overgrown like the temples at Angkor Wat? Bringing together new evidence from a startling range of sources and piecing together the myriad influences, from climate to culture, that make societies self-destruct, Jared Diamond's *Collapse* also shows how - unlike our ancestors - we can benefit from our knowledge of the past and learn to be survivors. 'A grand sweep from a master storyteller of the human race' - Daily Mail 'Riveting, superb, terrifying' - Observer 'Gripping ... the book fulfils its huge ambition, and Diamond is the only man who could have written it' - Economist 'This book shines like all Diamond's work' - Sunday Times

This is a history of one of the best known peoples of pre-Columbian America. The Aztecs were the upstarts of Meso-America. Until the thirteenth century they were a little-known people practising subsistence agriculture in the north of what is now Mexico. At that time they migrated to the Valley of Mexico, and having first learnt military arts by hiring themselves as mercenaries to the Oaxacans and other established societies, promptly used these skills to subjugate their former masters, and to swallow up a succession of Meso-American kingdoms. By the time Cortes arrived they were the undisputed rulers of a large empire, which they kept subdued by regular human sacrifice and whose people they taxed to the bone (factors used by Cortes to foment rebellion).

At Home with the Aztecs provides a fresh view of Aztec society, focusing on households and communities instead of kings, pyramids, and human sacrifice. This new approach offers an opportunity to humanize the Aztecs, moving past the popular stereotype of sacrificial maniacs to demonstrate that these were successful and prosperous communities. Michael Smith also engagingly describes the scientific, logistic and personal dimensions of archaeological fieldwork, drawing on decades of excavating experience and considering how his research was affected by his interaction with contemporary Mexican communities. Through first-hand accounts of the ways archaeologists interpret sites and artifacts, the book illuminates how the archaeological process can provide information about ancient families. Facilitating a richer understanding of the Aztec world, Smith's research also redefines success, prosperity and resilience in ancient societies, making this book suitable not only for those interested in the Aztecs but in the examination of complex societies in general.

Some sixty years after the Spanish conquest of Mexico, a group of Nahua intellectuals in Mexico City set about compiling an extensive book of miscellanea, which was recorded in pictorial form with alphabetic texts in Nahuatl clarifying some imagery or adding new information altogether. This manuscript, known as the Codex Mexicanus, includes records pertaining to the Aztec and Christian calendars, European medical astrology, a genealogy of the Tenochca royal house, and an annals history of pre-conquest Tenochtitlan and early colonial Mexico City, among other topics. Though filled with intriguing information, the Mexicanus has long defied a comprehensive scholarly analysis, surely due to its disparate contents. In this pathfinding volume, Lori Boornazian Diel presents the first thorough study of the entire Codex Mexicanus that considers its varied contents in a holistic manner. She provides an authoritative reading of the Mexicanus's contents and explains what its creation and use reveal about native reactions to and negotiations of colonial rule in Mexico City. Diel makes sense of the codex by revealing how its miscellaneous contents find counterparts in Spanish books called Reportorios de los tiempos. Based on the medieval almanac tradition, Reportorios contain vast assortments of information related to the issue of time, as does the Mexicanus. Diel masterfully demonstrates that, just as Reportorios were used as guides to living in early modern Spain, likewise the Codex Mexicanus provided its Nahua audience a guide to living in colonial New Spain.

Created in Tepechpan, a relatively minor Aztec city in Central Mexico, the Tira de Tepechpan records important events in the city's history from 1298 through 1596. Most of the history is presented pictographically. A line of indigenous year signs runs the length of the Tira, with images above the line depicting events in Tepechpan and images below the line recording events at Tenochtitlan, capital of the Aztec empire and later the seat of Spanish rule. Written annotations amplify some of the images. In this volume, which includes color plates of the entire Tira, Lori Boornazian Diel investigates the motives behind the creation and modification of the Tira in the second half of the sixteenth century. She identifies the Tira's different contributors and reconciles their various histories by asking why these painters and annotators, working at different times, recorded the events that they did. Comparing the Tira to other painted histories from Central Mexico, Diel demonstrates that the main goal of the Tira was to establish the antiquity, autonomy, and prestige of Tepechpan among the Central Mexican city-states that vied for power and status in the preconquest and colonial worlds. Offering the unique point of view of a minor city with grand ambitions, this study of the Tira reveals imperial strategy from the grassroots up, showing how a subject city negotiated its position under Aztec and Spanish control.
