History of English Literature CUP Archive
This new edition of an established text provides a succinct and up-to-date historical overview of the story of English literature. Focusing on how writing both reflects and challenges the periods in which it is produced, John Peck and Martin Coyle combine close readings of key texts with recent critical thinking on the interaction of literary works and culture. Providing a lively introductory guide to English literature from Beowulf to the present day, the authors write in their characteristically lucid and accessible style. A true masterpiece of clarity and compression, this is essential reading for undergraduate students coming across the vast areas of English literature for the first time and looking for a way of making critical sense of the texts being studied. In addition, the concise nature and narrative structure of this book makes it excellent reading for general readers. New to this Edition: - Revised chapter on twentieth century literature - Complete new chapter on twenty-first century literature - Updated Chronology and Further Reading section

The Cambridge History of English Literature Penguin Uk
This guide to English literature covers the period from (roughly) the gawain poet to the present day. The book surveys the lines of development that lead from the Anglo-Saxon poet, or scop, singing his work at his chieftain's hearth, to the modern poetry of Geoffrey Hill and Seamus Heaney.

The Concise Cambridge History of English Literature Cambridge University Press
Some of the greatest works in English literature were first published without their authors' names. Why did so many authors want to be anonymous--and what was it like to read their books without knowing for certain who had written them? In Anonymity, John Mullan gives a fascinating and original history of hidden identity in English literature. From the sixteenth century to today, he explores how the disguises of writers were first used and eventually penetrated, how anonymity teased readers and bamboozled critics--and how, when book reviews were also anonymous, reviewers played tricks of their own in return. Today we have forgotten that the first readers of Gulliver's Travels and Sense and Sensibility had to guess who their authors might be, and that writers like Sir Walter Scott and Charlotte Brontë went to elaborate lengths to keep secret their authorship of the best-selling books of their times. But, in fact, anonymity is everywhere in English literature. Spenser, Donne, Marvell, Defoe, Swift, Fanny Burney, Austen, Byron, Thackeray, Lewis Carroll, Tennyson, George Eliot, Sylvia Plath, and Doris Lessing--all hid their names. With great lucidity and wit, Anonymity tells the stories of these and many other writers, providing a fast-paced, entertaining, and informative tour through the history of English literature.

Iv) On Shakespeare It Would Be Difficult, Even In The Mass Of Similar Attempts, To Indicate Another Eighty Pages Which Tell So Much So Well, And Are So Little Open To Criticism... This Critic S Independence And Originality Of Thought Appear To Advantage In His Closing Remarks On The Tailend Of The Stuart Drama.

A History of Old English Literature Cambridge University Press
The Romantic period was one of the most creative, intense and turbulent periods of English literature, an age marked by revolution, reaction, and reform in politics, and by the invention of imaginative literature in its distinctively modern form. This History presents an engaging account of six decades of literary production around the turn of the nineteenth century. Reflecting the most up-to-date research, the essays are designed both to provide a narrative of Romantic literature, and to offer new and stimulating readings of the key texts. One group of essays addresses the various locations of literary activity - both in England and, as writers developed their interests in travel and foreign cultures, across the world. A second set of essays traces how texts responded to great historical and social change. With a comprehensive bibliography, timeline and index, this volume will be an important resource for research and teaching in the field.

A Little History of Literature Psychology Press
The book has a wide coverage and studies all the famous writers of English literature in the field of poetry, fiction, essay etc. The writers covered, among others, include Geoffrey Chaucer, William Shakespeare, Samuel John Milton, John Dryden, Alexander Pope, Samuel Johnson, William Wordsworth and Alfred Tennyson. A special feature of the book is that studies writers and their contributions not in isolation but in the context of surroundings and various elements of civilisation of the age of the writer. Thus it suggests a vital relationship between English literature and English life. The book is written in a simple and lucid style. It will be found of great interest by the students of English Literature, researchers and the general readers.

Its History and Its Significance for the Life of the English-speaking World Harvill Secker

Informed by multicultural, multidisciplinary perspectives, The Cambridge History of Early Medieval English Literature offers a new exploration of the earliest writing in Britain and Ireland, from the end of the Roman Empire to the mid-twelfth century. Beginning with an account of writing itself, as well as of scripts and manuscript art, subsequent chapters examine the earliest texts from England, Ireland, Scotland and Wales, and the tremendous breadth of Anglo-Latin literature. Chapters on English learning and literature in the ninth century and the later formation of English poetry and prose also convey the profound cultural confidence of the period. Providing a discussion of essential texts, including Beowulf and the writings of Bede, this History captures the sheer inventiveness and vitality of early medieval literary culture through topics as diverse as the literature of English law, liturgical and devotional writing, the workings of science and the history of women's writing.

Yale University Press
The Cambridge History of English Literature, 1660-1780 offers readers discussions of the entire range of literary expression from the Restoration to the end of the eighteenth century. In essays by thirty distinguished scholars, recent historical perspectives and new critical approaches and methods are brought to bear on the classic authors and texts of the period. Forgotten or neglected authors and themes as well as new and emerging genres within the expanding marketplace for printed matter during the eighteenth century receive special attention and emphasis. The volume's guiding purpose is to examine the social and historical circumstances within which literary production and imaginative writing take place in the period and to evaluate the enduring verbal complexity and cultural insights they articulate so powerfully.

Cambridge History of English Literature 2 John Wiley & Sons
This new Cambridge History is the first major history of twentieth-century English literature to cover the full range of writing in England, Scotland, Wales and Ireland. The volume also explores the impact of writing from the former colonies on English literature of the period and analyses the ways in which conventional literary genres were shaped and inflected by the new cultural technologies of radio, cinema and television. In providing an authoritative narrative of literary and cultural production across the century, this History acknowledges the claims for innovation and modernisation that characterise the beginning of the period. At the same time, it attends analytically to the more profound patterns of continuity and development which avant-garde tendencies characteristically underplay.

Who gets to breathe clean air? Who benefits from the cheaper products produced with dirty air? The answers, as the contributors to Smoke and Mirrors tell us, are sometimes as gray as the air itself. From the coal factory chimneys in Manchester in the late nineteenth century to the smog hanging over Los Angeles in the late

twentieth century, air pollution has long been one of the greatest threats to our environment. In this important collection of original essays, the leading environmental scientists and social scientists examine the politics of air pollution policies and help us to understand the ways these policies have led to, idiosyncratic, effective, ineffective, and even disastrous choices about what we choose to put into and take out of the air. Offering historical, contemporary and cross-national perspectives, this volume provides a refreshing new approach to understanding how air pollution policies have evolved over time.
