*The Road to World War II* U of Nebraska Press  
Please note that the content of this book primarily consists of articles available from Wikipedia or other free sources online.

Commentary (books not included). Pages: 24.  
Chapters: Books about Adolf Hitler, Books by Adolf Hitler, Mein Kampf, Hitler's War, List of books by or about Adolf Hitler, From Darwin to Hitler, The Jew of Linz, Zweites Buch, The Mind of Adolf Hitler, Hitler: Speeches and Proclamations, Unmasked: two confidential interviews with Hitler in 1931, A Berlin Republic, The Hidden Hitler, The Psychopathic God: Adolf Hitler, Hitler's Letters and Notes, The Meaning of Hitler, Explaining Hitler: The Search for the Origins of His Evil, Inside Hitler's Bunker, Plotting Hitler's Death: The German Resistance to Hitler, 1933-1945, Hitler and the Occult. Excerpt: Mein Kampf (English: My Struggle or My Battle) is a book written by Nazi leader Adolf Hitler. It combines elements

of autobiography with an exposition of Hitler's political ideology. Volume 1 of Mein Kampf was published in 1925 and Volume 2 in 1926. The book was edited by the former Hieronymite friar Bernhard Stempfle who later perished during the Night of the Long Knives. Hitler began the dictation of the book while imprisoned for what he considered to be "political crimes" after his failed Putsch in Munich in November 1923. Though Hitler received many visitors earlier on, he soon devoted himself entirely to the book. As he continued, Hitler realized that it would have to be a two-volume work, with the first volume scheduled for release in early 1925. The prison governor of Landsberg noted at the time that "he hopes the book will run into many editions, thus enabling him to fulfil his financial obligations and to defray the expenses incurred at the time of his trial." Hitler originally wanted to call his forthcoming book *Viereinhalb Jahre (des Kampfes) gegen Lüge, Dummheit und*

Zweites Buch is an unedited transcript of Adolf Hitler's thoughts on foreign policy written in 1928, it was written after Mein Kampf and was not published in his lifetime. Now, these historical documents give an insight into the mind (and intentions) of one of the most famous political figures of the 20th Century. A fascinating read and great source of material for students and history buffs alike.

Zweites Buch (Secret Book) EverAfter Romance

In this work, Richard Weikart explains the revolutionary impact Darwinism had on

ethics and morality. He demonstrates that many leading Darwinian biologists and social thinkers in Germany believed that Darwinism overturned traditional Judeo-Christian and Enlightenment ethics, especially the view that human life is sacred. Many of these thinkers supported moral relativism, yet simultaneously exalted evolutionary 'fitness' (especially intelligence and health) to the highest arbiter of morality. Darwinism played a key role in the rise not only of eugenics, but also euthanasia, infanticide, abortion and racial extermination. This was especially important in Germany, since Hitler built his view of ethics on Darwinian principles, not on nihilism.

“Here’s Adolf Hitler in a series of bizarre photographs which he kept hidden from the world . . . They have now been published in this memoir.”—Daily Express Heinrich Hoffman was a key part in the making of the Hitler legend, the photographer who carefully crafted the image of the Fuhrer as a godlike figure. Hoffmann published his first book of photographs in 1919, following his work as an official photographer for the German army. In 1920 he joined the Nazi Party, and his association with Hitler began. He became Hitler’s

official photographer and traveled with him extensively. He took over two million photographs of Hitler, and they were distributed widely, including on postage stamps, an enterprise that proved very profitable for both men. Hoffmann published several books on Hitler in the 1930s, including *The Hitler Nobody Knows* (1933). Hoffmann and Hitler were very close, and he acted not only as a personal confidante—his memoirs include rare details of the Fuhrer—but also as a matchmaker; it is Hoffmann who introduced Eva Braun, his studio assistant, to Hitler. At the end of the war, Hoffmann was arrested by the US military, who also seized his photographic archive, and was sentenced to imprisonment for Nazi profiteering. This edition of a classic book includes photographs by Hoffmann and a new introduction by Roger Moorhouse. “An extraordinary new book of photographs of Adolf Hitler includes one that so embarrassed him he banned it from being published. It shows the Führer in his lederhosen, striking an

---

absurdly camp pose as he leans against a tree.”—The Times

**Zweites Buch Written in 1920s As Sequel to Mein Kampf** Blurb

Adolf Hitler (1889-1945) was the founder and leader of the Nazi Party and the most influential voice in the organization, implementation and execution of the Holocaust, the systematic extermination and ethnic cleansing of six million European Jews and millions of other non-aryans. Hitler was the Head of State, Supreme Commander of the Armed Forces and guiding spirit, or fuhrer, of Germany's Third Reich from 1933 to 1945.

