Elsevier Health Sciences
Elizabeth I. Gonzalez, RN, BSN Are you looking for training assistance to help your homecare staff enhance their patient assessment documentation skills? Look no further than "Clinical Documentation Strategies for Home Health. " This go-to resource features home health clinical documentation strategies to help agencies provide quality patient care and easily achieve regulatory compliance by: Efficiently and effectively training staff to perform proper patient assessment documentation Helping nurses and clinicians understand the importance of accurate documentation to motivate improvement efforts Reducing reimbursement issues and liability risks to address financial and legal concerns This comprehensive resource covers everything homecare providers need to know regarding documentation best practices, including education for staff training, guidance for implementing accurate patient assessment documentation, tips to minimize legal risks, steps to develop foolproof auditing and documentation systems, and assistance with quality assurance and performance improvement (QAPI) management. "Clinical Documentation Strategies for Home Health" provides: Forms that break down the functions and documentation requirements of the clinical record by "Conditions of Participation," Medicare, and PI activities Tips for coding OASIS Examples of legal issues such as negligence Case studies and advice for managing documentation risk (includes a checklist) Comprehensive documentation and auditing tools that can be downloaded and customized Table of Contents: Key aspects of documentation Defensive documentation: Reduce risk and culpability Contemporary nursing practice Clinical documentation Nursing negligence: Understanding your risks and culpability Improving your documentation Developing a foolproof documentation system Auditing your documentation system Telehealth and EHR in homecare Motivating yourself and others to document completely and accurately

The OASIS Nursing Narrative Note RefeRNce Blueprint
Springer Publishing Company
Part of the popular LPN Threads series, this comprehensive text includes in-depth discussions of fundamental concepts and skills, plus medical-surgical content to help you provide safe and effective care in the fast-paced healthcare environment. Easy-to-read content, an enhanced focus

on preparing for the NCLEX ® Examination, and a wealth of tips and study tools make Foundations and Adult Health Nursing, 6th Edition, your must-have text!

Handbook of Home Health Standards Springer Publishing Company

Home care clinicians everywhere depend on "the little red book" for essential, everyday information: detailed standards and documentation guidelines including ICD-9-CM diagnostic codes, current NANDA-I and OASIS information, factors justifying homebound status, interdisciplinary goals and outcomes, reimbursement considerations, and evidence-based resources for practice and education. COmpletely revised and updated, this indispensable handbook now includes the most recently revised Federal Register Final Rule and up-to-date coding guidelines.

Home Health Assessment Criteria Elsevier Health Sciences

Handbook of Home Health Standards: Quality, Documentation, and Reimbursement includes everything the home care nurse needs to provide quality care and effectively document care based on accepted professional standards. This handbook offers detailed standards and documentation guidelines including ICD-9-CM (diagnostic) codes, OASIS considerations, service skills (including the skills of the multidisciplinary health care team), factors justifying homebound status, interdisciplinary goals and outcomes, reimbursement, and resources for practice and education. The fifth edition of this "little red book" has been updated to include new information from the most recently revised Federal Register Final Rule and up-to-date coding. All information in this handbook has been thoroughly reviewed, revised, and updated. Offers easy-to-access and easy-to-read format that guides users step by step through important home care standards and documentation guidelines Provides practical tips for effective documentation of diagnoses/clinical conditions commonly treated in the home, designed to positively influence reimbursement from third party payors. Lists ICD-9-CM diagnostic codes, needed for completing CMS billing forms, in each body system section, along with a complete alphabetical list of all codes included in the book in an appendix. Incorporates hospice care and documentation standards so providers can create effective hospice documentation. Emphasizes the provision of quality care by providing guidelines based on the most current approved standards of care. Includes the most current NANDA-approved nursing diagnoses so that providers have the most accurate and up-to-date information at their fingertips. Identifies skilled services, including services appropriate for the multidisciplinary team to perform. Offers discharge planning solutions to address specific concerns so providers can easily identify the plan of discharge that most effectively meets the patient's needs. Lists the crucial parts of all standards that specific members of the multidisciplinary team (e.g., the nurse, social worker) must uphold to work effectively together to achieve optimum patient outcomes. Resources for care and practice direct providers to useful sources to improve patient care and/or enhance their professional practice. Each set of guidelines includes patient, family, and caregiver education so that health care providers can supply clients with necessary information for specific problems or concerns. Communication

