Chrysler larger plan of George W. Romney, AMC's new head decided against further relationships with Packard. Romney ordered his engineering department to develop an in-house V8 as soon as possible. The engineering department hired David Potter, a former Kaiser Motors engineer, to come in and help develop the engine. Potter had previously worked on a V8...

Spitfire V8 merging Packard, Nash, and Hudson, and Studebaker, AMC President George W. Mason had a verbal agreement with Packard that the two companies would supply parts for each other when practical. AMC started buying Packard V8s in 1954 for the big 1955 Nash Ambassador and Hudson Hornet. These were supplied with Packard "Ultramatic" automatic transmissions - exclusively. AMC sent some parts, but were rejected as too expensive.

Chrysler bellhousing patterns. Excerpt: American Motors Corporation (AMC) produced a series of widely-used V8 engines from the mid-1950s before being absorbed into Chrysler in 1987. Chrysler kept the AMC V8 in production until 1991 for the Jeep Grand Wagoneer. This engine family is now referred to as the "GEN-1" AMC V8, but in its time it was known as the Rambler V8. As part of a
