The summer of '28 was a vintage season for a growing boy. A summer of green apple trees, mowed lawns, and new sneakers. Of half-burnt firecrackers, of gathering dandelions, of Grandma's belly-busting dinner. It was a summer of sorrows and marvels and gold-fuzzed bees. A magical, timeless summer in the life of a twelve-year-old boy named Douglas Spaulding—remembered forever by the incomparable Ray Bradbury. The only god living in Green Town, Illinois, that Douglas Spaulding knew of. The facts about John Huff, aged twelve, are simple and soon stated.

- He could pathfind more trails than any Choctaw or Cherokee since time began.
- Could leap from the sky like a chimpanzee from a vine.
- Could live underwater two minutes and slide fifty yards downstream.
- Could hit baseballs into apple trees, knocking down harvests.
- Could jump six-foot orchard walls.
- Ran laughing.
- Sat easy.
- Was not a bully.
- Was kind.
- Knew the words to all the cowboy songs and would teach you if you asked.
- Knew the names of all the wild flowers and when the moon would rise or set and when the tides came in or out.

He was, in fact, the only god living in the whole of Green Town, Illinois, during the twentieth century that Douglas Spaulding knew of. " [Ray] Bradbury is an authentic original. " —Time

Selected by the Modern Library as one of the 100 best nonfiction books of all time From the Modern Library's new set of beautifully repackaged hardcover classics by Truman Capote—also available are *Breakfast at Tiffany's* and *Other Voices, Other Rooms* (in one volume), *Portraits and Observations*, and *The Complete Stories* Truman Capote's masterpiece, *In Cold Blood*, created a sensation when it was first published, serially, in *The New Yorker* in 1965. The intensively researched, atmospheric narrative of the lives of the Clutter family of Holcomb, Kansas, and of the two men, Richard Eugene Hickock and Perry Edward Smith, who brutally killed them on the night of November 15, 1959, is the seminal work of the "new journalism." Perry Smith is one of the great dark characters of American literature, full of contradictory emotions. "I thought he was a very nice gentleman," he says of Herb Clutter. "Soft-spoken. I thought so right up to the moment I cut his throat." Told in chapters that alternate between the Clutter household and the approach of Smith and Hickock in their black Chevrolet, then between the investigation of the case and the killers' flight, Capote's account is so detailed that the reader comes to feel almost like a participant in the events.

During the 1976 Bicentennial celebration, millions of Americans engaged with the past in brand-new ways. They became absorbed by historical miniseries like *Roots*, visited museums with new exhibits that immersed them in the past, propelled works of historical fiction onto the bestseller list, and participated in living history events across the nation. While many of these activities were sparked by the Bicentennial, M. J. Rymza-Pawlowska shows that, in fact, they were symptomatic of a fundamental shift in Americans' relationship to history during the 1960s and 1970s. For the majority of the twentieth century, Americans thought of the past as foundational to, but separate from, the present, and they learned and thought about history in informational terms. But Rymza-Pawlowska argues that the popular culture of the 1970s reflected an emerging desire to engage and enact the past on a more emotional level: to consider the feelings and motivations of historic individuals and, most importantly, to use this in reevaluating both the past and the present. This thought-provoking book charts the era's shifting feeling for history, and explores how it serves as a foundation for the experience and practice of history making today.

The special language of poor-bashing disguises the real causes of poverty, hurts and excludes people who are poor, cheapens the labour of people who have jobs, and takes the pressure off the rich. Swanson, a twenty-five year veteran of anti-poverty work, exposes the ideology of poor-bashing in a clear, forceful style. She examines how media "poornography" operates when reporters cover poverty stories. She also reveals how government and corporate clients use poor-bashing focus groups. To make the book even more useful Swanson includes key chapters on the history of poor-bashing.

Previously published as Ancient Science, Secret History contains 150 pages of new material. The Secret History of The World and How To Get Out Alive is the definitive book of the real answers where Truth is more fantastic than fiction. Laura Knight-Jadczyk, wife of internationally known theoretical physicist, Arkadiusz Jadczyk, an expert in hyperdimensional physics, draws on science and mysticism to pierce the veil of reality. With sparkling humour and wisdom, she picks up where Fulcanelli left off, sharing over thirty years of research to reveal, for the first time, The Great Work and the esoteric Science of the Ancients in terms accessible to scholar and layperson alike. Conspiracies have existed since the time of Cain and Abel. Facts of history have been altered to support the illusion. The question today is whether a sufficient number of people will see through the deceptions, thus creating a counter-force for positive change - the gold of humanity - during the upcoming times of Macro-Cosmic Quantum Shift. Laura argues convincingly, based on the revelations of the deepest of esoteric secrets, that the present is a time of potential transition, an extraordinary opportunity for individual and collective renewal: a quantum shift of awareness and perception which could see the birth of true creativity in the fields of science, art and spirituality. The Secret History of the World allows us to redefine our interpretation of the universe, history, and culture and to thereby navigate a path through this darkness. In this way, Laura Knight-Jadczyk shows us how we may extend the possibilities for all our different futures in literal terms. With over 800 pages of fascinating reading, The Secret History of The World and How to Get Out Alive is rapidly being acknowledged as a classic with profound implications for the destiny of the human race. With painstakingly researched facts and figures, the author overturns long-held conventional ideas on religion, philosophy, Grail legends, science, and alchemy, presenting a cohesive narrative pointing to the existence of an ancient techno-spirituality of the Golden Age which included a mastery of space and time: the Holy Grail, the Philosopher's Stone, the True Process of Ascension. Laura provides the evidence for the advanced level of scientific and metaphysical wisdom possessed by the greatest of lost ancient civilizations - a culture so advanced that none of the trappings of civilization as we know it were needed, explaining why there is no 'evidence' of civilization as we know it left to testify to its existence. The author's consummate synthesis reveals the Message in a Bottle reserved for humanity, including the Cosmology and Mysticism of mankind Before the Fall when, as the ancient texts tell us, man walked and talked with the gods. Laura shows us that the upcoming shift is that point in the vast cosmological cycle when mankind - or at least a portion of mankind - has the opportunity to regain his standing as The Child of the King in the Golden Age. If ever there was a book that can answer the questions of those who are seeking Truth in the spiritual wilderness of this world, then surely The Secret History of the World and How to Get Out Alive is it.
