Prufrock, the Hollow Men and Other Poems Cambridge Scholars Publishing

A carefully revised and corrected second edition of a classic book on our century's best-known poet.

'An important and original study, which admirably generates fresh thought about Eliot.' *Journal of American Studies*

A Tale Routledge

The stirring debut from the winner of the Cave Canem Poetry Prize, selected and introduced by Chris Abani *Heed the Hollow* introduces the work of Malcolm Tariq, whose poems explore the concept of "the bottom" across blackness, sexuality, and the American South. These lyrics of queer desire meet the voices of enslaved ancestors to reckon with a lineage of trauma that manifests as silence, pain, and haunting memories, but also as want and love. In bops, lyrics, and

erasures, *Heed the Hollow* tells of a heritage anchored to the landscape of the coastal South, to seawalls shaped by forced labor, and to the people "marked into the bottom / of history where then now / we find no shadow of life." From that shadow, the voices in these poems make their own brightness, reclaiming their histories from a language that evolved to exclude them.

Police surgeon Harry Kent is determined to help those the world would rather brush aside, in a smart and electrifying new crime series that evokes the often-hidden medical world of the London Metropolitan Police. Dr. Harry Kent likes to keep himself busy—juggling hospital duties with his work as a police surgeon for the London Metropolitan Police—anything to ward off the memories of his time as an army medic. Usually the police work means minor injuries and mental health assessments. But teenager Solomon Idris's case is different. Idris has

taken eight people hostage in a fast-food restaurant, and is demanding to see a lawyer and a BBC reporter. Harry is sent in to treat the clearly-ill teenager . . . before the siege goes horribly wrong. When Solomon's life is put in danger again at a critical care ward, it becomes clear he knows something people will kill to protect. Determined to uncover the secret that drove the boy to such desperate action, Harry soon realizes that someone in the medical world, someone he may even know, has broken the doctors' commandment to "do no harm" many times over . . .

"There are no poetic 'subjects' in this book, no conventional nightingales and daffodils, and there is no acceptance, either, of the traditional rules of metre and rhyme. As one discerning critic has said: 'We have here, in short, poetry that expresses freely a modern sensibility, the ways of feeling and the modes of experience of one fully alive in his own age'. "The main poem in this collection is 'The Waste Land' (1922) to which Mr. Eliot has himself supplied some revealing footnotes which help the reader to cope with the associations

and allusions in which the poem is so rich. His theme here, as in most of his other poems, is disillusion with our contemporary civilization, which he contrasts in several of its aspects with the beliefs and practices of other and earlier races. It is a difficult poem to follow and even Mr. Eliot's own signposts are sometimes cryptic.

A History of Modern Poetry

HarperCollins

Diverse modernist poems, far from advertising a capacity to prefigure utopia or save society, understand themselves to be complicit in the unhappiness and injustice of an

imperfect or fallen world. Combining analysis of technical devices and aesthetic values with broader accounts of contemporary critical debates, social contexts, and political history, this book offers a formalist argument about how these poems understand themselves and their situation, and a historicist argument about the meanings of their forms. The poetry of the canonical modernists T. S. Eliot, Mina Loy, and Wallace Stevens is placed alongside the poetry of Ford Madox Ford, better known for his novels and his criticism, and the poetry of Joseph Macleod, whose work has been largely forgotten. Focusing on the years from 1914 to 1930, the book offers a new account of a crucial moment in the history of British and American modernism.

The Waste Land (1922) is a poem by T.S. Eliot. After suffering a nervous breakdown, Eliot took a leave of absence from his job at a London bank to stay with his wife Vivienne at the coastal town of Margate. He worked on the poem during these months before showing an early draft to Ezra Pound, who helped edit the poem toward publication. The Waste Land, dedicated to Pound, includes hundreds of quotations of and allusions to such figures as Homer, Sophocles, Virgil, Ovid, Dante, Saint Augustine, Chaucer, Baudelaire, and Whitman, to name only a few. Divided into five sections—"The Burial of the Dead," "A Game of Chess," "The Fire Sermon," "Death by Water," and "What the Thunder Said"—The Waste Land is a complex poem that translates Eliot's fragile emotional state and increasing dissatisfaction with married life into an apocalyptic vision of postwar England. The poem begins with a meditation on despair before moving to a polyphonic narration by figures on the theme. The third section focuses on death and denial through the lens of eastern and western religions, using Saint Augustine as a prominent figure. Eliot then moves from a brief lyric poem to an apocalyptic conclusion, declaring: "He who was living is now dead / We who were living are now dying / With a little patience." Both personal and universal, global in scope and intensely insular, The Waste Land changed the course of literary history, inspiring countless poets and establishing Eliot's reputation as one of the foremost artists of his generation. With a beautifully designed cover and professionally typeset manuscript, this edition of T.S. Eliot's The Waste Land is a classic of English literature reimagined for modern readers.
