The Seventh Sun faces destruction as Mayana and Ahkin race to save their world in the finale to this “compulsively readable” series (Rachel A. Marks, author of *Fire and Bone*). To the Chicome people, an eclipse is a time of terror. When darkness falls, the barrier separating the heavens and the earth becomes unstable. Then come the ravaging

Tzitzimime—the star demons who thirst for human blood. Mayana and Ahkin know the full extent of the coming danger, but they must gather support or the Chicome Empire is doomed. As the eclipse nears, many maneuver for power in this deadly game of worlds ending. Metzi, Ahkin’s treacherous sister, has seized control of the empire with the aid of the malevolent goddess known as the Obsidian Butterfly. But Metzi has no idea what the goddess has in store ... Yemania and Ochix face the wrath of both their peoples. Their forbidden liaison may draw ancient enemies together ... or rip the young lovers apart forever. And the princesses who battled fiercely for Ahkin’s heart in *The Seventh Sun* meet again—but this time, they must join forces in order to survive. As for Ahkin and

Mayana, the entire empire seems to want to keep them apart. Can their love endure the end of the world?

History Alive: The Ancient World Answers in Genesis

The role of the Shanghai Cooperation Organization (SCO) in regional politics and the significance of the organization for U.S. interests are widely misunderstood. The organization is emphatically not a military bloc, and yet engages in joint activities which resemble military cooperation to U.S. eyes. It is, in theory, open to new members; but at present is highly unlikely to accept any. Its rhetoric firmly opposes U.S. presence and activity on the territory of member states, and yet individual member states leverage basing agreements with the U.S. to

their advantage. The author reviews SCO's history and stated aspirations, and measures these against actual achievements. He concludes that, with the notable exception of the Regional Anti-Terrorist Structure (RATS), the great majority of SCO accomplishments are of little significance other than to provide an additional multinational vehicle through which China and in particular Russia can seek to counter U.S. and Western activity in Central Asia.

*The Medieval World and Beyond* Picador  
The definitive translation by Dick Davis of the great national epic of Iran—now newly revised and expanded to be the most complete English-language edition  
A Penguin Classic Dick Davis—“our pre-eminent translator from the Persian” (The Washington Post)—has revised and expanded his acclaimed translation of

Ferdowsi's masterpiece, adding more than 100 pages of newly translated text. Davis's elegant combination of prose and verse allows the poetry of the *Shahnameh* to sing its own tales directly, interspersed sparingly with clearly marked explanations to ease along modern readers. Originally composed for the Samanid princes of Khorasan in the tenth century, the *Shahnameh* is among the greatest works of world literature. This prodigious narrative tells the story of pre-Islamic Persia, from the mythical creation of the world and the dawn of Persian civilization through the seventh-century Arab conquest. The stories of the *Shahnameh* are deeply embedded in Persian culture and beyond, as attested by their appearance in such works as *The Kite Runner* and the love poems of Rumi and Hafez. For more than sixty-five years, Penguin has been the leading publisher of classic literature in the English-speaking world. With more than 1,500 titles, Penguin Classics represents a global bookshelf of the best works throughout history and across genres and disciplines. Readers trust the series to provide authoritative texts enhanced by introductions and notes by distinguished scholars and contemporary authors, as well as up-to-date translations by award-winning translators.

message in light of the delay of the Kingdom he had preached. This edition includes an introduction reviews the most recent scholarship on Jesus and its implications for both history and theology. "Brilliant and lucidly written, full of original and fascinating insights."—Reginald H. Fuller, Journal of the American Academy of Religion "This is a first-rate work of a first-rate historian."—James D. Tabor, Journal of Religion "Fredriksen confronts her documents—principally the writings of the New Testament—as an archaeologist would an especially rich complex site. With great care she distinguishes the literary images from historical fact. As she does so, she explains the images of Jesus in terms of the strategies and purposes of the writers Paul, Matthew, Mark, Luke, and John."—Thomas D ' Evelyn, Christian Science Monitor

'An epic treasure hunt into the highways and byways of stored knowledge across faiths and continents.' John Agard, poet and playwright  
In *The Map of Knowledge* Violet Moller traces the journey taken by the ideas of three of the greatest scientists of antiquity - Euclid, Galen and

