It is as though we are all living in the science fiction movies, Prometheus and Alien Covenant, by Ridley Scott, and our Ancient Alien Architect Engineers are coming back to mutate the species and exterminate as many humans as possible with Draconian genetic experimentation. Of course, the reality is that there are no Ancient Alien Architect Engineers from Outer Space and we are simply being exterminated by a network of secret society mystery school Transhumanist Technocrats who believe that Digital A.I. Driven Cosmic Consciousness and Apotheosis though secret Technological and Alchemical knowledge is their ticket to becoming Immortal Gods. We are in a Techno Spiritual War right now. Just look at Klaus Schwab. He is a character right out of Star Trek of Star Wars. He looks like a state official from the Galactic Empire as the Empire Strikes Back. They are merging science fiction Outer Space with their virus narrative at breakneck speed. I would not be surprised, at this point, if they stage a fake laser attack on The White House from above, like the scene from Independence Day, and claim we are under Alien Attack. Prepare for the Fake Alien Invasion soon so they can announce that their fake virus came from fake Outer Space. Just look at how far the Mars Rover Story is being pushed by NASA. These Luciferians are salivating to announce their fake Alien Contact Story. And their imaginary Planet GAIA is all they intend to defend in this fake Galactic Empire fictional narrative. Earth's inhabitants are being eliminated and supplanted with Human 2.0 genetically engineered hybrid machine creatures. Th Ruling Elite do not need us. They are moving on to Human 2.0, their Transhumanist Satanic Wet Dream. In their eyes, "Resistance is futile.", as if Star Trek were a nonfiction tale, and creating a Borg Mind of what will remain of the Human Species is their goal. The vaccine is not a vaccine at all. It's genetic modification.

"I love this sad, beautiful, hopeful book." --Kathleen Glasgow, New York Times bestselling author of Girl in Pieces and How to Make Friends With the Dark For fans of Nina LaCour and Jennifer Niven, a richly layered novel that's both uplifting and heartbreaking, about piecing yourself together after loss and the dark truths we choose to keep from each other and ourselves. San Francisco. New Year's Eve. A tragic accident after the party of the year. Cara survives. Her best friend, G, doesn't. Nine months later, Cara is still struggling, consumed by grief and a dark secret she'd rather forget. In the hopes of offering a fresh start, her mother sends her to boarding school in Switzerland, a place where no one knows what happened--and where they never will, if Cara can help it. But her new classmates Ren and Hector won't let her close herself off. They are determined to break down the walls she has so carefully built up. And maybe Cara wants them to . . . especially Hector, who seems to understand her like no one else does. The problem is that the closer Cara gets to Hector, the more G slips away. If moving on means letting go of the past--and admitting what she did that night--Cara's not sure how. But a second chance awaits, if she can only find the strength within herself. I'm the type of girl who's given up on fairy tales. So when Beck — the hot new busboy at work — starts flirting with me, I know better than to get my hopes up. Happily ever afters aren't for the average. I learned that the hard way. But how can I be expected to resist a man who can quote Austen, loves making me laugh, and seems to be everything hot and good in this world? Only there's so much more to him than that. Billionaire playboy? Check. Troubled soul? Check. The owner of my heart, the man I've moved halfway across the country to be with, who's laying the world at my feet in order to convince me to never leave? Check. Check. Check. But nobody does complicated like the one percent. This is not your everyday rags-to-riches, knight-in-shining armor whisking the poor girl off her feet kind of story. No, this is much messier. "Rich Boy takes you on a literal ride! Funny. Angsty. There's mean rich people and people you root for. It's a definite recommend from me! — Tijan, New York Times bestselling author "Rich Boy was witty, exciting and had the most intense slow burn romance I've read in a long time. The complexity of the characters was refreshing and made me wish for more!" —Audrey Carlan, #1 New York Times bestselling author

Basic Water and Wastewater Treatment discusses the water cycle, flow measurement, physical treatment processes, chemical treatment processes, biological treatment process, and sludge handling and treatment. The book also describes the use of the BASIC computer program to calculate problems involving water pollutants. Flow measurements involve the use of a gauging structure, velocity measurements of a known cross-section, or dilution gauging. To evaluate, in quantitative terms, the effects of a certain pollutant discharged and received by a body of water, the investigator can employ a tool in chemical dilution gauging—the mass balance analysis. Many microorganisms, organic and inorganic compounds degrade in a natural process of self-purification; their decay can be modeled as an exponential function. One standard of water treatment facility or wastewater treatment plant cannot be built to deal with all the various components of water pollution. The book cites relevant standards such as the EC Directive 80/778/EEC: "Quality of Water Intended for Human Consumption" in the EU; the "Safe Drinking Water Act" in the U.S.A.; and the "Guidelines for Drinking Water Quality" issued by the World Health Organization. The book describes water quality parameters, water supply sources, and wastewater collection, including its treatment and disposal.
