How had the pair of elderly Jewish lesbians survived the Nazis?" Janet Malcolm asks at the beginning of this extraordinary work of literary biography and investigative journalism. The pair, of course, is Gertrude Stein, the modernist master "whose charm was as conspicuous as her fatness" and "thin, plain, tense, sour" Alice B. Toklas, the "worker bee" who ministered to Stein's needs throughout their forty-year expatriate "marriage." As Malcolm pursues the truth of the couple's charmed life in a village in Vichy France, her subject becomes the larger question of biographical truth. "The instability of human knowledge is one of our few certainties," she writes. The portrait of the legendary couple that emerges from this work is unexpectedly charged. The two world wars Stein and Toklas lived through together are paralleled by the private war that went on between them. This war, as Malcolm learned, sometimes flared into bitter combat. *Two Lives* is also a work of literary criticism. "Even the most hermetic of [Stein's] writings are works of submerged autobiography," Malcolm writes. "The key of 'I' will not unlock the door to

their meaning-you need a crowbar for that-but will sometimes admit you to a kind of anteroom of suggestion." Whether unpacking the accessible *Autobiography of Alice B. Toklas*, in which Stein "solves the koan of autobiography," or wrestling with *The Making of Americans*, a masterwork of "magisterial disorder," Malcolm is stunningly perceptive. Praise for the author: "[Janet Malcolm] is among the most intellectually provocative of authors . . . able to turn epiphanies of perception into explosions of insight."-David Lehman, *Boston Globe* "Not since Virginia Woolf has anyone thought so trenchantly about the strange art of biography."-Christopher Benfey *The Dark Side of Isaac Newton* University of Michigan Press

I never thought I'd be singing happy birthday to myself in a dungeon. And yet when a sinfully sexy demon crashes happy hour, that's exactly what happens. He's known as the Lord of Chaos, he's mistaken me for my succubus doppelgänger. Happy birthday to me. When he tastes my blood, he finally understands I'm mortal. And I realize we have something in common: we both crave revenge. So we make a deal: I can stay in the forbidden city to hunt for my mom's killer. In return, I'll help him get the vengeance he craves. I just have to pose as a sexy succubus. One problem--he's my number one suspect. And that's increasingly hard to remember as he teaches me my role: seduction. With each heated touch I drift further into peril. And if I fall under his seductive spell, death

awaits me. "I flew through this book... Hot demon lord-check. Action-check. Romance-check. And there's spice! If you love my books, you definitely want to read this one." -Laura Thalassa

Ronney is an introverted young woman with a disgraceful appearance. She lives humbly in one of the poorest neighborhoods of Sheryl Valley, a town corrupted by the mafia in Southern California. With no diploma, she works hard in her parents' restaurant and provides voice-overs for children's animated movies during the weekend. In accordance with a long-standing family tradition, Ronney's twenty-fifth birthday celebration comes with a dare from her cousins: she must knock on the front door of the infamous Khan household. The Khans' reputation proceeds them, rumored to be in association with the mafia. But when Ronney knocks on the door, before she has the chance to run, the Khan family matriarch, Camilia, takes an interest in Ronney. Ronney's lack of conventional beauty and disinterest in fashion draws Camilia in, leading her to offer Ronney the position of personal assistant to her eldest son, Yeraz, with a substantial salary at stake. It's an offer Ronney cannot refuse. To keep her job, Ronney's task is simple: do not fall in love with Yeraz. "Easy," she thinks. But what if destiny decides otherwise? This book revolutionizes the prevailing understanding and teaching of math. This book is a must for all upper-level Christian school curricula and for college students and adults interested in math or related fields of science and religion. It will serve as a solid refutation for the claim, often made in court, that mathematics is one subject which cannot be taught from a distinctively biblical perspective. - Back cover.

A crowd of siblings gathers in Dublin for the wake of their wayward brother in this "stunning" novel by the award-winning author of *Actress* (The Washington Post). The surviving children of the Hegarty clan are gathering for the wake of their wayward, alcoholic brother, Liam, drowned in the sea after filling his pockets with stones. He is the third of the twelve Hegarty siblings to die. His sister, Veronica, collects the body and keeps the dead man company, guarding the secret she shares with him-something that happened in their grandmother's house in the winter of 1968. As prize-winning author Anne Enright traces the line of betrayal and

redemption through three generations, her distinctive intelligence twists the world a fraction and gives it back to us in a new and unforgettable light. The Gathering is an "wonderfully elegant and unsparing" epic of an Irish family (Los Angeles Times)—a novel about love and disappointment, how memories warp and secrets fester, and how fate is written in the body, not in the stars. "Entrancing...a haunting look at a broken family stifled by generations of hurt and disappointment, struggling to make peace with the irreparable."—Entertainment Weekly "A melancholic love and rage bubbles just beneath the surface of this Dublin clan, and Enright explores it unflinchingly."—Publishers Weekly "Her sympathy for her characters is as tender and subtle as Alice McDermott's; her vision of Ireland is as brave and original as Edna O'Brien's. The Gathering is her best book."—Colm Toibin "Hypnotic."—Booklist (starred review)

