consequences.

[Standardized Nursing Documentation Supports Evidence-Based ...](#)

The need for comprehensive nursing documentation in home health care is considerable and quality is regarded as a prerequisite for continuity of care. Documentation according to the nursing process is considered to be of good quality due to its logical structure. Nurses in home health care face different challenges than nurses in institutionalised care because of long term patient situations and a focus on chronic illness rather than acute disease. Design. Retrospective study. Method.

Improving the Quality of Nursing Documentation in Home ...

Home care nurses have multiple goals at the patient admission visit. Electronic health records support some of these goals, including high-quality documentation, but nurses may not complete the electronic documentation at the point of care. To characterize admission nurses' practices at the point of care and lay the foundation for design recommendations, this study investigates admission nurses' documentation strategies with respect to entering electronic data and how nursing goals affect them.