tips identify quantifiable data that assists in providing insurance case managers with information on which to make effective patient care decisions. Several useful sections make the handbook thorough and complete: medicare guidelines; home care definitions, roles, and abbreviations; NANDA-approved nursing diagnoses; guidelines for home medial equipment and supplies. Small size for convenient carrying in bag or pocket! Provides the most up-to-date information about the newest and predominant reimbursement mechanisms in home care: the Prospective Payment System (PPS) and Pay For Performance (P4P). Updated terminology, definitions, and language to reflect the federal agency change from Health Care Financing Administration (HCFA) to Centers for Medicare & Medicaid Services (CMS) and other industry changes. Includes the most recent NANDA diagnoses and OASIS form and documentation explanations. New interdisciplinary roles have been added, such as respiratory therapist and nutritionist.,/LI>

Documenting Medical Necessity Hcpro, a Division of Blr

Published in its first edition by the International Parish Nurse Resource Centre, Parish Nursing provides a variety of perspectives of faith community nursing roles and practice. Parish Nursing should find interested readers among scholars, students, and advanced practitioners in community and public health nursing. While the book had its initial roots in the Lutheran General Care System, it is a useful reference for nurses of all faiths.

Community Health Nursing Hcpro, a Division of Blr

Including all of the information necessary for safe, competent practice, this is a practical, hands-on educational and training resource for nurses working in telephonic health care settings. It delivers the requisite tools and instruction for optimizing patient communication, performing assessments, and providing effective care of chronic conditions. Moving step-by-step from simple to complex information, the resource de-mystifies the process of telephonic nursing care and describes numerous tools such as learning outcomes, algorithms, exercises to reinforce learning, case studies, and critical thinking questions that help readers develop and hone telehealth nursing skills. The text instructs nurses on how to actively listen to the patient "between the lines" in the absence of an in-person examination and discern the right questions to ask and tone to adopt. Chapters provide enhanced communication techniques to perform comprehensive health assessments with only the sense of hearing and resources available through the telephone. Clinical pearls are scattered throughout the text from those who have been " in the trenches " and cared for a wide variety of patients using the telehealth nursing techniques illustrated in this book. Key Features: Helps nurses understand the keys to successful telehealth nursing Teaches enhanced, specialized communication techniques including "active listening" Guides nurses in assessing patients using only sense of hearing/active listening Includes case studies, algorithms, patient teaching resources and more Reviews body systems and disease processes with application

