manufacturer often run counter to the interests of the end user. What speeds up production and saves manufacturing costs results in an engine that is made to fall within a wide set of standards and specifications, often not optimized to meet the original design. In short, cheap and fast engine production results in a sloppy final product. Of course, this is not what enthusiasts want out of their engines. To maximize the	performance of any engine, it must be balanced and blueprinted to the exact tolerances that the factory should have adhered to in the first place. Four cylinder, V-8, American or import, the performance of all engines is greatly improved by balancing and blueprinting. Dedicated enthusiasts and professional racers balance and blueprint their engines because the engines will produce more horsepower and torque, more	efficiently use fuel, run cooler and last longer. In this book, expert engine builder and veteran author Mike Mavrigian explains and illustrates the most discriminating engine building techniques and perform detailed procedures, so the engine is perfectly balanced, matched, and optimized. Balancing and blueprinting is a time consuming and exacting process, but the investment in time pays off with superior performance. Through the process, you

carefully measure, adjust, machine and fit each part together with precision tolerances, optimizing the design and maximizing performance. The book covers the block, crankshaft, connecting rods, pistons, cylinder heads, intake manifolds, camshaft, measuring tools and final assembly techniques. For more than 50 years, balancing and blueprinting has been an accepted and common practice for maximizing performance.

Trump's Unfinished Business offers a prophetic template to change the face of politics & save the nation from moral rot & Civil War. In one book, you will find new applications of God's commands that can be used to break up the Tech Giants' monopoly, create a Digital Bill of Rights, reform Family Law, protect children, enshrine true equality, educate our youth, and deal sensibly with Climate Change. "We need pastors and preachers to read this book

"Trump's Unfinished Business" and apply the Law of God correctly, and preach it again to America & the world."

ALLAN PARKER President of The Justice Foundation, Lead counsel for Norma McCorvey (the "Roe" of Roe v. Wade) & Sandra Cano ("Doe" of Doe v. Business.'... [He] is walking into the swamp with this book & showing us how to drain it!" JULIE DIEZ Paralegal "The vision contained in Steve Cioccolanti's book Trump's Unfinished Business is far-sighted, wide-reaching & convicting...Cioccolanti is offering the Body of Christ the clearest path to employing the Biblical template to unite us as a nation & avoid civil war." LORILYN ROBERTS Award-winning Author "Let me say Cioccolanti's "Trump's Unfinished Business" is truly excellent. Each chapter adds

new insights...His analysis of the law is truly impressive & I particularly appreciate his proposals to improve the legal system & the broken family law court. AUGUSTO ZIMMERMANN, PhD Head of Law, Sheridan College, Perth "In this book, Steve Cioccolanti exposes what has gone wrong, and he recommends solid ideas on how to set them right.... by

going back to what is taught in the Bible." RICH MARSH Ex-Navy, Career Consultant "Cioccolanti's book is clearly visionary...For too long, the Bible has been sidelined in education due to an erroneous application of the principle of 'separation of church and state.'" DR. JOHN MCELROY Director of Southern Cross Association of Churches "Steve Cioccolanti has taken up a subject which I believe is a first... His writing is very thought-provoking, creative and visionary... I would imagine the laws in this

book will be very close to the ones Yeshua will set up for the world when He comes to reign... This much-needed book... has come at a time with the Republic of the United States is fighting for its life." SHIRA SORKO-RAM Pioneer of the Jewish Messianic movement in Israel since 1967 "Trump's Unfinished Business will serve as a template for all leaders whether they are in the US, Australia or Korea. I would like to see it made available to voters before major elections. I am really amazed by Steve

Cioccolanti's insights into the American cultural war. His coverage of many subjects is very deep. I find the techniques that American leftists use to distort facts and the truth are also used here in South Korea... This book is a great opportunity to problem solvers to learn how God's principles work in human society." ASSOC. PROF. been the haze, the

the development of

argues that the haze

the economic crisis of

The emerging ASEAN haze regime is a unique case study of a regional environmental institution in multi-levelled global environmental governance. Based on in-depth original research, this case study is integrated into international relations, political science, and comparative political	analysis literatures and contributes to a better understanding of processes within the regional organisation. We depend on it in our daily lives, and yet many of the tools of mathematics, such as geometry, algebra and	trigonometry, are descended from ancient or non-Western civilizations. Introducing Mathematics traces the story of mathematics from the ancient world to modern times, describing the great discoveries and providing an accessible introduction to such topics as number-systems, geometry and algebra, the calculus, the theory of the infinite, statistical reasoning and chaos theory.
