Improving Medication Management in Home Care Springer

"Nurses play a vital role in improving the safety and quality of patient care -- not only in the hospital or ambulatory treatment facility, but also of community-based care and the care performed by family members. Nurses need to know what proven techniques and interventions they can use to enhance patient outcomes. To address this need, the Agency for

Healthcare Research and Quality (AHRQ), with additional funding from the Robert Wood Johnson Foundation, has prepared this comprehensive, 1,400-page, handbook for nurses on patient safety and quality -- Patient Safety and Quality: An Evidence-Based Handbook for Nurses. (AHRQ Publication No. 08-0043)."--Online AHRQ blurb, <http://www.ahrq.gov/qual/nursesfdbk>.

The Doctors Book of Home Remedies Jossey-Bass Help stop the widespread problem of medication errors among the elderly The problem of medication errors among the elderly is widespread. Improving Medication Management in Home Care: Issues and Solutions tackles this tough issue by closely examining the challenges faced in preventing

medication errors in home and community care program settings and putting forth effective solutions to better manage medication use. Respected experts discuss the unique role of the pharmacist in improving patient safety, presenting a comprehensive collection of evidence-based studies featuring national and international viewpoints, cutting-edge interventions, and cost-effective procedures that address medication problems in older adults. HealthElixir Home Healthcare Solutions Business Plan
Abstract: Given the ever increasing population of elderly in U.S, home healthcare agencies (HHA) serve as a model of continuous quality and affordable care. HHA hold a promise to boost economy and reduce healthcare expenditures to a significant level. This business plan examines the business potential of a home healthcare startup in downtown LA. Chapter 1 deals with market analysis, providing detailed information on the company, its organization, services, market definition, customer analysis, target population, and service demand. Chapter 2 deals with feasibility analysis and strategic planning, including SWOT, to sell our services. In chapter 3, we have discussed the legal issues and regulations, and defined policies to abide by state and federal rules and regulations. Finally, chapter 4 is about financial analysis, providing detailed pricing structure, other

expenditures and revenues and the overall potential of the business to strive profitability and survive market competition. In conclusion, the Health Elixir Home Healthcare business has shown potential for success in the market. A Bridge to Home Technological advances have pushed the frontier of care management into the home setting and can help patients self-manage their conditions. A global study of the needs, priorities, and expectations of key stakeholders regarding home health care in six countries revealed that although such technologies represent a promising solution to current pressures on health care systems, they also face a number of barriers to adoption.
