In one of the most powerful and darkly satirical works of the 18th century, a chilling solution is proposed to address the dire poverty and overpopulation plaguing Ireland. Jonathan Swift presents a shockingly calculated and seemingly rational argument for using the children of the poor as a food source, thereby addressing both the economic burden on society and the issue of hunger. This provocative piece is a masterful example of irony and social criticism, as it exposes the cruel attitudes and policies of the British ruling class towards the Irish populace. Jonathan Swift's incisive critique not only underscores the absurdity of the proposed solution but also serves as a profound commentary on the exploitation and mistreatment of the oppressed. A Modest Proposal remains a quintessential example of satirical literature, its biting wit and moral indignation as relevant today as it was at the time of its publication.

JONATHAN SWIFT [1667-1745] was an Anglo-Irish author, poet, and satirist. His deadpan satire led to the coining of the term » Swiftian « , describing satire of similarly ironic writing style. He is most famous for the novel *Gulliver ' s Travels* [1726] and the essay *A Modest Proposal* [1729].

*A Modest Proposal* Modernista

In a landmark book that's "intriguing [and] provocative" and presents "an original thesis [to explain] this peculiar paradox—we idealize marriage and yet we're so bad at it" (*The New York Times*). Andrew J. Cherlin's three decades of study have shown him that marriage in America is a social and political battlefield in a way that it isn't in other developed countries. Americans marry and divorce more often and have more live-in partners than Europeans, and gay Americans have more interest in legalizing same-sex marriage. The difference comes from Americans' embrace of two contradictory cultural ideals: marriage, a formal commitment to share one's life with another; and individualism, which emphasizes personal choice and self-development. Religion and law in America reinforce both of these behavioral poles, fueling turmoil in our family life and heated debate in our public life. Cherlin's incisive diagnosis is an important contribution to the debate and points the way to slowing down the partnership merry-go-round.

*What Would Joey Do?* Heinemann Educational Books

Children from poor families generally do a lot worse than children from affluent families. They are more likely to develop behavior problems, to score lower on standardized tests, and to become adults in need of public assistance. Susan Mayer asks whether income directly affects children's life chances, as many experts believe, or if the factors that cause parents to have low incomes also impede their children's life chances. She explores the question of causation with remarkable ingenuity. First, she compares the value of income from different sources to determine, for instance, if a dollar from welfare is as valuable as a dollar from wages. She then investigates whether parents' income after an event, such as teenage childbearing, can predict that event. If it can, this suggests that income is a proxy for unmeasured characteristics that affect both income

and the event. Next she compares children living in states that pay high welfare benefits with children living in states with low benefits. Finally, she examines whether national income trends have the expected impact on children. Regardless of the research technique, the author finds that the effect of income on children's outcomes is smaller than many experts have thought. Mayer then shows that the things families purchase as their income increases, such as cars and restaurant meals, seldom help children succeed. On the other hand, many of the things that do benefit children, such as books and educational outings, cost so little that their consumption depends on taste rather than income. Money alone, Mayer concludes, does not buy either the material or the psychological well-being that children require to succeed.

"These two things fight together in me as the snakes fight in the spring. The water comes out of my eyes; yet I laugh while it falls. Why?" The Jungle Book (1894) is a collection of stories by the English author Rudyard Kipling. A major theme in the book is abandonment followed by fostering, as in the life of Mowgli, echoing Kipling's own childhood. The Jungle Books can be regarded as classic stories told by an adult to children. But they also constitute a complex literary work of art in which the whole of Kipling's philosophy of life is expressed in miniature. They are best known for the 'Mowgli' stories; the tale of a baby abandoned and brought up by wolves, educated in the ways and secrets of the jungle by Kaa the python, Baloo the bear, and Bagheera the black panther. The stories, a mixture of fantasy, myth, and magic, are underpinned by Kipling's abiding preoccupation with the theme of self-discovery, and the nature of the 'Law'.
