The Americans Holt McDougal  
"The text is suitable for a typical introductory algebra course, and was developed to be used flexibly. While the breadth of topics may go beyond what an instructor would cover, the modular approach and the richness of content ensures that the book meets the needs of a variety of programs."--Page 1.

*The Americans:*

*Reconstruction Through the 20th Century* Macmillan  
Higher Education

This is part two of two for College Physics. This book covers chapters 18-34.

Please note: The text and images in this textbook are grayscale and the format size has been reduced from 8.5" x 11" to 7.44" x 9.69." This introductory, algebra-based, two-semester college physics book is grounded with real-world examples, illustrations, and explanations to help students grasp key, fundamental physics concepts. College Physics includes learning objectives, concept questions, links to

labs and simulations, and ample practice opportunities to solve traditional physics application problems.

McDougal

The Chronicle of Discovery and Conquest of Guinea in two volumes is a historical source which is considered the main authority for the early Portuguese voyages of discovery down the African coast and in the ocean, more especially for those undertaken under the auspices of Prince Henry the Navigator. The work is written by Portuguese chronicler Zurara and is serves as the principal historical source for modern conception of Prince Henry the Navigator and the Henrican age of Portuguese discoveries (although Zurara only covers part of it, the period 1434-1448). Zurara's chronicle is openly hagiographic of the prince and reliant on his recollections. It contains some account of the life work

of that prince, and has a biographical as a geographical interest.

the United States in a streamlined print Student Edition built around Essential Questions developed using the Understanding by Design® instructional approach. Includes Print Student Edition American Holocaust Holt McDougal World History: P Black & white print. American Government 3e aligns with the topics and objectives of many government courses. Faculty involved in the project have endeavored to make government workings, issues, debates, and impacts meaningful and memorable to students while maintaining the conceptual coverage and rigor inherent in the subject. With this objective in mind, the content of this textbook has been developed and arranged to provide a logical

progression from the fundamental principles of institutional design at the founding, to avenues of political participation, to thorough coverage of the political structures that constitute American government. The book builds upon what students have already learned and emphasizes connections between topics as well as between theory and applications. The goal of each section is to enable students not just to recognize concepts, but to work with them in ways that will be useful in later courses, future careers, and as engaged citizens. In order to help students understand the ways that government, society, and individuals interconnect, the revision includes more examples and details regarding the lived experiences of diverse groups and communities within the United States. The authors and reviewers

---

sought to strike a balance between confronting the negative and harmful elements of American government, history, and current events, while demonstrating progress in overcoming them. In doing so, the approach seeks to provide instructors with ample opportunities to open discussions, extend and update concepts, and drive deeper engagement.

Call to Freedom Harcourt Brace College Publishers

The Landlady is a brilliant gem of a short story from Roald Dahl, the master of the sting in the tail. In The Landlady, Roald Dahl, one of the world's favourite authors, tells a sinister story about the darker side of human nature. Here, a young man in need of room meets a most accommodating landlady . . . The Landlady is taken from the short story collection Kiss Kiss, which includes ten other devious and shocking stories, featuring the wife who pawns the mink coat from her lover with unexpected results; the priceless piece of furniture that is the subject of a deceitful bargain; a wronged woman taking revenge on her dead husband, and others.

'Unnerving bedtime stories, subtle, proficient, hair-raising and done to a turn.' (San Francisco Chronicle )

This story is also available as a Penguin digital audio download read by Tamsin Greig. Roald Dahl, the brilliant and worldwide acclaimed author of Charlie and the Chocolate Factory, James and the Giant Peach, Matilda, and many more classics for children, also wrote scores of short stories for adults. These delightfully disturbing tales have often been filmed and were most recently the inspiration for the West End play, Roald Dahl's Twisted Tales by Jeremy Dyson. Roald Dahl's stories continue to make readers

---

shiver today.

The Other America

McDougal

Littell/Houghton Mifflin

For four hundred

years--from the first

Spanish assaults against

the Arawak people of

Hispaniola in the 1490s

to the U.S. Army's

massacre of Sioux

Indians at Wounded

Knee in the 1890s--the

indigenous inhabitants of

North and South America

endured an unending

firestorm of violence.

During that time the

native population of the

Western Hemisphere

declined by as many as

100 million people.

Indeed, as historian

David E. Stannard argues

in this stunning new

book, the European and

white American

destruction of the native

peoples of the Americas

was the most massive

act of genocide in the

history of the world.

Stannard begins with a

portrait of the enormous

richness and diversity of

life in the Americas prior

to Columbus's fateful

voyage in 1492. He then

follows the path of

genocide from the Indies

to Mexico and Central

and South America, then

north to Florida, Virginia,

and New England, and

finally out across the

Great Plains and

Southwest to California

and the North Pacific

Coast. Stannard reveals

that wherever Europeans

or white Americans went,

the native people were

caught between imported

plagues and barbarous

atrocities, typically

resulting in the

annihilation of 95 percent

of their populations. What

kind of people, he asks,

do such horrendous

---

things to others? His highly provocative answer: Christians. Digging deeply into ancient European and Christian attitudes toward sex, race, and war, he finds the cultural ground well prepared by the end of the Middle Ages for the centuries-long genocide campaign that Europeans and their descendants launched--and in places continue to wage--against the New World's original inhabitants. Advancing a thesis that is sure to create much controversy, Stannard contends that the perpetrators of the American Holocaust drew on the same ideological wellspring as did the later architects of the Nazi Holocaust. It is an ideology that remains dangerously alive today, he adds, and one that in

recent years has surfaced in American justifications for large-scale military intervention in Southeast Asia and the Middle East. At once sweeping in scope and meticulously detailed, American Holocaust is a work of impassioned scholarship that is certain to ignite intense historical and moral debate.

United States History and Geography, Student Edition  
Good Press

Criticizes the way history is presented in current textbooks, and suggests a more accurate approach to teaching American history.

The Americans: Reconstruction to the 21st Century McDougal Littell

This third edition is greatly expanded with over 600 new entries to reflect the growing number of imaginative

Hill

Examines the economic  
underworld of migrant  
farm workers, the aged,  
minority groups, and  
other economically  
underprivileged groups.

Common Sense McGraw-  
Hill Education

American Government 2e  
is designed to meet the  
scope and sequence  
requirements of the single-  
semester American  
Government course. This  
title includes innovative  
features designed to  
enhance student learning,  
including Insider

Perspective features and a  
Get Connected module that  
shows students how they  
can get engaged in the  
political process. The book  
provides an important  
opportunity for students to  
learn the core concepts of  
American Government and  
understand how those

concepts apply to their lives  
and the world around them.

Creating America Holt  
McDougal

Printed in color. U.S.  
History is designed to  
meet the scope and  
sequence requirements  
of most introductory  
courses. The text  
provides a balanced  
approach to U.S. history,  
considering the people,  
events, and ideas that  
have shaped the United  
States from both the top  
down (politics,  
economics, diplomacy)  
and bottom up  
(eyewitness accounts,  
lived experience). U.S.  
History covers key  
forces that form the  
American experience,  
with particular attention  
to issues of race, class,  
and gender.
