Sanger Rainsford is a big-game hunter, who
finds himself washed up on an island owned by
the eccentric General Zaroff. Zaroff, a big-
game hunter himself, has heard of
Rainsford ' s abilities with a gun and organises
a hunt. However, they ' re not after animals
– they ' re after people. When he protests,
Rainsford the hunter becomes Rainsford the
hunted. Sharing similarities with "The Hunger
Games", starring Jennifer Lawrence, this is the
story that created the template for pitting man
against man. Born in New York, Richard
Connell (1893 – 1949) went on to become an
acclaimed author, screenwriter, and journalist.
He is best remembered for the gripping novel
"The Most Dangerous Game" and for
receiving an Oscar nomination for the
screenplay "Meet John Doe".

Part II of volume I deals with the history
of the Near East from about 3000 to

1750 B.C. In Egypt, a long period of political unification and stability enabled the kings of the Old Kingdom to develop and exploit natural resources, to mobilize both the manpower and the technical skill to build the pyramids, and to encourage sculptors in the production of works of superlative quality. After a period of anarchy and civil war at the end of the Sixth Dynasty the local rulers of Thebes established the so-called Middle Kingdom, restoring an age of political calm in which the arts could again flourish. In Western Asia, Babylonia was the main centre and source of civilisation, and her moral, though not always her military, hegemony was recognized and accepted by the surrounding countries of Anatolia, Syria, Palestine, Assyria and Elam. The history of the region is traced from the late Uruk and Jamdat Nasr periods up to the rise of Hammurabi, the most significant developments being the invention of writing in the Uruk period, the emergence of the Semites as a political factor under Sargon, and the success of the centralized bureaucracy under the Third Dynasty of Ur.

This document is a response to teachers' requests for practical assistance in implementing California's history-social science framework. The document offers stimulating ideas to enrich the teaching of history and social science, enliven instruction for every student, focus on essential topics, and help make learning more memorable. Experiences and contributions of ethnic groups and women in history are integrated in this course model. The framework is divided into 11 units: (1) Connecting with Past Learnings: Uncovering the Remote Past; (2) Connecting with Past Learnings: the Fall of Rome; (3) Growth of Islam; (4) African States in the Middle Ages and Early Modern Times; (5) Civilizations of the Americas; (6) China; (7) Japan; (8) Medieval Societies: Europe and Japan; (9) Europe During the Renaissance, the Reformation, and the Scientific Revolution; (10) Early Modern

Europe: The Age of Exploration to the Enlightenment; and (11) Linking Past to Present. Six of the 11 units delineated in the framework's 7th grade course description are developed in these course models. All units follow the same format. Each begins with a rationale and overview. Ways are suggested for teachers to coordinate the model with the state-adopted textbook for 7th grade. A presentation of activities to introduce and continue the sample topic are suggested to encourage students to apply what they have studied through projects. Each unit ends with an extensive annotated list of sample resources. (DK)