The book you are about to read is one of the most extraordinary historical documents of the 20th

century. Where did Hitler get the funds and the backing to achieve power in 1933 Germany? Did these funds come only from prominent German bankers and industrialists or did funds also come from American bankers and industrialists?

*Hitler Was My Friend* Routledge

An award-winning historian plumbs the depths of Hitler and Stalin's vicious regimes, and shows the extent to which they brutalized the world around them. Two 20th century tyrants stand apart from all the rest in terms of their ruthlessness and the degree to which they changed the world around them. Briefly allies during World War II, Adolph Hitler and Josef Stalin then tried to exterminate each other in sweeping campaigns unlike anything the modern world had ever seen, affecting soldiers and civilians alike. Millions of miles of Eastern Europe were ruined in their fight to the death, millions of lives sacrificed. Laurence Rees has

---

met more people who had direct experience of working for Hitler and Stalin than any other historian. Using their evidence he has pieced together a compelling comparative portrait of evil, in which idealism is polluted by bloody pragmatism, and human suffering is used casually as a political tool. It's a jaw-dropping description of two regimes stripped of moral anchors and doomed to destroy each other, and those caught up in the vicious magnetism of their leadership.

*Zweites Buch (Hitler's Secret Book)* Enigma Books

From the Back Cover: From the moment of its publication in 1961, A.J.P. Taylor's seminal work caused a storm of praise and controversy, and it has since been recognized as a classic: the first book ever to examine exclusively and in depth the causes of the Second World War and to apportion the responsibility among Allies and Germans alike.

With crisp, clear prose and brilliant analysis, Taylor established that the war, "far from being premeditated, was a mistake, the result on both sides of diplomatic blunders." He argued that Hitler was more an opportunist than an ideologue who owed his successes to Great Britain's and France's tacking between resistance and appeasement, and to an American policy akin to "the significant episode of the dog in the night, to which Sherlock Holmes once drew attention. When Watson objected: 'But the dog did nothing in the night,' Holmes answered: 'That was the significant

---

episode.' "The Times Literary Supplement called The Origins of the Second World War "simple, devastating, superlatively readable, and deeply disturbing," and it remains so now-a groundbreaking book of enduring importance.

### Adolf Hitler's Sequel to Mein Kampf Pen and Sword

ften called Hitler's "Secret Book," this is the only full-length, completely unedited and correctly translated text of Hitler's second book, written to explain National Socialist foreign policy. Dictated in 1928 to Max Annan, head of the NSDAP's publishing house, the unedited and draft manuscript, provisionally titled Deutsche Aussenpolitik but later more commonly known as Hitler's "Second Book," was never published in Hitler's lifetime. Originally written as a propaganda recruitment tool designed to generate support for the NSDAP at the time of what he saw as an

artificial crisis in German nationalist circles over the Italian occupation of South Tyrol, Hitler's second book is of necessity dated with regard to some time-specific events. Nonetheless, it contains much more than just a discussion of the South Tyrol issue. Within these pages, the reader will find the philosophical principles which underwrote National Socialist domestic and foreign policy, and a large number of astonishingly accurate and prescient foresights into many pressing international issues which still occupy the world stage in the twenty-first century. Read Hitler's predictions on: - The economic, social and racial problems posed by European unification; - American immigration policy and its racial meaning; - The need to temper foreign policy with realism; - The threat posed by modern air warfare; - The possibility that the Jewish Communists would lose power

---

in the Soviet Union; - The racial values which underpinned the British Empire; - The negative influence of birth control upon European population growth; - The eugenic danger of war in general; - The threat which outsourcing to the Far East poses to Western economies; and - The role of International Jewry in influencing world affairs and inciting conflict; amongst many other topics.

