In the early-1960s Opel displayed a dramatically styled GT concept car at the Frankfurt Motor Show. Public reaction was positive and so it was put into production as the Opel GT in 1968. The initial model was based on the B-Series Opel Kadett and withdrawn after two years. The larger engined 1900GT was much better, but all cars left the factory with left-hand drive. However, it was never a big seller and was withdrawn from the market altogether in 1973. This is a book of contemporary road and comparison tests, new model introductions, development, buying second hand, technical and specification data, long-term tests. Covers the GT and GT/J.

A legend in the car industry reveals the philosophy that's starting to turn General Motors around. In 2001, General Motors hired Bob Lutz out of retirement with a mandate to save the company by making great cars again. He launched a war against penny pinching, office politics, turf wars, and risk avoidance. After declaring bankruptcy during the recession of 2008, GM is back on track thanks to its embrace of Lutz's philosophy. When Lutz got into the auto business in the early sixties, CEOs knew that if you captured the public's imagination with great cars, the money would follow. The car guys held sway, and GM dominated with bold, creative leadership and iconic brands like Cadillac, Buick, Pontiac, Oldsmobile, GMC, and Chevrolet. But then GM's leadership began to put their faith in analysis, determind to eliminate the "waste" and "personality worship" of the bygone creative leaders. Management got too smart for its own good. With the bean counters firmly in charge, carmakers (and much of American industry) lost their single-minded focus on product excellence. Decline followed. Lutz's commonsense lessons (with a generous helping of fascinating anecdotes) will inspire readers at any company facing the bean counter analysis-paralysis menace.

No automobile is more recognizable than the Volkswagen Beetle. Introduced as an affordable motor vehicle for postwar Germany, the little Beetle grew to iconic status in both the automotive world and the world of pop culture. This year-by-year, full-color tribute to the "People's Car" begins with the first models in 1945 and goes on to cover the Beetle's 33-year production run in Germany, it's continued manufacture in Mexico starting in 1978, and the introduction in Spring 1998 of the New Beetle -- a car that reasserted the model's popularity, posted remarkable sales and, like its forebear, transcended the automotive world to become a pop culture sensation.

Auto Repair For Dummies, 2nd Edition (9781119543619) was previously published as Auto Repair For Dummies, 2nd Edition (9780764599026). While this version features a new Dummies cover and design, the content is the same as the prior release and should not be considered a new or updated product. The top-selling auto repair guide--400,000 copies sold--now extensively reorganized and updated Forty-eight percent of U.S. households perform at least some automobile maintenance on their own, with women now accounting for one third of this \$34 billion automotive do-it-yourself market. For new or would-be do-it-yourself mechanics, this illustrated how-to guide has long been a must and now it's even better. A complete reorganization now puts relevant repair and maintenance information directly after each automotive system overview, making it much easier to find hands-on fix-it instructions. Author Deanna Sclar has updated systems and repair information throughout, eliminating discussions of carburetors and adding coverage of hybrid and alternative fuel vehicles. She's also revised schedules for tune-ups and oil changes, included driving tips that can save on maintenance and repair costs, and added new advice on troubleshooting problems and determining when to call in a professional mechanic. For anyone who wants to save money on car repairs and maintenance, this book is the place to start. Deanna Sclar (Long Beach, CA), an acclaimed auto repair expert and consumer advocate, has contributed to the Los Angeles Times and has been interviewed on the Today show, NBC Nightly News, and other television programs.
