Based on seven years of original research, this book contains one of the most detailed and comprehensive assessments of 'home-grown' Islamist terrorism (HGIT) in the US and UK to date. Beginning with an examination of the development of militant networks during the 1980s and 1990s, it traces the origins of HGIT and highlights the significance of these early experiences in different countries for shaping the future trajectory of the threat. The book also examines the range of motivations for violent jihad in the West, suggesting a composite theoretical model that specifies three 'necessary' conditions for involvement and challenges popular explanations for differential rates of terrorism which emphasize socioeconomic factors. The book analyzes the background and operational activities of nearly 800 American and British jihadis who mobilized between 1980 and September 11th 2013, including factors such as mental health, education, processes of radicalization, leadership, use of the Internet, sources of funding and links to foreign terrorist organizations. This analysis is then complemented with an examination of how these individuals have been dealt with by the respective security services. From the first proponents of 'global jihad' to the recent wave of volunteers inspired by events in the Middle East, this book provides an extensive yet lucid analysis of one of the greatest security concerns facing America and Great Britain today. 'Home-Grown' Jihad challenges

existing studies on a number of key issues and expands our understanding of HGIT. It will be invaluable to academics, practitioners and policymakers alike.

The 1934 St. Louis Cardinals were one of the most colorful crews ever to play the National Pastime. Sportswriters delighted in assigning nicknames to the players, based on their real or imagined qualities. What a cast of characters it was! None was more picturesque than Pepper Martin, the "Wild Horse of the Osage," who ran the bases with reckless abandon, led his teammates in off thefield hijinks, and organized a hillbilly band called the Mississippi Mudcats. He was quite a baseball player, the star of the 1931 World Series and a significant contributor to the 1934 championship. The harmonica player for the Mudcats was the irrepressible Dizzy Dean. Full of braggadocio, Dean delivered on his boasts by winning 30 games in 1934, the last National League hurler to achieve that feat. Dizzy and his brother Paul accounted for all of the Cardinal victories in the 1934 World Series. Some writers tried to pin the moniker Daffy on Paul, but that name didn't fit the younger and much quieter brother. The club's hitters were led by the New Jersey strong boy, Joe "Ducky" Medwick, who hated the nickname, preferring to be called "Muscles." Presiding over this

aggregation was the "Fordham Flash," Frankie Frisch. Rounding out the club were worthies bearing such nicknames as Ripper, "Leo the Lip," Spud, Kiddo, Pop, Dazzy, Ol' Stubblebeard, Wild Bill, Buster, Chick, Red, and Tex. Some of these were aging stars, past their prime, and others were youngsters, on their way up. Together they comprised a championship ball club.

"The Gas House Gang was the greatest baseball club I ever saw. They thought they could beat any ballclub and they just about could too. When they got on that ballfield, they played baseball, and they played it to the hilt too. When they slid, they slid hard. There was no good fellowship between them and the opposition. They were just good, tough ballplayers." — Cardinals infielder Burgess Whitehead on "When It Was A Game," HBO Sports, 1991

'Home-grown' Jihad: Understanding Islamist Terrorism In The Us And Uk Genealogical Publishing Com In Evangelist Marketing, Alex Goldfayn argues that technology companies succeed in spite of their marketing, not because of it. He says that if consumer tech makers ceased all marketing activity today, they would not see a significant decline in sales. In this book, Alex presents why the current state of overly-technical, features-oriented tech marketing, branding, communications and public relations is costing the industry billions of dollars—easy money that's voluntarily being left on the table. Then he lays out a step-by-step system for creating intensely loyal brand evangelists based on deep consumer insights and simple, emotional language. Evangelist Marketing is written for consumer tech companies big and small—from PC manufacturers to Web-based services. It's also sure to improve the work of their marketing and public relations agencies. Chuck Noll e-artnow

The Golden Bough is a wide-ranging, comparative study of mythology and religion, written by the Scottish anthropologist Sir James George Frazer. The book documents and

details the similarities among magical and religious beliefs around the globe. Frazer attempted to define the shared elements of religious belief and scientific thought, discussing fertility rites, human sacrifice, the dying god, the scapegoat, and many other symbols and practices whose influences had extended into 20th-century culture. His thesis is that old religions were fertility cults that revolved around the worship and periodic sacrifice of a sacred king. Frazer proposed that mankind progresses from magic through religious belief to scientific thought. The influence of *The Golden Bough* on contemporary European literature and thought is substantial.

