## **Surrealism Beyond Borders** Pearson

Offering a fresh perspective on the influence of the American southwest--and particularly West Texas--on the New York art world of the 1950s, *Three Women Artists: Expanding Abstract Expressionism in the American West* aims to establish the significance of itinerant teaching and western travel as a strategic choice for women artists associated with traditional centers of artistic authority and population in the eastern United States. The book is focused on three artists: Elaine de Kooning, Jeanne Reynal, and Louise Nevelson. In their travels to and work in the High Plains, they were inspired to innovate their abstract styles and introduce new critical dialogues through their work. These women traveled west for the same reason artists often travel to new places: they found paid work, markets, patrons, and friends. This Middle American context offers us a "decentered" modernism--demanding that we look beyond our received truths about Abstract Expressionism. Authors Amy Von Lintel and Bonnie Roos demonstrate that these women's New York avant-garde, abstract styles were attractive to Panhandle-area ranchers, bankers, and aspiring art students. Perhaps as importantly, they show that these artists' aesthetics evolved in light of their regional experiences. Offering their work as a supplement and corrective to the frameworks of patriarchal, East Coast ethnocentrism, Von Lintel and Roos make the case for Texas as influential in the national art scene of the latter half of the twentieth century.

This is the first comprehensive overview of the career to date of British artist Hurvin Anderson (b.1965). Anderson is known for painting loosely rendered 'observations' of scenes and spaces loaded with personal or communal meaning. Anderson's painting style is notable for the ease with which he slips between figuration and abstraction, playing with the tropes of earlier landscape traditions and 20th-century abstraction. His paintings of barbershop interiors, country tennis clubs and tropical roadsides teem with rich brushwork and multitudes of decorative patterns or architectural features, at once obscuring and adding to underlying ruminations on identity and place. Drawing on interviews with the artist, Michael J. Prokopow offers a critical assessment of Hurvin Anderson's painting practice to date that will be enlightening for all students, dealers and collectors of contemporary painting.

For courses in the History of Art. Rewritten and reorganized, this new edition weaves together the most recent scholarship, the most current thinking in art history, and the most innovative online supplements, including MyArtsLab and the Prentice Hall Digital Art Library. Experience the new Janson and re-experience the history of art. The Portable Edition of Janson's History of Art, Eighth Edition features four lightweight, paperback books packaged together along with optional access to a powerful student website, [www.myartslab.com](http://www.myartslab.com), making the text more student friendly than ever. Janson's History of Art is still available in the original hardcover edition and in Volume I and Volume II splits. The Portable Edition is comprised of four books, each representing a major period of art history: Long established as the classic and seminal introduction to art of the Western world, the Eighth Edition of Janson's History of Art is groundbreaking. When Harry Abrams first published the History of Art in 1962, John F. Kennedy occupied the White House, and Andy Warhol was an emerging artist. Janson offered his readers a strong focus on Western art, an important consideration of technique and style, and a clear point of view. The History of Art, said Janson, was not just a stringing together of historically significant objects, but the writing of a story about their interconnections, a history of styles and of stylistic change. Janson's text focused on the visual and technical characteristics of the objects he discussed, often in extraordinarily eloquent language. Janson's History of Art helped to establish the canon of art history for many generations of scholars. The new Eighth Edition, although revised to remain current with new discoveries and scholarship, continues to follow Janson's lead in important ways: It is limited to the Western tradition, with a chapter on Islamic art and its relationship to Western art. It keeps the focus of the discussion on the object, its manufacture, and its visual character. It considers the contribution of the artist as an important part of the analysis. This edition maintains an organization along the lines established by Janson, with separate chapters on the Northern European Renaissance, the Italian

Renaissance, the High Renaissance, and Baroque art, with stylistic divisions for key periods of the modern era. Also embedded in this edition is the narrative of how art has changed over time in the cultures that Europe has claimed as its patrimony.

Surrealism Beyond Borders challenges conventional narratives of a revolutionary artistic, literary, and philosophical movement. Tracing Surrealism's influence and legacy from the 1920s to the late 1970s in places as geographically diverse as Colombia, Czechoslovakia, Egypt, Japan, Korea, Mexico, the Philippines, Romania, Syria, Thailand, and Turkey, this publication includes more than 300 works of art in a variety of media by well-known figures—including Dal í , Ernst, Kahlo, Magritte, and Mir ó —as well as numerous artists who are less widely known. Contributions from more than forty distinguished international scholars explore the network of Surrealist exchange and collaboration, artists' responses to the challenges of social and political unrest, and the experience of displacement and exile in the twentieth century. The multiple narratives addressed in this expansive book move beyond the borders of history, geography, and nationality to provocatively redraw the map of Surrealism.