exercises

Nursing Documentation Handbook Clinical Documentation Strategies for Home Health

Home Health Assessment Criteria: 75 Checklists for Skilled Nursing Documentation Barbara Acello, MS, RN and Lynn Riddle Brown, RN, BSN, CRNI, COS-C Initial assessments can be tricky--without proper documentation, home health providers could lose earned income or experience payment delays, and publicly reported quality outcomes affected by poor assessment documentation could negatively impact an agency's reputation. Ensure that no condition or symptom is overlooked and documentation is as accurate as possible with Home Health Assessment Criteria: 75 Checklists for Skilled Nursing Documentation. This indispensable resource provides the ultimate blueprint for accurately assessing patients' symptoms and conditions to ensure regulatory compliance and proper payment. It will help agencies deliver more accurate assessments and thorough documentation, create better care plans and improve patient outcomes, prepare for surveys, and ensure accurate OASIS reporting. All of the book's 75-plus checklists are also available electronically with purchase, facilitating agency-wide use and letting home health clinicians and field staff easily access content no matter where they are. This book will help homecare professionals: Easily refer to checklists, organized by condition, to properly assess a new patient Download and integrate checklists for use in any agency's system Obtain helpful guidance on assessment documentation as it relates to regulatory compliance Appropriately collect data for coding and establish assessment skill proficiency TABLE OF CONTENTS Section 1: Assessment Documentation Guidelines 1.1. Medicare Conditions of Participation 1.2. Determination of Coverage Guidelines 1.3. Summary of Assessment Documentation Requirements 1.4. Assessment Documentation for Admission to Agency 1.5. Patient Visit Notes For Hospice Nurses Keeping concise and accurate notes is crucial for correct patient care, and legally required in the most situations. Although Bedside Charting is the generally preferred method of note taking for Hospice Nurses, you quickly realise that it is not always practical, given the hands-on, rapidly changing nature of Hospice Care. This book is designed to simplify the process of patient note taking, and contains all essential information for appropriate care. It's also a great resource that helps to compile all your records into one convenient location, which should be kept for a number of years should any legal situations arise. It was designed with consultation and guidance from Dr M. Smithe. It is designed specifically for Hospice and home care Nurses, and contains the following: Index page (Quick Recap of which patient is on each page and the date of visit. Patient Visit Logs, and Notes for each Patient (1 Double Page Spread per Visit) Blank Notes Pages at the end of the book Each Patient Note Spread Contains the following: Date Scheduled / PRN Start and Finish Time Patient Name Mileage start and finish (For traveling hospice workers) Patient Pain (1-10) and description Temperature Blood Pressure Respiratory rate Heart Rate SO2 O2 LPM Last BM Left and Right MAC Weight Family / Facility Updated (Yes / No) Next Visit Date Medication supply confirmed Lined notes (3 / 4 page per patient visit) Notes for next visit 6 x blank input columns for personal notetaking unique to each hospice nurse. Book Features: 130 Pages 6 x 9 inch - very convenient size Printed on white paper Perfect bound, softcover book

Nursing Documentation Made Incredibly Easy Mosby Incorporated

Chart Smart: the A-to-Z Guide to Better Nursing Documentation tells nurses exactly what to document in virtually every type of situation they may encounter on the job, no matter where they practice--hospital, medical office, outpatient, rehabilitation facility, long-term care facility, or home. This portable handbook has nearly 300 entries that cover documentation required for common diseases, major emergencies, complex procedures, and difficult situations involving patients, families, other health care team members, and supervisors. In addition to patient care, this book also covers documenta

Home Health Nurse Notebook Patient Visit Notes Lippincott Williams & Wilkins

This pocket-size guide saves nurses precious time while ensuring that a complete patient record is created and that legal, quality assurance, and reimbursement requirements are met. This handbook provides specific verbiage for charting patient progress, change or tasks accomplished for approximately 50 common problems. The new third edition has been completely updated to include Critical Assessment

Findings, Subjective Findings for Documentation, Resources for Care and Practice, Legal Considerations, Time Saving Tips, and new Managed Care information. Plus, roughly 15 additional common problems and diagnoses have been added making this practical resource more valuable than ever. Diagnoses are in alphabetical order allowing for fast and easy access. Each patient problem or diagnosis found in this handbook includes specific documentation guidelines for the following aspects of nursing care: *Assessment of patient problem *Associated nursing diagnosis *Examples of objective findings for documentation *Examples of subjective findings for documentation *Examples of assessment of the data *Examples of potential medical problems for this patient *Examples of the documentation of potential nursing interventions/actions *Examples of the evaluations of the interventions/actions *Other services that may be indicated and their associated interventions and goals/outcomes *Nursing goals and outcomes *Potential discharge plans for this patient *Patient, family, caregiver educational needs *Resources for care and practice *Legal considerations for documentation, as appropriate Introductory chapters describe documentation, the medical record systems of nursing documentation, and current JCAHO and ANA standards related to documentation. Specialty sections provide important and specific guidelines for hospice care and maternal-child care. Appendices provide the latest NANDA-approved nursing diagnoses, descriptions of services provided by other disciplines, abbreviations, and a listing of resources (i.e., directory of resources, clinical newsletters and journals, Internet resources, further reading). Includes Time Saving Tips boxes to help minimize the time needed for documentation responsibilities. Each diagnosis includes a Critical Assessment Components/Findings section to help nurses with their critical decision making and determine whether an assessment finding indicates immediate attention or patient follow up. The Goals/Outcomes section of each diagnosis now appears at the beginning so that nurses know the intended goals and outcomes up front before beginning the assessment. All documentation guidelines now include sections on Examples of Subjective Findings for Documentation and Resources for Care and Practice. Includes Legal Considerations for Documentation as appropriate to highlight important legal issues. Part One has been updated to reflect the

current managed care environment, including new information required by the National Community of Quality Assurance [NCQA], so that nurses can incorporate and focus on these changes as they document

Parish Nursing HC Pro, Inc.

