The soft crash of waves that blissfully block out all

other noise, the smell of two-stroke and lawn clippings, the first sip of cold beer, the laboured whir of the ceiling fan, the sound of a bag of ice hitting the pavement, that feeling of salt on skin and even the smell of prawns on bin night. Comedian Tim Ross uses the Australian Summer as a back drop for a new collection of nostalgic short stories.

PREFACE TO THE SIXTH EDITION In the Sixth Edition of this book there is a notable change, which we are sure that all our supporters will appreciate. While we were considering the advisability of bringing it out in the current year we were approached by Mr. Reuben Fine with a suggestion that he should under take the task of revision and we gladly agreed. Reuben Fine needs no introduction to those who are interested in the game of chess. His past achievements had already made him famous and he added another glorious chapter to the story of his career, just as he had finished his work for us, by tying for the first place in the great A. V. R. O. Tournament towards the

end of 1938. Naturally we gave our reviser a free hand in dealing with his task, merely reserving to ourselves the editorial right of making such slight changes in his text as might seem to us necessary. Mr. Fine, however, scrupulously adhered to the traditions of Modern Chess Openings, while availing himself fully of the privilege which must be conceded to a master of his rank of expressing his personal opinions on the lines of play which are illustrated in the book, and altering as he thought fit the introductions to the various openings. In comparing this new edition with its predecessor we may note that it contains 332 pages and 1,215 columns, as against 300 pages and 1,060 columns of seven years ago. We have gladly got rid of the cumbersome device of Addenda, which was forced upon us by circumstances of production in 1932. We have also, in deference to Mr. Fine's wishes, abandoned the use of starred columns to indicate what appears to be the best line of play for both sides. In his preface the reviser explains the system adopted by him in appraising lines of play, so no comment on it is needed from us. The only difficulty which arose in the completion of this edition was caused by our desire to introduce new variations from the A. V. R. O. Tournament after the manuscript had been sent to the printers and was in process of being set up. The printers work was held back sufficiently to permit the mention of the most important of these and it so happened that this delay made it possible to put in some of the novelties from the Hastings Tournament of 1938-39 and a few from the Leningrad-Moscow Tournament this year. In conclusion we should like to convey our personal thanks to Mr. Fine for the admirable way in which he has carried out his revision on which point we think our readers will agree, and to acknowledge how little he left us to do. The manuscript was typed by his wife, and the printers had no difficulty on the score of illegibility. We desire also to express our gratitude to all who have helped us in the preparation of this new edition, and especially to our assistants in the exacting work of reading the proofs, with particular mention of Messrs. F. J. Camm and R. Hutter, and Sir Gilbert Jackson. T E EDITORS. London, Januar 1939. THE task of revising Modern Chess Openings has been both arduous and pleasant arduous because of the almost endless ramifications of modern opening theory, which necessitated the examination of the openings of thousands of games pleasant because the result is a solution, albeit an incomplete one, to the complicated labyrinth. I have been guided by the principle of the earlier editions, that this work is intended to be both modern and practical. For that reason I have enlarged the sections on the Queens side openings and the Ruy Lopez, as these are the sine qua non of contemporary tournaments, although I have refrained from paying too much attention to any particular variation in these openings, since the practical player must be acquainted with a great number of different lines. I wish to express my grateful thanks to various friends who have helped me particularly to Mr...

Jenna Fischer's Hollywood journey began at the age of 22 when she moved to Los Angeles from her hometown of St. Louis. With a theater degree in hand, she was determined, she was confident, she was ready to work hard. So, what could go wrong? Uh, basically everything. The path to being a professional actor was so much more vast and competitive than she'd imagined. It would be eight long years before she landed her iconic role on *The Office*, nearly a decade of frustration, struggle, rejection and doubt. If only she'd had a handbook for the aspiring actor. Or, better yet, someone to show her the way—an established actor who could educate her about the business, manage her expectations, and reassure her in those moments of despair. Jenna wants to be that person for you. With amusing candor and wit, Fischer spells out the nuts and bolts of getting established in the profession, based on her own memorable and hilarious experiences. She tells you how to get the right headshot, what to look for in representation, and the importance of joining forces with other like-minded artists and creating your own work—invaluable advice personally acquired from her many years of struggle. She provides helpful hints on how to be gutsy and take risks, the tricks to good auditioning and callbacks, and how not to fall for certain scams (auditions

in a guy's apartment are probably not legit—or at least not for the kind of part you're looking for!). Her inspiring, helpful guidance feels like a trusted friend who's made the journey, and has now returned to walk beside you, pointing out the pitfalls as you blaze your own path towards the life of a professional actor.

The 21st Century Edition of Spielmann's Classic Work Austrian Grandmaster Rudolf Spielmann's *The Art of Sacrifice in Chess* first appeared in the mid-1930s. It was immediately recognized as a classic, a masterpiece that examined the nature of chess sacrifices. In this modernized, 21st century edition, all of Spielmann's original work has been preserved. The antiquated English Descriptive Notation has been replaced with modern Figurine Algebraic, and German grandmaster Karsten Müller has added his own notes to Spielmann's original text. But the German grandmaster has gone far beyond simply inserting clarifying commentary. Müller has virtually doubled the size of the original work by adding eleven new chapters, including: The Greek Gift Sacrifice Bxh2/7+; Disaster on g7; The Achilles' Heel f7; Strike at the Edge; Destroying the King's Shelter; Sacrifices on f6; Sacrifices on e6; The Magic of Mikhail Tal; Shirov's Sacrifices; and The Fine Art of Defense. There are exercises at the end of each new chapter to help you hone your skill of sacrificing. "Grandmaster Karsten Müller's notes to the original text, along with the new material, brilliantly complements Spielmann's classic work. A welcome addition to any chessplayer's library..." – Garry Kasparov