#### Hitlers zweites Buch Springer

In this book, Weikart helps unlock the mystery of Hitler's evil by vividly demonstrating the surprising conclusion that Hitler's immorality flowed from a coherent ethic. Hitler was inspired by evolutionary ethics to pursue the utopian project of biologically improving the human race.

#### Because of Him Ostara Publications

Hitler and Nazi Germany details the major themes of Hitler's rise to power, beginning with the formation of the Nazi movement and the forerunners to the Nazi Party. The book goes on to document the establishment of dictatorship, foreign policy, the Nazi economy and the use of propaganda. With indispensable analysis of the nature of National Socialism, this concise guide addresses the issues essential to the understanding of this topic, including the issue of race and the Holocaust.

KamphZweites Buch is an unedited transcript of evolutionary theory during the late Adolf Hitler's thoughts on foreign policy written in 1928, it was written after Mein Kampf and was not published in his lifetime. Now, these historical documents give an insight into the mind (and intentions) of one of the most famous political figures of the 20th Century. A fascinating read and great source of material for students and history buffs alike.

Hitler's Second BookThe Unpublished Sequel to Mein Kampf  
This is probably the best and most complete explanation of Hitler's rapid rise to power. The original of this book was published in 1941. It is 1008 pages long. This is too long to be published in soft cover, so it has been divided into two volumes.

*The Last Days of Hitler* PublicAffairs  
In tracing the history of Darwin's accomplishment and the trajectory of

most scholars agree that Darwin introduced blind mechanism into biology, thus banishing moral values from the understanding of nature. According to the standard interpretation, the principle of survival of the fittest has rendered human behavior, including moral behavior, ultimately selfish. Few doubt that Darwinian theory, especially as construed by the master's German disciple, Ernst Haeckel, inspired Hitler and led to Nazi atrocities. In this collection of essays, Robert J. Richards argues that this orthodox view is wrongheaded. A close historical examination reveals that Darwin, in more traditional fashion, constructed nature with a

---

moral spine and provided it with a goal: man – 14 October 1964) was a translator, as a moral creature. The book takes up many other topics—including the character of Darwin’s chief principles of natural selection and divergence, his dispute with Alfred Russel Wallace over man’s big brain, the role of language in human development, his relationship to Herbert Spencer, how much his views had in common with Haeckel’s, and the general problem of progress in evolution. Moreover, Richards takes a forceful stand on the timely issue of whether Darwin is to blame for Hitler’s atrocities. Was Hitler a Darwinian? is intellectual history at its boldest.

**Origin Of The Second World War** Univ of California Press  
Edgar Trevelyan Stratford Dugdale (c. 1872

completing the first English translation of *Mein Kampf*. The first English translation of *Mein Kampf* was an abridgment by Edgar Dugdale, who started work on it in 1931, at the prompting of his wife Blanche. When he learned that the London publishing firm of Hurst & Blackett had secured the rights to publish an abridgment in the United Kingdom, he offered it gratis in April 1933. However, a local Nazi party representative insisted that the translation be further abridged before publication, so it was held back from the public until 13 October 1933, although excerpts were allowed to run in *The Times* in late July. In America, Houghton Mifflin secured the rights to the Dugdale abridgment on 29 July 1933. The

---

only differences between the American and British versions are that the title was translated as *My Struggle* in the UK and *My Battle in America*; and that Dugdale is credited as translator in the U.S. edition, while the British version withheld his name.

*Disputed Questions in the History of Evolutionary Theory* University of Chicago Press

Adolf Hitler has left a lasting mark on the twentieth-century, as the dictator of Germany and instigator of a genocidal war, culminating in the ruin of much of Europe and the globe. This innovative best-seller explores the nature and mechanics of Hitler's power, and how he used it.

The Unpublished Sequel to Mein Kampf Simon and Schuster

Hitler and Nazi Germany provides a concise

introduction to Hitler's rise to power and Nazi domestic and foreign policies through to the end of the Second World War. Combining narrative, the views of different historians, interpretation and a selection of sources, this book provides a concise introduction and study aid for students. This second edition has been extensively revised and expanded and includes new chapters on the Nazi regime, the SS and Gestapo, and the Second World War. Expanded background narratives provide a solid understanding of the period and the analyses and sources have been updated throughout to help students engage with recent historiography and form their own interpretation of events.
