Home Theater Wiring Guide Hdmi Cover exposed wiring While you may take

care handling your 50 ' \$200 HDMI cable, don ' t think that the rest of the people working on your home will equally appreciate its delicacy. After you ' ve wired your entire home, cover all exposed wiring with plastic bags. Wrap electrical tape around the bags to ensure they don't fall off. Professional Pre-wiring tips for Speakers, TVs, and Networking

Usually, using a 16-gauge wire is recommended for most home theater applications. However, if the wiring network for your home theater requires more than 50 feet of wire or if you want to set up in-wall or ceiling speakers, you may need to use a thicker wire (preferably 14 or 12-gauge) because long cable runs can cause considerable power losses.
