Gender Ideologies and Military Labor Markets in the U.S. offers a comprehensive analysis of the relationship between changes in military gender ideologies and structural changes in U.S. military and society. By investigating how social and military change have influenced gender ideologies, the author develops an approach that (re-)connects military gender ideologies to the social conditions of their production and distribution and explains their transformation as effects of changing social and political relations and conflicts. Examining the role of different groups of social actors, media debates on women ' s military participation and gender ideologies inherent in depictions of military women, the author seeks to contextualise these ideologies are within structural change in the U.S. military and society, relating them to the gender-specific division of labour on civilian and military labor markets. This work provides a deeper understanding of the nexus between military re-structuring processes, women ' s military integration, and changes of gender ideologies in regard to war and the military, and will be of great interest to students and scholars of gender, security studies and American politics.

Australia's vocational education & training (VET) sector continues to deliver excellent results and outcomes for its students, industry and the economy at large. Yet, among the Australian public, perceptions surrounding vocational education continue to be widely out of step with the reality of the sector and its achievements. Sandwiched between debates about university deregulation and private vs public school funding, vocational education all too often is relegated to forgotten child status, struggling to gain the media attention required for the public to understand VET's unique abilities and ambitions. Further, the current overemphasis on academic and university pathways means VET pathways are often not given due consideration by high-

school leavers. Such, public awareness and recognition of the crucial role that VET can play and is playing in training the Australian workforce with the skills required to grasp future industry opportunities is poor. When compared with employment outcomes for university graduates, VET continues to produce superior results, and has proven itself to be a more flexible, accessible and adaptable platform for educating and skilling Australians than university education. Importantly, given the rising cost of formal education, VET is also a more cost effective training option for both businesses and individuals. Using a range of local and international data sources as well as real-life success stories, this report addresses some of these pervasive and inaccurate perceptions about vocational education and, also, highlights the importance of including VET pathways in the overall discussion about our nation's long-term educational strategies and employment solutions. Between the ongoing recession, the collapse of the housing market, and the crumbling of the middle class, many Americans are left wondering what happened to the American Dream. They're also wondering what happened to their money. For millions of people, just making ends meet is challenging enough. So when it comes to saving and investing, it seems like the deck is stacked against you. The bad news is that you're right. If the economy were a card game, the dealer would hold all the aces. But the good news is that you don't have to play by the house rules. Renowned for his unvarnished insight on finance and investing, money manager Mark Grimaldi has a reputation for telling it like it is. He doesn't sugarcoat the negative and he doesn't have time for the financial industry hype that leads to bad investing decisions. Here's the truth: the economy is in bad shape, but that doesn't mean you can't save responsibly, invest profitably, and retire comfortably. In *The Money Compass*, Grimaldi teams up with accounting professor G. Stevenson Smith to offer a wealth of smart investing advice for today's investor. This plain-English guide to good investing presents practical strategies and actionable advice for safely navigating today's financial markets. It shows you how to manage credit and debt responsibly, how to use the tax code to your advantage, which kinds of trendy investing advice you should ignore, and where to put your money for solid returns. In addition, the authors explore the hard macroeconomic realities that explain how we got here and where we're going next. They look at the

primary causes and consequences of the recession, the housing crash, the slow collapse of government programs, long-term unemployment, and how it all impacts you and your money. Plus, Grimaldi and Stevenson forecast the next big economic shock and show you how to profit from it. The economic game is rigged to keep you poor and keep Wall Street rich. So it's time to write your own rules. Whether you're white collar, blue collar, or somewhere in between, *The Money Compass* gives you the commonsense guidance you need to chart a course to a comfortable financial future—even in the roughest economic waters.

Psychosocial Rehabilitation is a comprehensive ready-reference for mental health practitioners and students, providing practical advice on the full range of interventions for psychosocial rehabilitation. It contextualises the interventions described and provides pointers to enable the reader to explore the theory and research. This manual recognises the wide-ranging impact of mental illness and its ramifications on daily life, and promotes a recovery model of psychosocial rehabilitation and aims to empower clinicians to engage their clients in tailored rehabilitation plans. The book is divided into five key sections. Section 1 looks at assessment covering tools available in the public domain, instruments, scoring systems, norms and applications for diagnosis and measurement of symptoms, cognitive functioning, impairment and recovery. Section 2 covers the full range of therapeutic interventions and offers advice on training and supervision requirements and evaluation of process, impact and outcome. Section 3 provides manuals and programs for interventions effectively provided as group activities. Section 4 explains how to design a full programme that integrates therapeutic interventions with group programmes as well as services provided by other agencies. The final section looks at peer support and self help, providing manuals and resources that support programmes and interventions not requiring professional or practitioner direction.

Althusser & Law is the first book specifically dedicated to the place of law in Louis Althusser's philosophy. The growing importance of Althusser's philosophy in contemporary debates on the left has - for practical and political, as well theoretical reasons - made a sustained consideration of his conception of law more necessary than ever. As a form of what Althusser called 'Ideological State Apparatuses', law is at the forefront of political struggles: from the destruction of Labour Law

to the exploitation of Patent Law; from the privatisation of Public Law to the ongoing hegemony of Commercial Law; and from the discourse on Human Rights to the practice of judicial courts. Is Althusser still useful in helping us to understand these struggles? Does he have something to teach us about how law is produced, and how it is used and misused? This collection demonstrates that Althusser's ideas about law are more important, and more contemporary, than ever. Indeed, the contributors to Althusser and Law argue that Althusser offers a new and invaluable perspective on the place of law in contemporary life.

"In this profoundly moving memoir, Owita teaches Wall how to find grace amid heartbreak and to accept that beauty exists because it is fleeting—as in her garden, as in life." —People, 4 stars "A perfect spring awakening." —Good Housekeeping A true story of a unique friendship between two people who had nothing—and ultimately everything—in common. Carol Wall, a white woman living in a lily-white neighborhood in Middle America, was at a crossroads in her life. Her children were grown; she had successfully overcome illness; her beloved parents were getting older. One day she notices a dark-skinned African man tending her neighbor's yard. His name is Giles Owita. He bags groceries at the supermarket. He comes from Kenya. And he's very good at gardening. Before long Giles is transforming not only Carol's yard, but her life. Though they are seemingly quite different, a caring bond grows between them. But they both hold long-buried secrets that, when revealed, will cement their friendship forever.
