The content of Algebra 1 is
organized around families of
functions, with special
emphasis on linear and
quadratic functions. As you
study each family of
functions, you will learn to
represent them in multiple
ways -- as verbal descriptions,
equations, tables, and graphs.
You will also learn to model
real-world situations using
functions in order to solve
problems arising from those

situations. In addition to its
algebra content, Algebra 1
includes lessons on
probability and data analysis
as well as numerous examples
and exercises involving
geometry. - p. [SC2].
