Home Theater Subwoofers Buying Guide - Crutchfield

However, it's probably even more important to have a good subwoofer for home theater, as all the explosions and dinosaur footsteps are very low-frequencies. Where music is fairly lenient in terms of the lower-end extension of your subwoofer (rarely reaching below 30Hz), home theater setups can benefit greatly from extra low-end extension (the ability to hit lower frequencies).

Guide & FAQ Bringing your car sound system to the next level definitely requires adding a quality subwoofer. Unfortunately (or luckily, depending on how you look at it!), with so many different products on the market, finding the right one for your car and budget can be really challenging.

How to pick the right subwoofer - CNET

The subwoofer's job is to produce the very low tones of your audio system's dynamic range. A true subwoofer will be able to reproduce a 20 Hz test tone, which will be felt more than it will be heard (making it great for home-theater applications), but 30 Hz will do very well in most listening environments and for most music.
