Here is an update. Today is September 20th so my Hitachi 60V500A has been in the shop for a little over 6 weeks. The reason for the delay (as best as I can determine) is that when they received the replacement light engine and installed it, the replacement engine blew out two other circuit boards (a driver board and power board I think).

Have a light engine problem with my 50v500. The light engine replaced 5/08 under extended warranty. That warranty expired. The light engine has gone bad again. Blue blob and blue streaking. Tech people won't stand behind their repair because its over 90 days. Hitachi service says its too old. 5/04 purchase.

I have a Hitachi 50V500 - the light engine went bad (red glow growing out of the center of the picture) and I just finished replacing it. Now the picture is completely green - no blue, no red. Is the light engine bad or did I just not hook up a cable? Submitted: 9 years ago. Category: TV. Show More.
