‘ Unwillingly, I ’ ve become part of the story. Questions lie when reconstructing incomplete facts, half-truths, enigmas. What remains is incompleteness, interruption. Only the dead know what happened. ’ In *The Razor ’ s Edge*, Karl Jirgens presents a collection of interlinked fictions that

inhabit halfway worlds between past and present, dream and actuality, science and divination. Ordinary daily activities and events lead to unexpected slides into lucid dreams and flirtations with the edge of madness. Drawing on literature and pop culture (from Cinderella and Hamlet to Vladimir Mayakovsky and Anthony Bourdain) as well as the history of twentieth-century genocides (including the Holocaust and the Gulag), these complex, magic realist stories suggest that what seems separate is really interconnected, that the distinction between past, present and future is illusion, and that we might all die of the truth if the truth were truly known.