Chuck Noll won four Super Bowls and presided over one of the greatest football dynasties in history, the Pittsburgh Steelers of the '70s. Later inducted into the Pro Football Hall of Fame, his achievements as a competitor and a coach are the stuff of legend. But Noll always remained an intensely private and introspective man, never revealing much of himself as a person or as a coach, not even to the players and fans who revered him. Chuck Noll did not need a dramatic public profile to be the catalyst for one of the greatest transformations in sports history. In the nearly four decades before he was hired, the Pittsburgh Steelers were the least successful team in professional football, never winning so much as a division title. After Noll's arrival, his quiet but steely leadership quickly remolded the team into the most accomplished in the history of

professional football. And what he built endured well beyond his time with the Steelers—who have remained one of America's great NFL teams, accumulating a total of six Super Bowls, eight AFC championships, and dozens of division titles and playoff berths. In this penetrating biography, based on deep research and hundreds of interviews, Michael MacCambridge takes the measure of the man, painting an intimate portrait of one of the most important figures in American football history. He traces Noll's journey from a Depression-era childhood in Cleveland, where he first played the game in a fully integrated neighborhood league led by an African-American coach and then seriously pursued the sport through high school and college. Eventually, Noll played both defensive and offensive positions professionally for the Browns, before discovering that his true calling was coaching. MacCambridge reveals that Noll secretly struggled with and overcame epilepsy to build the career that earned him his place as "the Emperor" of Pittsburgh during the Steelers' dynastic run in the 1970s, while in his final years, he battled Alzheimer's in the shelter of his caring and protective family. Noll's impact went well beyond one football team. When he arrived, the city of steel was facing a deep crisis, as the dramatic decline of Pittsburgh's lifeblood industry traumatized an entire generation. "Losing," Noll said on his first day on the job, "has nothing to do with geography." Through his calm, confident leadership of the Steelers and the success they achieved, the people of Pittsburgh came to believe that winning was possible, and their recovery of confidence owed a lot to the Steeler's new coach. The famous urban renaissance that followed can only be understood by grasping what Noll and his team meant to the people of the city. The man Pittsburghers could never fully know helped them see themselves better. *Chuck Noll: His Life's Work* tells the story of a private man in a very public job. It explores the family ties that built his character, the challenges that defined his

course, and the love story that shaped his life. By understanding the man himself, we can at last clearly see Noll's profound influence on the city, players, coaches, and game he loved. They are all, in a real sense, heirs to the football team Chuck Noll built.

With contributions by Barbara Banks, Sheila Bock, Susan Eleuterio, Jillian Gould, Phillis Humphries, Michael Owen Jones, Alicia Kristen, William G. Lockwood, Yvonne R. Lockwood, Lucy M. Long, LuAnne Roth, Rachelle H. Saltzman, Charlene Smith, Annie Tucker, and Diane Tye Comfort Food explores this concept with examples taken from Atlantic Canadians, Indonesians, the English in Britain, and various ethnic, regional, and religious populations as well as rural and urban residents in the United States. This volume includes studies of particular edibles and the ways in which they comfort or in some instances cause discomfort. The contributors focus on items ranging from bologna to chocolate, including sweet and savory puddings, fried bread with an egg in the center, dairy products, fried rice, cafeteria fare, sugary fried dough, soul food, and others. Several essays consider comfort food in the context of cookbooks, films, blogs, literature, marketing, and tourism. Of course what heartens one person might put off another, so the collection also includes takes on victuals that prove problematic. All this fare is then related to identity, family, community, nationality, ethnicity, class, sense of place, tradition, stress, health, discomfort, guilt, betrayal, and loss, contributing to and deepening our understanding of comfort food. This book offers a foundation for further appreciation of comfort food. As a subject of study, the comfort food is relevant to a number of disciplines, most obviously food studies, folkloristics, and anthropology, but also American studies, cultural studies, global and international studies, tourism, marketing, and public health.