Ptolemy - through seven cities and over a thousand years. In it, we follow them from sixth-century Alexandria to ninth-century Baghdad, from Muslim Cordoba to Catholic Toledo, from Salerno's medieval medical school to Palermo, capital of Sicily's vibrant mix of cultures, and - finally - to Venice, where that great merchant city's printing presses would enable Euclid's geometry, Ptolemy's system of the stars and Galen's vast body of writings on medicine to spread even more widely. In tracing these fragile strands of knowledge from century to century, from east to west and north to south, Moller also reveals the web of connections between the Islamic world and Christendom, connections that would both preserve and transform astronomy, mathematics and medicine from the early Middle Ages to the Renaissance. Vividly told and with a dazzling cast of characters, *The Map of Knowledge* is an evocative, nuanced and vibrant

account of our common intellectual heritage.

*Stuff They Don't Want You to Know*

A lively and engaging narrative history showing the common threads in the cultures that gave birth to our own. This is the first volume in a bold new series that tells the stories of all peoples, connecting historical events from Europe to the Middle East to the far coast of China, while still giving weight to the characteristics of each country. Susan Wise Bauer provides both sweeping scope and vivid attention to the individual lives that give flesh to abstract assertions about human history. Dozens of maps provide a clear geography of great events, while timelines give the reader an ongoing sense of the passage of years and cultural interconnection. This old-fashioned narrative history employs the methods of "history from beneath" —literature, epic traditions, private letters and accounts—to connect kings and leaders with the lives of those they ruled. The result is an engrossing tapestry of human behavior from which we may draw conclusions about the direction of world events and the causes behind them.

\*Includes pictures. \*Includes footnotes and a bibliography for further reading. Many ancient civilizations have influenced and inspired people in the 21st century. The Greeks and Romans continue to fascinate the West today. But of all the world's civilizations, none have intrigued people more than the Mayans, whose culture, astronomy, language, and mysterious disappearance all continue to captivate people. In 2012 especially, there was a renewed focus on the Mayans, whose advanced calendar has led many to speculate the world would end on the same date the Mayan calendar ends, but if anything, the focus on the "doomsday" scenario overshadowed the Mayans' true contribution to astronomy, language, sports, and art. The Maya maintained power in the Yucatan for over a thousand years, and at the height of its "Classical era" (3rd-9th centuries A.D.), the city of Tikal was one of the power centers of the

empire. Archaeologists believe Tikal had been built as early as the 5th or 4th century BC, and eventually it became a political, economic and military capital that was an important part of a far-flung network across Mesoamerica, despite the fact it was seemingly conquered by Teotihuacan in the 4th century AD. It seems the foreign rulers came to assimilate Mayan culture, thus ensuring Tikal would continue to be a power base, and as a result, the city would not be abandoned until about the 10th century AD. As one of the Ancient Maya's most important sites, construction at Tikal was impressive, and even though it was apparently conquered, the city's records were unusually well preserved. This includes a list of the city's dynastic rulers, as well as the tombs and monuments dedicated to them. Thanks to this preservation, Tikal offers researchers their best look at the Ancient Maya and has gone a long

way toward helping scholars understand Mayan history. Tikal: The History of the Ancient Maya's Famous Capital covers the history of the city, as well as the speculation and debate surrounding it. Along with pictures and a bibliography, you will learn about Tikal like you never have before, in no time at all.

millennium BCE to the fall of Babylon in the first, the history of Mesopotamia spans almost 5,000 years. It was not only the earliest but also the greatest civilization in human history. Sumerians, Assyrians, Akkadians, and Babylonians were just some of the associated cultures. For a long time, the only way to understand their history has been through dense academic sources. This is in part due to the huge time frame and the lack of easily understood ancient sources. Such inaccessibility of information means that few know little about it. As such, it is essential to bring their knowledge and history into the light, allowing everyone to benefit from the fascinating insights of the very first human civilization. World, and all sorts of mysteries attaching to them, have intrigued people since the second century BCE. Why were these particular creations chosen and when? And why did the ancients want to draw up such a list in the first place? What were the technical and cultural factors involved in the creation and listing of the Wonders? The Seven Wonders still rival many of the phenomenal products of both nature and mankind in their size, majesty, and beauty. Six of them no longer stand, having been destroyed by natural disaster or by human intervention.
