A Collection of Treaties

Nelson Thornes

Key features of this book include: * thorough coverage of all the key concepts in office procedures * complete and thorough coverage of the current CXC syllabus, obviating the need to use several texts * detailed guidance for the SBA component of the syllabus
Heinemann Office Procedures for CXC
Heinemann

A range of resources for CAPE has been specially developed to meet the requirements of the CAPE syllabus. This new textbook has been developed to match the requirements of the CAPE Management of Business syllabus. Full coverage of the CAPE syllabus is provided and the content has a clear

focus on the Caribbean economic and business environment. A distinctive feature is the provision of examination-type questions at the end of each major section. The questions come with a suggested time limits for answering, giving useful practice in how to allocate time for the final examination.

Management of Business for CAPE includes case studies from a variety of countries and industries, as well as an internal assessment component.

Written for use in secondary and

commercial schools throughout the Caribbean, this book is primarily designed for students preparing for the Caribbean Examinations Council (CXC) examinations, as well as other examinations in business studies, and will also prove useful to those wishing to know something about the world of business today.

Management of Business

Heinemann

This course is aimed specifically at grade 10 and 11 secondary school students in the Caribbean who are preparing for their C-SEC examination. The course is divided into three books: Management; Food and Nutrition; and Clothing and Textiles.

The CARICOM Bibliography

Frontiers Media SA

Solid waste has become a major consequence of development and modernization, yet some of the greatest challenges to its management are felt most keenly in the developing countries. This is part of the larger paradox of development; namely, that factors that create

the most intransigent problems currently facing the developing countries are invariably those which derive from development itself. Introduction This volume presents a collection of papers which, with perspectives from Africa and the Caribbean, raise critical issues in the management of solid waste. It is intended to offer a basis for discussion among the wide range of disciplines and sectors involved in solid waste management and suggest directions for future work both in the theoretical and practical dimensions of the challenge with which developing countries are confronted.