A revelatory resituation of Van Gogh's familiar works in the company of the surprising variety of nineteenth-century art and literature he most revered Vincent van Gogh's (1853-1890) idiosyncratic style grew out of a deep admiration for and connection to the nineteenth-century art world. This fresh look at Van Gogh's influences explores the artist's relationship to the Barbizon School painters Jean-Fran ç ois Millet and Georges Michel--Van Gogh's self-proclaimed mentors--as well as to Realists like Jean-Fran ç ois Raffa ë lli and L é on Lhermitte. New scholarship offers insights into Van Gogh's emulation of Adolphe Monticelli, his absorption of the Hague School through Anton Mauve and Jozef Isra ë ls, and his keen interest in the work of the Impressionists. This copiously illustrated volume also discusses Van Gogh's allegiance to the colorism of Eug è ne Delacroix, as well as his alliance with the Realist literature of Charles Dickens and George Eliot. Although Van Gogh has often been portrayed as an insular and tortured savant, Through Vincent's Eyes provides a fascinating deep dive into the artist's sources of inspiration that reveals his expansive interest in the artistic culture of his time. Etel Adnan (b.1925) is a Lebanese-American poet, essayist and visual artist. This will be the first book to present a full account of Adnan's fascinating life and work, using the drama of her biography, the complexity of her identity, and the cosmopolitan nature of her experience to illuminate the many layers and dimensions of her paintings and their progress over several crucial decades. Adnan came relatively late to painting - her first images were created in the mid-1960s in response to the Californian landscape. Her vocabulary of lines, shapes and colours has changed little since then, and yet there are huge variations in mood, texture, composition and material. Similarly, there is a balance between understanding her paintings as pure abstractions, emulating the shape of thought, and seeing them for the actual landscapes of the many places Adnan has loved, embraced and responded to. Tackling the complexities of her subject with skill and insight, Kaelen Wilson-Goldie unpacks Adnan's multi-layered career to capture the full scope of her artistic endeavours and impressive achievements.

This richly illustrated book provides the visual keys for any art lover to decode and understand the iconography, tenets, sites, and rituals of the Catholic faith through accessible analysis of its visual and material culture. Focusing on a carefully curated selection of Catholic art and artifacts, this volume explores the influence of iconography and the mystic power of a range of ritual objects. Expert Suzanna Ivanic identifies hidden visual symbols in paintings and examines them close-up, building a catalog of key symbols for readers to use to interpret Catholic art and culture. Catholica is organized into three sections— " Tenet, " " Locus, " and " Spiritus " —each with three themed subdivisions. Part one introduces the centerpieces of the faith, surveying symbolism in the artistic representation of the holy family, apostles, and saints in stories from scripture. The second part examines places of worship, identifying the essential elements of the cathedral and presenting evocative images of roadside shrines. The third part explores celebrations and traditions, in addition to personal devotional tools and jewelry. For each of the nine central themes of the faith, introductory text is followed by pages that look in-depth at paintings and artifacts, identifying and explaining the symbolism and stories depicted. As the book progresses, readers build up their knowledge of the entire Catholic visual code—the symbols that define Catholic practice, the attributes of the saints, the parts of the cathedral—allowing them to interpret all Catholic imagery and objects wherever they find them and consequently to better understand the tenets, sites, and rituals of this faith.

This groundbreaking study, the definitive introduction to the work of artist Mary Cassatt, places her work in the wider context of nineteenth-century feminism and art theory and is now updated with color illustrations. This groundbreaking study redefines the status of the beloved American artist Mary Cassatt, placing her work in the wider context of nineteenth-century feminism and art theory. Mary Cassatt looks at the artist's work in light of her time as an advocate for women's intellectual life and political emancipation. Esteemed by her contemporaries for her commitment to what she and her radical colleagues in Paris termed "the new art"—now called impressionism—Cassatt brought her discerning gaze and compositional inventiveness to the study of the subtle, often psychological, social interactions of women in public and private spaces. Focusing on key moments of engagement and change over the artist's long career, art historian Griselda Pollock discusses Cassatt's artistic training across Europe, her profound study of the old masters, and places fresh emphasis on the artist's interest in Manet and other contemporary French and Spanish painters as well as her influence on American collections of French modernism. Now revised with a new preface, updates to the bibliography, and color illustrations throughout, this book offers a reevaluation of the work of this important artist as seen through the frames of class, gender, space, and difference.

*Insiders/Outsiders*, published to accompany a UK-wide arts festival of the same name in 2019, examines the extraordinarily rich and pervasive contribution of refugees from Nazi-dominated Europe to the visual culture, art education, and art-world structures of the United Kingdom. In every field, émigrés arriving from Europe in the 1930s--supported by a small number of like-minded individuals already resident in the UK--introduced a professionalism, internationalism, and bold avant-gardism to a British art world not known for these attributes. At a time when the issue of immigration is much debated, the book serves as a reminder of the importance of cultural cross-fertilization and of the deep, long-lasting, and wide-ranging contribution that refugees make to British life.

Reprint. Originally published in 1982 by Payot, Paris. Courbin emphatically argues that the primary task of archaeology is the establishment of facts--stratigraphies, time sequences, and identifications of tools, bones, potsherds--and that archaeology is a distinct discipline, separate from history and anthropology. A new theory of the evolutionary significance of art (meaning not only visual art, but music, poetic language, dance, and performance). Art is regarded from a biobehavioral or ethological viewpoint and is shown to be a biological necessity in human existence and a fundamental characteristic of the human species.
