DIY Homemade Mini Jet Engine - RMCybernetics

The valveless pulse jet engine or pulse detonation engine is the most simple type of jet and is therefore popular among hobbyists as a DIY project. It is often referred to as a 'tuned pipe' because its operation depends upon making the parts the right size and shape so that it fires, or resonates at the engine's natural, fundamental frequency.

Plans for Turbine Jet Engines - Plans for Everything

The slightly posher homemade jet engine. The pulse jet is the thug of the jet family and the turbojet the middle class nutter. Ok so I've done pulse jets and it seemed only right to make one of these as they are little more sophisticated in appearance and have a more refined jet engine sound. However they are still quite simple in the ...