Determined to be the best Beta he can, Rev has made sure to keep his distance from Martha, the female he knows to be his mate. He's not sure he even knows how to be a decent mate to her. All that changes when the Alpha and the Coeur conspire to make sure that Martha and Rev both face what they've known to be true for so long. One look is all it takes, but there is so much more to being a mated couple than facing the claim. Martha is not ready to give up anything in her life, not even to make room for him. Rev is ready, but only as long as his

female bends her life to fit into his. Pushing and pulling, each one will have to decide which is more important—the life they've built, or the one they could have together.

Isaac Newton was accorded a semi-divine status in the 18th and 19th centuries, whereby his image linked together religion and science. The real human being behind the demi-god image has tended to be lost. He was a person who took credit from others, and crushed the reputations of those to whom he owed most. This most brilliant of mathematicians could alas be devious, deceptive and duplicitous. This work doesn't go looking at unpublished alchemical musings as is nowadays fashionable, rather it sticks to the historical record. At the time when the new science was born, we scrutinize the ways in which he failed to discover the law of gravity or invent calculus. What exactly did Leibniz mean by describing him as 'a mind neither fair nor honest'? Why did Robert Hooke describe him as 'the veriest knave in all the house' and why was the astronomer Flamsteed calling him SIN (Sir Isaac Newton)? We are here concerned to give him credit for what he did discover, which may not be quite what you had been told. This book redefines the genius of Isaac Newton, but without the heavily mythologised

---

baggage of a bygone era. He believed in one God, one law and one bank.

"Having been born a freeman, and for more than thirty years enjoyed the blessings of liberty in a free State—and having at the end of that time been kidnapped and sold into Slavery, where I remained, until happily rescued in the month of January, 1853, after a bondage of twelve years—it has been suggested that an account of my life and fortunes would not be uninteresting to the public."

\*\*Kirkus Best Books of the Year (2013)\*\* \*\*Time Magazine 10 Top Nonfiction Books of 2013\*\* \*\*The New Republic Best Books of 2013\*\* In this heart-lifting chronicle, Richard Holmes, author of the best-selling *The Age of Wonder*, follows the pioneer generation of balloon aeronauts, the daring and enigmatic men and women who risked their lives to take to the air (or fall into the sky). Why they did it, what their contemporaries thought of them, and how their flights revealed the secrets of our planet is a compelling adventure that only Holmes could tell. His accounts of the early Anglo-French balloon rivalries, the crazy firework flights of the beautiful Sophie Blanchard, the long-distance voyages of the American entrepreneur John Wise and French

---

photographer Felix Nadar are dramatic and exhilarating. Holmes documents as well the balloons used to observe the horrors of modern battle during the Civil War (including a flight taken by George Armstrong Custer); the legendary tale of at least sixty-seven manned balloons that escaped from Paris (the first successful civilian airlift in history) during the Prussian siege of 1870-71; the high-altitude exploits of James Glaisher (who rose seven miles above the earth without oxygen, helping to establish the new science of meteorology); and how Mary Shelley, Edgar Allan Poe, and Jules Verne felt the imaginative impact of flight and allowed it to soar in their work. A seamless fusion of history, art, science, biography, and the metaphysics of flights, *Falling Upwards* explores the interplay between technology and imagination. And through the strange allure of these great balloonists, it offers a masterly portrait of human endeavor, recklessness, and vision. *Black Skin, White Masks* is a classic, devastating account of the dehumanising effects of colonisation experienced by black subjects living in a white world. First published in English in 1967, this book provides an unsurpassed study of the psychology of racism using scientific analysis and poetic grace. Franz Fanon identifies a devastating pathology at the heart of Western culture, a denial of difference, that persists to this day. A major influence on civil rights, anti-colonial, and black consciousness movements around the world, his writings speak to all who continue the struggle for political and cultural liberation. With an introduction by Paul Gilroy, author of *There Ain't No Black in the Union Jack*.

German critic Walter Benjamin wrote some immensely influential words on the work of art in the age of mechanical reproduction. Luxury fashion houses would say something shorter and sharper and much more legally binding on the rip-off merchants who fake their products. Marcus Boon, a Canadian English professor with an accessible turn of phrase, takes us on an erudite voyage through the theme in a serious but engaging encounter with the ideas of thinkers as varied as Plato, Hegel, Orson Welles,

Benjamin, Heidegger, Louis Vuitton, Takashi Murakami and many more, on topics as philosophically taxing and pop-culture-light as mimesis, Christianity, capitalism, authenticity, Uma Thurman's handbag and Disneyland.
