History Homework For Grown-Ups Portico

The economic crisis of 2008 – 2009 was a transformational event: it demonstrated that smart people aren't as smart as they and the public think. The crisis arose because a lot of highly educated people in high-impact positions— political power brokers, business leaders, and large segments of the general public—made a lot of bad decisions despite unprecedented access to data, highly sophisticated decision support systems, methodological advances in the decision sciences, and guidance from highly experienced experts. How could we get things so wrong? The answer, says J. Davidson Frame in *Framing*

Decisions: Decision Making That Accounts for Irrationality, People, and Constraints, is that traditional processes do not account for the three critical immeasurable elements highlighted in the book's subtitle—irrationality, people, and constraints. Frame argues that decision-makers need to move beyond their single-minded focus on rational and optimal solutions as preached by the traditional paradigm. They must accommodate a decision's social space and address the realities of dissimulation, incompetence, legacy, greed, peer pressure, and conflict. In the final analysis, when making decisions of consequence, they should focus on people – both as individuals and in

groups. Framing Decisions offers a new approach to decision making that gets decision-makers to put people and social context at the heart of the decision process. It offers guidance on how to make decisions in a real world filled with real people seeking real solutions to their problems.

Nobody sang happy birthday to me when I turned eighteen. Instead, I was gifted a bargain-outlet suitcase to pack my belongings. They said that they needed the bed for another boy in need. I guess once you turn eighteen you're suddenly not considered a boy anymore. If only my shaking hands and panicked heart would get the message. But I would survive, as I had always done, despite my best efforts to the contrary. Having a home was overrated anyway. That's why couches and park benches existed, right? All things considered, summer wasn't such a bad time to be homeless in Boston. And, hey, without

parental oversight, I could go anywhere I wanted. I could even go looking for that something that had always niggled in the back of my brain ... that fine line between pleasure and pain. Nobody would yell at me for being out beyond curfew, and nobody would call me a freak if I found someone to show me the ropes, literally. And if that creepy old codger, Vern, continued to follow me in the shadows everywhere I went, well ... that was his problem.