Psychological Care of Infant and Child That Certain Saturday tells the true story of Madelyn S Leigh 's struggle with her mother 's illness from Madelyn 's age of nine until she was sixty. Her father always being their rock. Beginning in 1960 with a pill which was proclaimed by doctors to be a miracle, Madelyn had to watch that medication prolong the pain and stigma of her loving and kind mother 's problem rather than fix things. Her mother seemed to have the perfect life by being a contented housewife and very involved with her women 's church group in the years prior to 1960. Her daughter Madelyn 's childhood had been celebrated with the beauty of daily horseback rides which her mother enjoyed watching. The events of the morning that her mom 's nerves came

unraveled were something that no child should have to endure. Madelyn did endure it, but her life would never be the same. Psychiatric ward visits and hearing her mother be "labeled" made for a quick jump from childhood to adulthood at age nine. Two years later equaled two more nervous breakdowns and three out-of-state moves due to her dad being transferred because of his job. Her mother had the determination to keep trying to start over by driving again and getting involved with life. A first marriage for Madelyn and a wonderful baby boy, three years later, still did not help to normalize her situation. Her father had been the only stabilizing factor for her since young childhood. His diagnosis of cancer in the late 1980s was a huge awakening Life was a complete confusion for Madelyn while she was always wishing she was simply riding a horse, her favorite pastime. Modern medicines were prescribed for her mom after her last hospital stay and made a great difference. In the 1990s, Madelyn inherited all of the responsibilities of her mom. With her mom 's mental condition greatly improving, her mom 's physical condition began to deteriorate rapidly. The number of doctors for her care grew to nine. Exhaustion and insomnia took over Madelyn 's life, but she kept going due to her love for her mother and the kindness of her mom under terrible circumstances. The coming years contained many changes, but she and her mom always remain together. The wait for Jesus had many challenges. It was a roller-coaster life, growing up in a dysfunctional family which never included alcohol, drug abuse, or physical or mental abuse. It was simply one person 's personal struggle with a chronic illness which affected the whole family. The love of family and the love of animals defeated everything that was bad.

More than eighty designs--iconic, archaic, quotidian, and taboo--that have defined the arc of human reproduction. While birth often brings great joy, making babies is a knotty enterprise. The designed objects that surround us when it comes to menstruation, birth control, conception, pregnancy, childbirth, and early motherhood vary as oddly, messily, and dramatically as the stereotypes suggest. This smart, image-rich, fashion-forward, and design-driven book explores more than eighty designs--iconic, conceptual, archaic, titillating, emotionally charged, or just plain strange--that have defined the relationships

between people and babies during the past century. Each object tells a story. In striking images and engaging text, *Designing Motherhood* unfolds the compelling design histories and real-world uses of the objects that shape our reproductive experiences. The authors investigate the baby carrier, from the Snugli to BabyBjörn, and the (re)discovery of the varied traditions of baby wearing; the tie-waist skirt, famously worn by a pregnant Lucille Ball on *I Love Lucy*, and essential for camouflaging and slowly normalizing a public pregnancy; the home pregnancy kit, and its threat to the authority of male gynecologists; and more. Memorable images--including historical ads, found photos, and drawings--illustrate the crucial role design and material culture plays throughout the arc of human reproduction. The book features a prologue by Erica Chidi and a foreword by Alexandra Lange.