Improving Nursing Documentation and Reducing Risk Patricia A. Duclos-Miller, MSN, RN, NE-BC In the age of electronic health records (EHR) and value-based purchasing, accurate and complete nursing documentation is crucial. Proper documentation affects not only quality of care, but also facilities' costs and revenues. Redundant documentation wastes time and money, while inadequate documentation negatively affects Joint Commission core

measures and can result in license suspensions or legal action against a healthcare facility--an expensive and often damaging outcome. Improving Nursing Documentation and Reducing Risk helps nurse managers create policies, processes, and ongoing auditing practices to ensure that complete and accurate documentation is implemented by their staff, without creating additional time burdens. Nurse managers, especially new nurse managers, do not clearly understand their legal accountability for poor or inadequate documentation created by nursing staff who report to them. While each state's nurse practice act (NPA) differs, every NPA addresses nursing liability for documentation; however, many nurse managers remain unaware of these and other regulations that hold them accountable for the documentation crafted by their nurses. This book helps nurse managers protect themselves and their staff by clearly explaining to their employees the impact of documentation practices on reimbursement, educating them on the consequences of failure to document, and training them on how to document properly. This book will help you: Work directly with your staff to ensure accurate documentation Train nurses during orientation Educate your staff on the consequences of inaccurate documentation Create steps to share with your staff that will improve documentation Ensure complete comprehension of documentation issues through sample forms, auditing tools, and case studies Table of Contents Chapter 1: Contemporary Nursing Practice Includes Good Documentation Chapter 2: Contemporary Nursing Standards: Why it's Important for Nurses to Document Well Chapter 3: Reducing Professional Risk Through Documentation Chapter 4: Barriers to Good Nursing Documentation Chapter5: Improving Nursing Documentation Chapter 6: Electronic Medical Records: Advantages and Challenges to Good Nursing Documentation Chapter 7: Ways to Engage and Motivate Staff to Document Well Chapter 8: Improving Documentation and Outcomes

Handbook of Home Health Standards, Revised Reprint

Mosby Incorporated

This unique, spiral-bound handbook is compact, portable, and written with busy home health nurses in mind! Organized by body system, it offers instant advice on assessment and care planning for the disorders home health nurses are likely to encounter. Providing assessment guides for all body systems, the home environment, and the client's psychological status, it includes full care plans for over 50 illnesses and conditions most commonly encountered in the home. Each plan lists nursing diagnoses, short- and long-term expected outcomes, nursing interventions, and client caregiver interventions. Care plans are organized by body systems to allow for

quick retrieval of information. Both short-term and long-term outcomes are included in the care plans to aid evaluation of the care provided. Detailed assessment guidelines are provided for all body systems to facilitate complete and comprehensive client examinations. Guidelines for environmental and safety assessments aid in the appraisal and improvement of clients' living conditions. Client and caregiver interventions are outlined in the care plans to promote active client participation in self-care. The convenient pocket size makes transportation and use convenient to home health nurses. Appendices on documentation guidelines, laboratory values, medication administration, home care resources, and standard precautions provide quick access to useful home care information. Related OASIS items are identified in the assessment section, and ICD-9 diagnostic codes in the care plans section assist with proper home care documentation. Visit frequency and duration schedules are suggested within each care plan to assist nurses in evaluating and planning care. NANDA nursing diagnoses are consistent with the latest 2001-2002 nomenclature. An increase in suggested therapy referrals within the care plans and in a new appendix helps nurses identify indicators for specialized services. A fully updated Resources Appendix includes websites for easy access to home health service information.
