"This book is for people who want to do something to lighten their impact on the planet." –David Suzuki Ecoholic is an eye-opening guide to separating the green from the greenwashed in the maze of products lining our shelves. Unlike other eco guidebooks, Ecoholic names names and gives you the dirt on what not to buy and why,

as well as the dish on great clothes, beauty products, home supplies, and more. We all know that the earth is in trouble, but we're often left scratching our heads over how to change things. How do we avoid poisoning the planet and ourselves with the products we slather on our scalps and squirt onto our floors? And what safe alternatives actually get the job done? Filled with tips on everything from which seafood is safe to eat to getting the hormone disruptors out of your kids, your

carpets, and your love life, Ecoholic is a witty and indispensable guide to the small ecochoices that make the biggest difference.

After the Snow Began to Fall is a novel that will make you laugh, cry, sit on the edge of your seat at times, and present you with questions (maybe even a few answers) that have challenged each of us during our lifetimes. The world in which these characters live is much different than that which we face, but their approach to living should be an inspiration to all. They must make do with less and become innovative when it counts. Life and death decisions are intertwined with humor and romance. Without anyone else to come to their aid, they struggle to survive and create a new life for themselves and those who join them along the way. In addition, this novel is rather unique, I

---

think, because it is actually two novels in one. One of the characters is a writer who creates a novel for the other characters as the story proceeds.

**Senior Selling** Penguin Take a trip to the small Texas town where only outsiders fit in with the first novel in #1 New York Times bestselling author Charlaine Harris' paranormal mystery series. Welcome to Midnight, Texas, a town with many boarded-up windows and few full-time inhabitants, located at the crossing of Witch Light Road and the Davy highway. It's a pretty standard dried-up western town. There's a pawnshop with three residents. One is seen only at night. There's a diner, but people stopping there tend not to linger.

There's a newcomer, Manfred Bernardo, who just wants to work hard and blend in. But Manfred has secrets of his own...

Consumers Union U.S. From the creator of the popular website Ask a Manager and New York's work-advice columnist comes a witty, practical guide to 200 difficult professional conversations—featuring all-new advice! There's a reason Alison Green has been called "the Dear Abby of the work world." Ten years as a workplace-advice columnist have taught her that people avoid awkward conversations in the office because they simply don't know what to say. Thankfully, Green does—and in this incredibly helpful book, she tackles the tough discussions you may need to have during your career. You'll learn what to say when • coworkers push their work on you—then take credit for it • you accidentally trash-talk someone in an email then hit "reply all" • you're being micromanaged—or not being managed at all • you catch a colleague in a lie • your boss seems unhappy with your work • your cubemate's loud speakerphone is making you homicidal • you got drunk at the holiday party Praise for Ask a Manager "A must-read for anyone who works . . . [Alison Green's] advice boils down to the idea that you should be professional (even when others are not) and that communicating in a straightforward manner with candor and kindness will get you far, no matter where you work."—Booklist (starred review) "The author's friendly,

---

warm, no-nonsense writing is a pleasure to read, and her advice can be widely applied to relationships in all areas of readers' lives. Ideal for anyone new to the job market or new to management, or anyone hoping to improve their work experience."—Library Journal (starred review) "I am a huge fan of Alison Green's Ask a Manager column. This book is even better. It teaches us how to deal with many of the most vexing big and little problems in our workplaces—and to do so with grace, confidence, and a sense of humor."—Robert Sutton, Stanford professor and author of *The No Asshole Rule* and *The Asshole Survival Guide* "Ask a Manager is the ultimate playbook for navigating the traditional workforce in a diplomatic but firm way."—Erin Lowry, author of *Broke Millennial: Stop Scraping By and Get Your Financial Life Together*

This book examines the International Organization for Migration's (IOM) practices of international migration management and studies current transformations of migration governance and the role of international organizations outside Europe. While so-called migration crises in North Africa in 2005 and 2011 made the instability of the increasingly militarized border regime visible, they also created space for new actors and instruments to emerge under the label of international migration management, promising softer

forms to control migration outside Europe. Who are these actors, and how do they think and practice migration control without the use of physical force and obvious repression? This book develops an innovative theoretical framework that mobilizes Bourdieu's Theory of Practice to critically investigate the work of the IOM in Morocco and Tunisia between 2005 and 2015. Analyzing its information campaigns, voluntary return programs, and anti-trafficking politics, the book shows how this organization teaches (potential) migrants and North African actors to understand migration as their own problem and its management as their own responsibility. This book advances our understanding of the complex and ambivalent practices of controlling migration through information, protection and repatriation, and the implications of ubiquitous but underresearched institutions, such as the IOM, in this contested field. It will appeal to postgraduates, researchers, and academics in International Relations Theory, Border and Migration Studies, International Political Sociology, international organizations, and contemporary politics in North Africa.

Life is precious and all too often we take for granted that we have tomorrow but tomorrow is not promised to any of us. This is a true story. Wendy Portfors knew her life had changed in an instant when her husband suffered a stroke and the underlying cause was an inoperable tumor. Wendy has written from her firsthand experience. This is an intimate and brutally honest account of her journey through her husband's diagnosis, to Caregiver and ultimately to being widowed. After losing her husband of 38 years Wendy's world spiraled out of control. She bears her soul into her struggle to overcome loneliness, isolation, feelings of abandonment and the darkness of depression. It captures the heartbreak of loss and Wendy's slow and painful journey from unimaginable grief to healing. We will all experience loss in our lifetime. Wendy shares her insights from her personal experience aimed to help others navigate through loss to healing. Whether you are a Caregiver, grieving a loss or supporting a grieving person this book is for you. Wendy's hope is that by reading 'Remembering Love' you will

With the Leyte Campaign the War in the Pacific entered a decisive stage. The period of limited

offensives, bypassing, and island hopping was virtually over. American troops in greater numbers than ever before assembled in the Pacific Theater, supported by naval and air forces of corresponding size, fought and overcame Japanese forces of greater magnitude than any previously met. Though the spotlight is on the front-line fighting, the reader will find in this volume a faithful description of all arms and services performing their missions. The account is not exclusively an infantry story. It covers as well the support of ground fighting on Leyte by large-scale naval operations and by land-based air power under the most adverse conditions. In addition, careful attention to logistical matters, such as the movement of supplies and the evacuation of the wounded, gives the reader a picture of the less spectacular activities of an army in battle.
